FOREIGN SERVICE HAS EXERCISES

Fifth Anniversary of Founding Observed—Many Prominent Men Address Gathering—School Has Brilliant Record.

Academic exercises commemorating the foundation of the School of Foreign Service were held in Gaston Hall, Georgetown College, on Friday evening, November 21, at 8:15 o'clock. Among the guests were Sir Ernse Howard, British Ambassador to the United States, and the German Minister. A large number of Washingtonians prominent in business and diplomatic circles filled the auditorium, and the entire faculty and student body were present.

The anniversary was the occasion for the gathering of one of the most imposing arrays of oratorical talent that has ever graced the stage of historic Gaston Hall. The regent of the Foreign Service School, Edmund A. Walsh, S.J., was the first speaker. He recalled a similar meeting in Gaston Hall five years ago, when the school was founded, and said that the happy success that the school has enjoyed since its birth has amply vindicated those who have worked for its founding.

Mr. T. Emmet McKen

LAW SOCIETY BEGINS CONTESTS

The Senior Debating Society held the first public debate of the school year last week, and after a hotly contested debate the following men were selected as the best debaters: Mr. T. Emmet McKen, John T. Hicks, and William A. Roberts.

The question for debate was, "That Capital Punishment be Abolished." The debate was well attended by members of the student body and faculty members.

PHILONOMOSIAN DEBATERS CHOSEN

At the trials for the Philonomosian Prize Debate, held last Monday evening in the philodemic room, the following named men were selected to be members of the team: Mr. Robert M. Hitchcock of Pennsylvania, Mr. Leo Fahy of Georgia, Mr. William C. Gillan, '26, of Massachusetts, and Mr. Thomas Loughlin, '26, of New Hampshire. The date of the prize debate has not been definitely decided upon as yet, but it will take place shortly after the Christmas holidays.

FOOTBALL PROM

Tomorrow night at Rauscher's, the annual football prom given by the Georgetown University Athletic Association, Minihan, rushed through to grab Gemmellion's fumble of an intercepted pass. Scooping up the oval, the Hilltop center raced 25 yards to the Gray line.

GEORGETOWN WINS OVER LOYOLA 25-0

Georgetown University's eleven romped over the Loyola University "Wolves" in their second appearance at New Orleans in her first appearance in that section of the country since the Blue and Gray warriors were defeated in Gaston Hall by a score of 69-0 in 1916. Georgetown was easily the superior team from start to finish. Her goal line was never in danger, and so well did the Blue and Gray warriors perform that Loyola only managed to gain two first downs in the entire game. Captain Harold Winling's punting (ruled for Loyola) Time and again his accurate toe lifted the ball far down the field, and saved the Wolves when Georgetown threatened. Hagerty, Guffey and Metzger performed brilliantly in the backfield for Georgetown, while Sheehan, Connaughton and Minihan were bright lights of the Blue and Gray line.

Minihan Scores Touchdown.

Loyola, fighting mad, held Georgetown scoreless in the first quarter, but in the second period Jerry Minihan, the crack G. U. pivot man, governed the Blue and Gray's initial score. Repeating past performances, Minihan dashed through to grab Gemmellion's fumble of an intercepted pass. Scooping up the oval, the Hilltop center raced 25 yards to the Loyola goal line to give his teammates a lead in the contest. Tony Plankey smashed his way through in the third quarter for the second touchdown after Loyola had held on the third down only inches away from the final chalk-mark. In the final period, a flashy drive by Georgetown ended when Jack Hagerty planted the ball behind the goal post for a third score.

Georgetown's last touchdown was made in the closing minutes of play. Golden blocked Wenling's punt and Connaughton recovered on Loyola's 16-yard line. With but 10 seconds of play remaining, Georgetown began another drive. Lou Metzger skirted off tackle and just as he was a few steps from the goal line the timekeeper's gun was fired. However, as the play began before the time was up, and so was allowed to be continued. Metzger forced his way over the goal line on the second play of the drive. Score: Georgetown, 25 Loyola, 0.

Penn Game Pictures Shown

Pictures of Commencement and Grid Battles on Program—Pep Meeting During Intermission.

