IRENE'S "Rienzi." In response to the praise it has gone to Georgetown in recent years, we are pleased to announce that the Collegians, and the Glee Club will furnish the music. Many sketches and short acts will help to round out the program, and a most enjoyable evening is assured and guaranteed for all. The audience will be seated in the Quadrangle, but these intentions were prohibited by inclement weather. Therefore, at 1:15 in the afternoon, the students of Georgetown and Regent of the School of Foreign Service, under whose auspices he is to speak, as a part of the winter series of lectures on Russia offered annually. Although the address will be delivered largely in French, the speaker will synopsize his points in English at intervals.

A large and distinguished audience is expected, including many members of the Diplomatic Corps and government officials who have expressed their intentions of attending the lecture.

Dr. Iorga is probably the outstanding intellectual figure in Roumania today. A prominent statesman, scholar, and journalist, he has contributed much toward promoting closer and more friendly relations between that country and the United States. The list of his literary and historical works constitutes and extensive bibliography. The two which have appeared in English are "The Byzantine Empire" and "A History of Roumania." Because of the scholarly nature of his work and his unusual background as a historian, he is quoted extensively in many monographs of Roumanian and foreign policy. And for this reason, the debate will be the most interesting, as well as the most important undertaken this year by Georgetown. The judges of the debate are men who are prominent in governmental affairs. They are the Hon. George E. Martin, Chief Justice, Court of Appeals; the Hon. Frederick L. Siddons, Justice of the Supreme Court, District of Columbia; the Hon. Charles S. Hatfield, Associate Judge of the United States Customs Appeals; the Hon. Robert J. Mawhinney, Solicitor of the United States Treasury, and Rear Admiral William Shepherd Benson, U. S. N.

RELIGIOUS MEETING HEARS FR. WALSH

Speaks on Religious Persecution in Russia—"Trotsky" Subject For Last Friday Night's Lecture.

Last Sunday afternoon, at 4:00 o'clock, in Constitution Hall, there was a meeting of American citizens, gathered for the purpose of condemning the anti-religious movement now sweeping Russia. The 4,000 people that attended were addressed by the foremost elements of Washington, irrespective of creeds. The Rev. Edmund A. Walsh, S. J., was the principal speaker of the program, speaking on the religious persecution. His intense, well-reasoned discourse moved the audience to a deeper perception of the perils attached to the attempted annunciation of religion now going on in Russia. It is frequently the case that the reiteration of a central theme, no matter how varied the angles from which it is treated, gradually bore down the audience. Furthermore, the continual reiterations of the same idea only become boring. Therefore, it is a compliment of the highest order to Fr. Walsh that a considerable number of his audience at the present time have beenTot.

PHILODEMIC-PRINCETON DEBATE WILL BE IN GASTON HALL SUNDAY NIGHT

Georgetown to Have Negative of Subject, "Resolved, That the Kellogg Peace Pact Is a Sound Basis for the Foreign Policy of the United States"—Lynch, Hayes, and McQuaid to Comprise Team.

On next Sunday evening, March 16, Georgetown University will debate Princeton University on the question, "That the Kellogg Peace Pact Is a Sound Basis for the Foreign Policy of the United States." Georgetown will defend the negative side of the question. The speakers, for the home team, are Robert Connelly, '31, and Gerald Burger, '31. For Princeton, the speakers are J. V. Vancise, of New Jersey; E. D. Lucas, of India; and J. V. Vancise, of New Jersey. There will also be a humorous treat¬ment of the question, and a two-act drama based on Bulwer-Lytton's "Rienzi." In response to the praise it has gone to Georgetown in recent years, we are pleased to announce that the Collegians, and the Glee Club will furnish the music. Many sketches and short acts will help to round out the program, and a most enjoyable evening is assured and guaranteed for all. The audience will be seated in the Quadrangle, but these intentions were prohibited by inclement weather. Therefore, at 1:15 in the afternoon, the students of Georgetown and Regent of the School of Foreign Service, under whose auspices he is to speak, as a part of the winter series of lectures on Russia offered annually. Although the address will be delivered largely in French, the speaker will synopsize his points in English at intervals.

A large and distinguished audience is expected, including many members of the Diplomatic Corps and government officials who have expressed their intentions of attending the lecture.

Dr. Iorga is probably the outstanding intellectual figure in Roumania today. A prominent statesman, scholar, and journalist, he has contributed much toward promoting closer and more friendly relations between that country and the United States. The list of his literary and historical works constitutes and extensive bibliography. The two which have appeared in English are "The Byzantine Empire" and "A History of Roumania." Because of the scholarly nature of his work and his unusual background as a historian, he is quoted extensively in many monographs of Roumanian and foreign policy. And for this reason, the debate will be the most interesting, as well as the most important undertaken this year by Georgetown. Mawhinney, Solicitor of the United States Treasury, and Rear Admiral William Shepherd Benson, U. S. N.
A frequent criticism made by students coming from other parts of the country is the common sentiment prevailing towards the youth in the universities. Much is being said at present concerning the value or necessity of a college course, which belief tends to fill the institutions to their respective capacities in many cases. The result of this thirst for learning is a rather prevalent belief that he is beyond childhood in years, perhaps, although not in mind.

One of the greatest peculiarities of our country is the common sentiment prevailing towards the youth in the universities. Much is being said at present concerning the value or necessity of a college course, which belief tends to fill the institutions to their respective capacities in many cases. The result of this thirst for learning is a rather prevalent belief that he is beyond childhood in years, perhaps, although not in mind.
Introducing

GASTON TEAM CHOSEN FOR FORDHAM DEBATE

Glavin, Tiernan, White and Loughran Chosen—Jury System Debated at Last Meeting.

From the eleven members of the Gaston Debating Society that tried out for the team to represent the organization in the coming debate with Fordham University, four men were chosen: Edward Glavin, Bert Tiernan, Martin White and Frederick Loughran, who will be the alternates. Those trying out for the team showed such evenly matched oratorical skill that it necessitated for the judges to bear an exasperating rebuttal from each one after the regular speeches had been given.

The Gaston-Fordham debate will be held in New York on Friday evening, April 11. In the debate the Gaston team will assume the negative of an argument similar to that in which they showed their superiority over the White Debating Society in the annual Gaston-White Debate held last December. The proposition is: "Resolved, That a State Certificate of Valid Election Should Be Sufficient to Induce a Senator to Abstain from Voting in the Body of the Senate." In the debate the Redman will have the White phrase "without question" added.

The Gaston-Fordham debate will be held in New York on Friday evening, April 11. In the debate the Gaston team will assume the negative of an argument similar to that in which they showed their superiority over the White Debating Society in the annual Gaston-White Debate held last December. The proposition is: "Resolved, That a State Certificate of Valid Election Should Be Sufficient to Induce a Senator to Abstain from Voting in the Body of the Senate." In the debate the Redman will have the White phrase "without question" added.

Resolved, That the Jury System Should Be Abolished," was the topic of an ardently contested debate which took place at the last meeting of the organization held Thursday evening. The victory was granted to the affirmative team, composed of Messrs. James Murphy and Arthur Carol. Donald Stout and DeWitt Dunn were the speakers of the negative. Mr. O'Hara was adjudged the best speaker.

According to David Dyer, the president of the organization, every member of the debate body will have had a chance to speak at least once since the beginning of the year, after the first debate. It is hoped to repeat the visitation by members being given the preference. The story reads like a Graustark novel, but aside from the really serious aspect, many other amusing little details are added with a consummate skill. The material which it contained is rarely found in criticism of the book. If that is so, then it is no wonder that the book has been so widely read. The book this year was put out at a cost of $7,000, of which the majority was raised from friends and students. The book has been received with enthusiasm, and the demand for copies has been so great that it is necessary to print the book at a cost of $7,000. The book is expected to be in the hands of the buyers by the end of the month.

GLEE CLUB TO SING FOR FOUNDERS' DAY

Members Pleased With Reception at St. Paul's—Much Practice for Annual Concert in Gaston Hall.

The next appearance of the Glee Club will take place on the evening of March 24, the day before Founders' Day. The Club is looking forward to the celebration at the take place on Founders' Day, for which event a detailed program is being outlined.

The members of the Club are pleased concerning the decided success witnessed on March 4, when they performed at a joint concert with St. Paul's choir, at the auditorium of the latter. On this occasion the word of appreciation was cordially extended to Mr. Donovan, director of both the club and the choir, for his ability and the efforts of the leaders of the singers. This program also presented several delightful piano solos, rendered beautifully and skillfully by Mr. William McLarney, '30, and Mr. William Hoffman, '32, while Charles Bartolli, '29, pleased the audience with violin melodies. The Glee Club has been busily at work in preparation for Founders' Day, and it is gradually rounding out into prime condition. Through the practice of the members in the Concert in Gaston Hall, the climaxing event of the Club's activities, the members will be presented on Founders' Day. Judging from their recent appearances and continuous preparation, very much is to be expected from the songs at this significant occasion.

WILLIAM GERETY SOPH TEA DANCE CHAIRMAN

Bengert, Gloetzer, Canning, and Powell Chosen Committee

—Date Set for May 3.

On Thursday, March 6, the Class of '32 assembled for the annual Sophomore Tea Dance. The occasion was a very successful one, and the committee realized that it will be working under a disadvantage in attempting to hold a successful tea dance, for it is very likely to come into conflict with many other similar social events which are held during the spring. Therefore, the members of the committee have a very capable manager in William J. Hoyt, '32, who has been chosen to act as Chairman of the Committee. Mr. Gerety has been very prominent in the activities of the Class and is a very responsible manner in which he carried out his duties as Chairman of the Sophomore Tea Dance Committee. This was well expressed when he was elected by an overwhelming vote.