Moving pictures of the various activities of Georgetown University during recent weeks, and a film of the game between George-town and Loyola last week, were shown in Gaston Hall last week. This presentation afforded the student body the opportunity viewing pictures of commencement exercises and historic gridiron battles of past years. The first pictures to be flashed on the screen were of recent commencement exercises. Then followed the Georgetown-Lafayette game of 1922, in which G. U. was victorious by the score of 13-7. The great battle of this year's football season against the University of Pennsylvania, who defeated Georgetown by the scant margin of three points, was next on the program.

During the intermission, time was devoted to arousing pep for the Georgetown-Fordham game in New York. The pep talk was given by Frank Bowen, '26, and a speech by Mr. Gerald F. Murphy, '26, was sufficient to stir up the enthusiasm of the student body.

JUNIOR DENTS HOLD DANCE

Function Held at Franklin Square Hotel—Music by DeWitt's Orches—Pep Meeting During Intermission.

The Junior Class of the Dental School held their annual dance on Thanksgiving Eve at the Franklin Square Hotel. The affair was one which was highly successful in every respect and which exceeded affairs of this sort that have been run in the past. DeWitt's orchestra furnished the music for the occasion and those who attended the dance were greatly satisfied with the performance of the symphonists. The committee in charge of the dance appointed the judges for the night as follows: "Resolved, that the concurrence of at least two-thirds of the judges of the Supreme Court should be required to establish the unconstitutional nature of an act to the extent of any straight playing for the greater part of the game.

FORDHAM SPRINGS SURPRISE ON G. U.

Hilltoppers Defeated in Final Contest of Year—Blue and Gray Machine Unable to Stem Fordham Attack—Graham is Brightlight of Game.

Fordham's football team finished the season last Saturday, when Fordham was able to catch up with the Blue and Gray warriors. The Blue and Gray warriors entered the game as favorites to win, but Fordham showed insufficient ability to carry away the victory by a 9 to 0 score. The weather conditions were not the least conducive to good football, there being muddy and slippery, and both teams resorted to straight playing for the greater part of the game.

At the start of the game Georgetown was unable to make any substantial gains through the Fordham line, and Brooks kicked to Graham, who ran the ball back for a first down at the Fordham 40-yard line. After an exchange of punts, the New Yorkers started a drive from their 40-yard line. They repeatedly caught the Georgetown linemen off their guard with their quick thrusts at the line, Graham caught a forward pass from Manning and crossed the line for Fordham's first score. It was during this Fordham drive that Captain Sheehan was forced to retire on account of injury, thus making a big loss in the strength of the Georgetown line.

MERRICK DEBATE TO TAKE PLACE

Annual Contest in Gaston Hall—Murphy, Brennan, Callaghan and McRaney to Compete for Coveted Honor—Date, Dec. 14.

On Sunday evening, December 14, the annual Philodemic debate for the Merrick Medal will take place in the Gaston Hall. This debate has long held the interest of Georgetown men and has been well contested in the past. It is expected that this year's prize debate will be of the same high caliber that has marked past performances of the Philodemic debaters.

An interesting question of national scope, in nature, has been decided upon for the forensic exhibition. The question reads as follows: "Resolved, that the concurrence of at least two-thirds of the judges of the Supreme Court should be required to establish the unconstitutional nature of an act to the extent of any straight playing for the greater part of the game.

The affirmative side will be upheld by Mr. Esmond D. Murphy and Mr. Joseph B. Brennan, Messrs. Thomas A. Callaghan and James E. McRaney will argue the negative side of the question. Mr. James E. Pickenbrook has been named as chairman for the debate. The participants and the chairman are members of the Senior Class.
LAW SCHOOL MEN
ON OPPOSITE SIDES
Naval Oil Suit Finds G. U. Men Facing Each Other—Hogan, Camarillo and Hoover Represent Different Factious.

Out in Los Angeles, Calif., where the Government's big naval oil land suit is in progress, informal reunions are being held by four of the principal attorneys representing the various factions. Each of these attorneys is a product of the Georgetown School of Law.