(Continued on page 7)
A comparison of records of different sections of the country is a pleasant topic for Hoyagrams, particularly when one runs out of the meagre thoughts one has, and especially when there is nothing dangerous about it. With this prelude we may safely say our say and then quiet down.

The East appears to have the edge in the field events of track and field games, that is, where the Mid-West and South are concerned. The far, far West are too timid to make their claim. The 42-pound shot put this year in the Mid-West was won by a mark of around 44 feet. The best the South could do was under 44 feet. Lew Parlette and Sleek both officially registered tosses of over 43 feet, but neither of them were able to place. This difference may be such that we can assign to it is that the East must possess the better coaching staffs and the best equipment.

The time for the mile-relay winner of the Southern Conference was 4:37. True, the track on which the meet was held is extremely poor. But even a very poor track cannot put forth a difference of seconds. Harvard's upsetting team sped around the oval in 3:29. There is hardly any comparison between the two times.

OUTBOARD CLUB IS ENTERED IN I. C. C. R.

Mile and Two-Mile Relay Teams to Race—Kjellstrom and Sexton to Compete.

Tonight, at the K. C. Games in New York, Georgetown is well represented by the one- and two-mile relay teams, Sexton in the shotput and Kjellstrom in the hurdles. Carlin, Ricca, Burke, and Briggs compose the mile team and Jutlickers, Kelly, Mara, and Downing make up the two-mile team. Sexton will probably win the shotput if he continues the sterling exhibitions which he has been giving the past few weeks. Kjellstrom should give a good account of himself, although in all fairness to him it should be remarked that the short distances indoors are not to his liking and he has had little experience at such short distances. Our mile and two-mile teams are in the peak of their form and should give a good account of themselves, and it is about time for the two-mile team to bring home the bacon for the Blue and Gray.

BASEBALL SCHEDULE FOR 1930

Date               G. U. Opp.

THE HOYA

OUTBOARD MOTORBOAT RACING AT GEORGETOWN UNIV.

Those who have felt the thrill of shipping waves and the wind on their face from a motorboat will be interested to learn that a serious attempt at being made to launch an outboard motorboat team at Georgetown. Anyone wishing information on the matter should communicate with John Bodkin, Room 32, Old North, or John Milton, Room 36, Ryan, just as soon as possible.

GEORGETOWN SWAMPED BY COLUMBIA FIVE

New System of Officials Inaugurated—Blue and Gray Badly Outplayed—Dillon Highest Scorer for G. U., With 5 Tal¬lies

The curtain was drawn on Georgetown University’s current basketball season by suffering defeat at the hands of Columbia University. Credit students were the only regulars who are missing from last year’s team. Tierney and Wholey and Malone, will probably take the places of the latter’s floor. A feature of the game was the presence of three officials, instead of the accustomed two. The innovation called for a more methodical pace of play, and it did not seem more like a crack college team playing a team of college varsity regulars than it did two college quintets settling their difficulties on the basketball runway.

Schoenfeld sent Columbia ahead shortly after the game opened when he scored on a pretty pass from Bender. An outfielder, Captain Duplin, is the only regular who is missing from last year’s team, and Captain Ralph McCarthy, Whelsey and Malone, will probably take care of the garden.

With two weeks of hard training at the War College field in their favor, Georgetown’s baseball players are preparing for their day of battle. The War College, with Tierney and Morris in the lineup, will be the first to test the strength of the Hilltoppers on March 26th. Many new tactics are being steadily drilled into the aspirants for the Hilltop team of 1930 daily on the Freshman Field. Freshman Field has been used for the past week for practice and will be continued to be used in the future due to the turn-up condition of Varsity Field.

Rhythm is the keynote that Coach Mills is instilling into the play of the gridders. The players are now beginning to show the players the different shifts are being constantly gone through to obtain the rhythm that is the essential of the Notre Dame style.

The system is so fundamentally different that for a time the Warner system of play, used by Lou Little that many days have been spent in just taking these fundamentals and have been getting along very well. It will be a few weeks before the new system will be thoroughly imbedded into the play of the gridders, especially in that of the veterans. Coach Mills and his assistants, Mandusian, Colrick, and Murphy realize and will be continued to be used in the future to obtain the rhythm that is the essential of the Notre Dame style. The system is so fundamentally different that for a time the Warner system of play, used by Lou Little that many days have been spent in just taking these fundamentals and have been getting along very well. It will be a few weeks before the new system will be thoroughly imbedded into the play of the gridders, especially in that of the veterans. Coach Mills and his assistants, Mandusian, Colrick, and Murphy realize and will be continued to be used in the future to obtain the rhythm that is the essential of the Notre Dame style.

Two plays are given to the gridders daily. The coaches have been known thorough-ly before going on to other things. On the defense many new tactics are being taught, but they have been taking great pains in showing the players the different plays. This personal attention shown by the coaches will be a great factor in the success of next season’s grid team.

FOOTBALL IN 1888.

The following is an excerpt from the Georgetown University Journal of November, 1885. It throws a Little light on the football situation of that period.

As the weather is gradually growing colder, the baseball is now making room for football, and little by little this most healthful of all sports is being looked upon with a favorable eye. A football eleven has been organized under the captancy of J. R. Slattery, with the following members: Rushers, McLaughlin, Abell, Woodward, Power, Healy, Mallan, and Maher; quarter-back, L. Kernan; half-backs, K. Kernan, N. B. Kernan, and John Mahaney. The team has already met a couple of times for discussion of the rules and after a little more practice it is expected that they will be perfectly formed for the game.

The first game was played last week against sixteen men picked from the home team. It was of considerable interest to the players and to the spectators, and was well played, considering the number of green hands involved. It resulted in favor of the eleven, by a score of three touchdowns and one goal against nothing for their opponents. It is the intention of the eleven to try to engage some games with the neighboring colleges before the season ends.
January, with practically an inexperienced team, Georgetown's total for a ten-week period of a man team in four positions was 3,316, of a possible 4,000. During the week ending March 31, in the first competition held against other colleges during the past two weeks, it has been won. An encouraging feature lies in the excellent promise for next year's team, since but one member of the present team will be lost by graduation. The results being obtained by members of the present Freshman class, especially Rifle and Field for state competition, are excellent. In a match fired with the Freshman team on a field at Carnegie Tech, recognized as a leading college in rifle marksmanship, the Georgetown Freshmen defeated them by seventeen points, the team being made up of Freischlag, Burns, Largay, Tarry, Ahern, Bawden, and Redman.

Rifle firing is making rapid strides as a sport in all leading colleges. In fact, at many of the colleges, as Navy and Ohio State, it is recognized as a major sport. Because of the peculiar conditions under which matches are fired, this sport offers an excellent opportunity for establishing athletic relations with other colleges, possibly in any other way. There are two methods of conducting competitions, either shoulder to shoulder, when the competing teams are actually present on the same range, or telegraphic, where each team fires its own shots and wires its scores to other competitors at the conclusion of the match.

With no expense to Georgetown, the Rifle team during the present season, has or will have established athletic relations with the following colleges and universities in rifle firing: Iowa State, Princeton, Navy, Western Maryland, Columbia, University of Wyoming, A. & M. College of Mississippi, Gettysburg, University of Cincinnati, University of Washington, University of Chicago, South Dakota State, Tennessee, Davidson College, Kansas Agricultural College, Iowa State College, V. M. I., University of Southern California, University of Delaware, Texas A. & M. College, Illinois University, Connecticut, University of Pennsylvania, University of Alabama, N. C. State, Massachusetts Agricultural College, University of Dayton, Carnegie Tech, Lafayette, University of Wisconsin, University of Kentucky, Georgia Tech, New York University, North Dakota State, South Dakota State, Leland Stanford, Johns Hopkins.

SODALITY SMOKER TUESDAY EVE. Continued from Page 1

At the present time, a general collection is being taken up for Father Daniel Sullivan, S.J., Georgetown's own adopted missionary, who is at present laboring for souls in British Guiana. In this, the season of pence and good works, what more of an opportunity for doing a good work than this? Every little bit counts, so if each and every man, both resident and day student, fills his quota to its limit, our own "Community Chest," as it were, and if everyone does his share in the best possible way, we will have a fitting purse, a purse worthy of the students, worthy of the Society, as it has been the custom of the Catholic Holy Day of Obligation, to be sent to our missionary in the far flung reaches of Minhera.

There was no meeting of the Sodality of Our Lady on Tuesday evening, March 4.

CLEVELAND ALUMNI TO HAVE DANCE.

On Tuesday evening of Easter, April 20th, the Cleveland Alumni Association of Georgetown University will hold their annual spring dinner-dance in the club rooms of the Cleveland Chamber of Commerce. Mr. James Gleason, 28th, the Secretary of the Alumni Association, will be chairman of the committee to handle the details of the dance.

The Cleveland Alumni Association has not yet announced what the proceeds of the affair will be devoted to, but they will most likely be given to the Athletic Association as they have in former years. John Hopkins University, a band that has turned out a highly satisfactory music at other Georgetown parties held in the Fifth City, will play again this year. Meals for the dance can be obtained through any of the members of the Georgetown Alumni Association. The tax will be $1.00.

ACADAMIES TO BE CREATED.

The recent announcement of the first Jesuit College, which was founded in Maryland in the year 1654. The Randall Academy, which is being formed and named for James Ryder Randall, who matriculated at the College for six years, finishing his studies in the year 1878. The President of the Academy is called for a noted mathematician and astronomer. He is especially famous because of the fact that he was a master of Gregorian church music. Dr. Vico was at Georgetown during the early part of 1848.

The HOYA expresses its sincere condolences to Maj. William H. Hoge, head of the Military Department over the recent death of his brother, Maj. Walker Hobe, U. S. A., who was killed in action.

G. U. SWAMPED BY COLUMBIA.

(Continued from page 3)

Something seemed wrong with the Blue and Gray machine, for they were beaten by the second and third teams they met, being unable to score. This may partially be explained by the fact that Georgetown met two of their strongest teams of the current season on two successive nights, having met New York A. C. the night before. Nevertheless, whatever was the cause of their poor showing, this much is certain, that basketball outfits can be unseated by a determined enemy, and victory impossible, Coach McNamara decided that there was no sense in wasting the inexperienced Donaldson. He stopped the fight before it had really begun and Fincura was awarded a technical knockout.

WARDMAN PARK SCENE.

Donovan Chosen Committee Chairman — Cooperation of Students Praised by Modernz fry.

On Sunday, March 9, the Washington Club of Georgetown held a meeting for the purpose of determining the place and date of their first dance, informal, to be held as the Easter holidays. After much discussion, the members of the different schools decided on Wardman Park as the most suitable place for the affair.

In choosing the committee, particular care had to be taken so that the different departments of the University would have a suitable and capable representative on it. The president selected Mr. Donovan of the Medical School as temporary chairman.

Those chosen to assist him were: Messrs. Harry Topatin and Bill Rowan of the Law School, Andre De Perry of Foreign Service, and Robert Talbott of the Hilltop.

Mr. Gowan, the moderator, gave a brief talk in which he praised the members of the club for the splendid spirit of cooperation they have shown, especially since it is the first club of its kind that has made an attempt to bring a union between the members of the several schools of the University and the members of the Alumni. He supplemented this remark with an approval of the steps the club has taken in its function and the choice of the place for their Easter dance. Likewise, he expressed his desire to obtain a complete formal enrollment of the members of the club so that in the future they could be notified concerning the various activities that are to take place.

PROSPECTIVE STUDENTS!

The office has advised the student body that steps for the registration of friends or relatives of present students who desire to enter Georgetown next year should be taken immediately to insure or even make possible such a registration.

FOREIGN SERVICE TO GIVE THIRTEEN PRIZES

Awards Donated by Diplomats, Alumni and Students, and Friends — Nine Gold Medals Listed.

The following medals and prizes will be awarded to students of the School of Foreign Service of Georgetown University at the University Commencement on the 9th of June, 1930:

The Prince Albert de Ligne Gold Medal, for the best essay on a subject of Romanian History, presented by a member of the class in Political and Diplomatic History. Founded by His Highness, Prince Albert de Ligne, Ambassador of Belgium to the United States, for the purpose of encouraging the study of Belgian History.

The Nicholas Jorga Gold Medal, for the best essay on some phase of Romanian History by some member of the classes in the Political and Diplomatic History. Founded by Dr. Thomas H. Healy for the purpose of encouraging the study of Romanian History.

The Tarakanth Das Gold Medal, for the best essay on "Trade Possibilities Between the United States and India." Founded by Dr. Tarakanth Das, an alumnus of the School of Foreign Service, for the purpose of promoting better relations between India and the United States.

The Miguel Cruchgaga Gold Medal, for the best general record in the class on inter-American Problems. Founded by Senior Benjamin Cohen, former Secretary of the Chilean Embassy in Washington, for the purpose of encouraging students of inter-American Relations.

The Miguel Cruchgaga Gold Medal, for the best essay on the First Conference on the Codification of International Law, by one of the students in the classes of International Law. Presented by Senator Benjamin Cohen, former Secretary of the Chilean Embassy in Washington, for the purpose of promoting interest in the work of the codification of international law.

The W. Coleman Nevis Gold and Silber Medals (two), awarded to the two students who have the highest record in the course in Foreign Relations of the Far East.

The Prince Albert de Ligne Gold Medal, for the best essay on "Trade Possibilities Between the United States and India." Founded by His Highness, Prince Albert de Ligne, Ambassador of Belgium to the United States, for the purpose of encouraging the study of Belgian History.

The Nicholas Jorga Gold Medal, for the best essay on some phase of Romanian History by some member of the classes in the Political and Diplomatic History. Founded by Dr. Thomas H. Healy for the purpose of encouraging the study of Romanian History.

The Tarakanth Das Gold Medal, for the best essay on "Trade Possibilities Between the United States and India." Founded by Dr. Tarakanth Das, an alumnus of the School of Foreign Service, for the purpose of promoting better relations between India and the United States.

The Miguel Cruchgaga Gold Medal, for the best essay on the First Conference on the Codification of International Law, by one of the students in the classes of International Law. Presented by Senator Benjamin Cohen, former Secretary of the Chilean Embassy in Washington, for the purpose of encouraging students of inter-American Relations.

The Miguel Cruchgaga Gold Medal, for the best essay on the First Conference on the Codification of International Law, by one of the students in the classes of International Law. Presented by Senator Benjamin Cohen, former Secretary of the Chilean Embassy in Washington, for the purpose of encouraging students of inter-American Relations.

The Baron Serge A. Korff Memorial Prize, awarded to the student obtaining the best record in either of the courses in Political and Diplomatic History of Europe. Founded by Miss Margaret French Cresson.

The Father Edmund A. Walsh Gold Medal, for the highest average in the course in Economic Principles. Founded by the Delta Epsilon Foreign Service Fraternity to promote interest in the study of Economics.

The International Relations Prize, a gold medal awarded to the student who presents the best paper on a designated modern question in International Relations. For the present academic year the subject is "The Role of the Congress of the United States in the International Relations of the United States." The medal this year will be awarded to the student in the course on Practical American Government under Senator David J. Walsh, who presents the best paper on the designated subject. This medal was founded by Mr. Henry Vem Berge, a former student in the School, for the purpose of promoting interest in the study of important modern factors in International Relations.

MARCH JOURNAL AT PRESS

(Continued from page 1)

given to the Latin excerpts which have appeared in the past few issues, there will be three aboriginal Horace translations.

There has been much said by way of comment upon the change in the designs with their futuristic themes as compared with the rather monotonous and conventionalized in previous years. It would seem that, although the old covers were more in harmony with the somewhat preserved policy of the Journal, the new ones are meeting with more favor due to their striking and attractive natures.

In response to many questions being asked on the campus last week, the chairman of the February issue did not represent anything in particular, merely being four sketches by the Art Editor, Tom Daily, 30.

Matter for the April issue is now being submitted. All contributions should be brought to the attention of the Editor, Alex. St. John.

GERETY TEA DANCE CHAIRMAN

(Continued from page 2)

The chairman has announced that his committee will consist of the following men: Lawrence A. Bengert, Jr., of New York; Daniel A. Canning, of Lynn, Mass.; John M. Glotzner, of North Carolina; and John E. Powell, of Chevy Chase, Md. This body has already begun work on the dance program, and will be held some time in May, probably the 22nd. The chairman has announced that his committee is going to do all within its power to make this a great success.

The chairman is certain that his group will be successful in carrying out its plans. He feels that his assistants are men of such ability and are so determined in their purpose that they will inevitably meet with success. When interviewed, Mr. Gerety said: "I am confident that the Sophomores' initial effort as a social host will be a great success."

The prize consists of a marble trophy. Founded by Margaret French Cresson.

The Father Edmund A. Walsh Gold Medal, for the highest average in the course in Economic Principles. Founded by the Delta Epsilon Foreign Service Fraternity to promote interest in the study of Economics.

CHAIN STORE MOVEMENT DEBATED BY FOREIGN SERVICE.

"Resolved, That the Chain Store Movement is beneficial to the United States," was the subject of the debate held in Marketing course in the School of Foreign Service on March 4. The affirmative of this current problem was upheld by Messrs. Brand, Bodell and Valtz, the negative by Messrs. Lankacker, Bell and Brod. The result, taken at the conclusion of the debate by ballot, the entire class acting as judges, was 32 to 17 in favor of the affirmative.

SEISMOLOGY RECORDS PUBLISHED

On a number of occasions during the month of February, the daily papers published interesting reports on many earthquakes. The most severe was in Wellington, New Zealand, yet in our own country shocks of less intensity did considerable damage at Brawley and Calexico, Calif., two weeks ago. At the Georgetown University Seismological Station, the director, the Rev. W. S. Sohion, S.J., has compiled a careful reading and record of all the tremors. He has also just completed a detailed report of his findings for the past month, copies of which have been made for distribution.

February bulletin of the Seismological Observatory contains twenty-two earthquakes recorded during the month the exact time of each train of waves received, and the period of the oscillation together with its amplitude in millimeters as measured on the trace. The readings for the records of last October have also been finished, bringing the reports up to date, and these will be mailed with the February bulletin to all parts of the world. The Georgetown reports are valued also because of the supplement which contains the non-instrumental reports of the earthquakes received through the courtesy of the Associated Press, inasmuch as these supply an independent confirmation of the instrumental records and are often of assistance in the identification of doubtful phases. This additional data gives the number and duration of the tremors together with details of the damage that resulted in each city or town. Father Sohion also states that the seismographs are keeping an accurate record of the activities of the pile driver, which is at work on the foundation of the new senior dormitory.

GEORGETOWN UNIVERSITY
SODALITY HAS GOAL OF A THOUSAND DOLLARS

Request Cooperation of Day Students—First Week Brings Fair Results.

With the collection among the resident students well under way, the Mission Committee of the Sodalitium is now focusing its attention on the drive to secure a fund of $1,000.00, which they hope to be able to deposit in a box which has been placed on the Sodality Bulletin Board in the middle of the lower Healy corridor. The committee realizes that if every man has been canvassed, the fund will be easy to attain the $1,000.00.

The committee has been informed that if there will be no difficulty in attaining the $1,000.00, the committee has asked for the support of the general student body.

WHITE SOCIETY HAS BUSINESS MEETING

Official Insignia Discussed

Death Penalty to be Debated at Meeting Tonight.

The White Society held a short meeting on Wednesday, March 5. There was no regular debate scheduled for the evening, so it was given over to a business discussion. The matter of the official insignia of the society was brought up, and the society's pins were exhibited to the members and officers taken.

The next meeting will take place on Wednesday, March 12. There will be a debate held that evening between four members of the Freshman class. The purpose of this is that the society desires that every member shall be given the opportunity to debate at least once during the year. The question which will be debated is, "Resolved, That the Death Penalty Should Be Imposed Only Upon Persons over 21 Years of Age." The affirmative side of this question will be upheld by Mr. Gallagher and Mr. O'Donnovan, Mr. Kelly and Mr. Cole will defend the negative side of the case.

RIFLE TEAM DEFENDS SOUTHERN CALIFORNIA

Last week, the varsity rifle team added another victory to its steadily-increasing list, by defeating the University of Southern California. The score on both teams was exceptionally good. Paul Byrnes, '33, led the field with a score of 271. Robert Furman, '32, and Thomas Griffin, '30, followed with second and third places.

Plans for a shoulder-to-shoe match with New York University are now being discussed. The officers of both teams agree that this match will be held in the coming month and that the team will be represented by the best men at both places.

FR. CONNELL VISITS COLLEGE

A visitor at the Hilltop during the week has been the Rev. Francis M. Connell, S.J., Prefect-General of Studies of the Maryland-New York Province. He has been making his annual survey of studies and academic conditions throughout the Jesuit schools in his territory and during the past few days has been attending various classes at the College in company with the Rev. R. Rush Rankin, S.J., Dean of the College of Arts and Sciences.

Father Connell is the author of two textbooks widely used in the field of history. One is "A Study of Poetry," which the freshmen classes at Georgetown are using now, while the other is a "Greek Grammar."
CARDINAL HAYES ENDORSES TOURS.

His Eminence, Patrick Cardinal Hayes, Archbishop of New York, who has just returned from his ad limina visit with His Holiness, Pope Pius XI in Rome, leads the list of dignitaries of the Catholic Church who are in accord with the objects of the newly-formed Catholic Students Travel League. Cardinal Hayes today gave his official endorsement of the organization. The national headquarters of the league are located at No. 551 Fifth Avenue, New York City.

His Eminence, Cardinal Hayes, has always been interested in the spiritual education of the young people of his archdiocese. His official endorsement of the Catholic Students Travel League gives added impetus to the project in the Catholic institutions under his jurisdiction. The Cardinal recognizes the educational benefits of a visit to Europe and especially under proper guidance.

William Cardinal O'Connell, Archbishop of Boston, and three hundred church dignitaries and leading educators at Catholic colleges and schools throughout the United States, also have endorsed the program of the league. This list includes the presidents of the leading Catholic universities and schools.

The league serves the travel requirements of all Catholics planning trips abroad and affords all members on its tours the opportunity of seeing the Holy Father in special audience. Sixty-three attractive tours, each limited in the number of its membership, have been arranged by the league for 1930 and on most of the itineraries attendance of the Passion Play at Oberammergau is featured.

A group of distinguished ecclesiastics are members of the Executive Council of the Advisory Board of the Catholic Students Travel League. The chairman of the Executive Council is Rev. J. Coleman Nevils, president of Georgetown University, while the chairman of the Advisory Board is the Very Rev. Thomas J. Deegan, president of Cathedral College, New York City.

The league has designated the Cunard Line as the official trans-Atlantic company in which its tour members will travel to and from Europe. Tourist third-class accommodations will be used in the main, and the travelers are assured of the utmost in comfort and service on such well-known vessels as the Berengaria, and others.

Two tours, the itineraries of which call for visits to France, Germany and Switzerland, are of thirty-two days' duration at an all-inclusive price of $385. Other tours will run a week or more longer. Two special tours of 60 days will cover practically all of the western and southern parts of Europe and will include Ireland, England, Germany, Austria, France, Italy, Switzerland and Czechoslovakia.

DELTA SIGMA PI FRAT HOLDS TEA DANCE

Having Series of Smokers—Number of Social Affairs to Follow During Spring.

The Mu Chapter of the International Fraternity of Delta Sigma Pi gave its first informal Tea-Dance for the second semester on Sunday, March 2. There was a large turnout for the affair, making it a success from all angles. Mu Chapter is at present holding a series of smokers as is customary at the beginning of each semester. Considerable interest is being evinced in these getherings, both among chapter members and guests. Plans are now being formulated for the launching of a number of social affairs which should make the spring semester even more enjoyable socially than was the fall.

Columbia, Mo. (IP)—A substitute for radium, known as mesothorium, is being manufactured in the University of Missouri by a group of chemistry students, and is believed to be the only manufacture of this product in the United States.

From $5,000 to $25,000 worth of the material, which has virtually the same properties as radium, is produced annually in the miniature factory here under the direction of Dr. Herman Schlundt, and Dr. G. E. Breckenridge.

On Tuesday, May 6, the Seismological Society of America will hold a meeting at Georgetown University. Rev. W. Coleman Nevils, S.J., President of Georgetown town, will deliver the opening address.

SPORT SUITS FOR SPRING.

"Red" Cunningham, '31, says that sport suits in the new tan and gray shades will be very popular, and are to be seen at Grosner's, 1325 F Street.

The friends of Judge William H. De Lacy, L.L.M., '84, at 4 West Kirk Street, Chey Chase, Md., were shocked by his sudden death at his home on March 3. Judge De Lacy was Dean of the Law School at the Catholic University of America and prominent in the development of Juvenile Court methods throughout the U. S.
DR. IORG A LECTURING FRIDAY  
(Continued from page 1)  

For many years Dr. Iorga was a member of the Roumanian Parliament, and was the standard Roumanian, respected and admired by friends and enemies alike. His extraordinary ability and fearless courage, coupled with unusual frankness and integrity, have earned for him the honor and respect of all groups in Roumania, even though many of them differ radically with him in some of his policies. He is a rare example of a real national figure whose efforts in the cause of his country are so conspicuous that he has risen above mere party lines and political dicthing.

This semester has been making an extensive tour of the United States and has just returned from California in order to fulfill his engagement at Georgetown. Tomorrow night a dinner is to be given in his honor by Dr. Thomas H. Healy, Assistant Dean of the School of Foreign Service. Dr. Healy recently offered a gold medal to be given in honor of the visitor for the best essay on some phase of Roumanian history.

MEETING HEARS FR. WALSH  
(Continued from Page 1)  

allowing his lectures on Russia, ever since their beginning five years ago. Father Walsh is a refutation of the statement that a lecturer eventually becomes stereotypical. Perhaps it is because he gives the impression that he is vitally wrapped up in the subject upon which he is in one of the leading authorities in America.

Last Friday evening, Father Walsh, continuing his sketches of Russian leaders, developed the character and the life of a man second in importance only to Lenin in the scheme of the Soviet State, namely, Leon Trotsky.

"As Nicholas Lenin was the brains of the October revolution, so Lenin Trotsky was the sword of the same." This is a statement of the most important deduction concerning Trotsky to be made from the talk. Early in life Trotsky evinced his anti-royalist tendencies, and "when a Russian unsheathes his sword in class warfare he throws away the scabbard." This fact was of great profit to Lenin, whose zeal the latter made use of in directing the all-important military activities of the Soviet State.

The fact that Trotsky is of Jewish extraction may serve in some measure to explain his fanaticism, for his racial prejudices gathered in his youth served to explain his fanaticism, for his racial prejudice.

At twenty-one he was arrested as a dangerous revolutionist and banished to Siberia, from whence he escaped after a short time. His second imprisonment, for life, was terminated by the same means. This second punishment was brought about by the part he played in the unsuccessful revolution of 1905. Shortly after the first sentence had been summarily brokct Lenin. "There began a shadow of one man, Lenin." He was spared on the matter of royalty by the execution of his brother. Now we see that the former Lenin's aide-de-camp is goaded by racial prejudices.

"The Soviet State is the lengthened shadow of one man, Lenin." He was spared on the hatred of royalty by the execution of his brother. Now we see that the former Lenin's aide-de-camp is goaded by racial prejudices.

PHILODEMIC DEBATE SUNDAY  
(Continued from Page 1)  

All of the speakers are men of great experience in the field of debating, and John F. Lynch, '30, is the winner of the Merrick Prize in this art, which award he won in December, 1929, Bernard J. McQuaid and John C. Hayes are also outstanding members of the Philodemic Society.