After the daily legal clashes in the court room, they forget their differences at the bar, and often engage in a lengthy chat about their common Alma Mater.

Frank J. Hogan, of the Class of 1902, is making a fight in defending the oil suit, and has as his assistant J. J. Cotter, a graduate in the Class of 1913.

Robert B. Camarillo, assistant United States attorney, who has been the chief counsel for the Government during most of the trial, is a graduate of the Class of 1914, and is regarded as one of the leaders of the California bar.

The fourth graduate of the Law School is George P. Hoover of Washington, of the Class of 1907, who is representing the Sinclair oil interests.

BIOLOGY.

Because of the Thanksgiving holidays, there was no meeting of the Biology Club last Wednesday, but at the meeting held the previous week, on Wednesday evening at 7:30 P.M., in Gaston Hall, two very interesting papers were read to the club members.

Walter Alexander, of the Freshman Pre-Medical Class, was first called upon by the chairman, and the subject of his thesis was the "Protozoa." The importance of the protozoa to the student of biology was ably expressed by Mr. Alexander in his treatment of the subject. This statement was clearly illustrated when the speaker informed the club that the study of physiology was entirely dependent on the study of the cell, and that the protozoa is the most adaptable unicellular organism for the examination of the functions of the cell.

"Shallow Water Fauna" was the title of the paper which was next read by George Austin, also of the Freshman Pre-Medical Class. During this reading the club was informed of the mode of living of different kinds of fish and that they are of many characteristics. Mr. Austin emphasized the great part which seaweed plays in the protection and nourishment of young fish. Many species of fishes are identical in color and make use of seaweed in which they breed. Another impressive fact which was included in this talk was that all self-moving fish have eyes which are very keen in perceiving objects, while stationary aquatic animals have no eyes.

The Rev. Francis J. Tambort, S. J., Chancellor of the club, in his criticism of the papers, commented very favorably on the preparation and the results attained by the speakers.

"The Foreign Service School—Its Present, Future, and Imperfect Subjugation."
by Al Africa (himself). Lec. 8, "Accounting, Theory, and Facts."

Theoretically, accounting is a method of getting all the information you can about your business in order to profit thereby. In fact, it is a method of keeping all the information you can about your business from the income tax collector, in order to do the same thing.

Most business houses keep books. This is especially true of bookstores, but whereas bookstores keep books because they can't sell them, other concerns keep them so that the bookkeepers will have something to keep of. Of course, they can't sell them, either, but they can (and do) do lots of other things to them.

Accounting could be described in a very few words, but then I don't use that kind of words. The practical application, after all, is the most important part, so I will try to give a few reasons why there should be a ledger in every home. We will take the case of a young man at college, by name, John Smith, Jr.

On January 28th, J. S., Jr., receives a check for $50 from J. S., Sr.: on February 1st he balances his book, and makes out the following statement of Profit and Loss:

<table>
<thead>
<tr>
<th>Profit</th>
<th>Loss</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$50.00</td>
</tr>
</tbody>
</table>

He sees at once that this will be insufficient data to supply his source of credit, so he makes out the following Balance Sheet:

**"BALANCE SHEET."**

<table>
<thead>
<tr>
<th>Assets</th>
<th>Liabilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash</td>
<td>Ford</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>$1,02</td>
<td>12.89</td>
</tr>
<tr>
<td></td>
<td>$15.66</td>
</tr>
</tbody>
</table>

PULL A GOOD ONE
When You Write—or Lend
A Pen You Need Not Apologize For
Never Failing—Never Ailing

With a Jewel-Smooth 25-Year Point No Style of Writing Can Distort

OWN the black-tipped lacquer-red classic pen with which SUCCESS associates. A sharply balanced pen that will help you give the world the kind of impression you are capable of creating by a rapid, characterful hand.

A pen you can pull out in public, and lend without a tremor, knowing that the other man's style of writing can't alter the point one particle.

A pen with a jewel-smooth point that goes exactly where you want it, for 25 years' WEAR. Hence the most economical pen you can buy.

A pen you can fill by simply pressing a Button that is capped inside the barrel when it doesn't mar the beauty or catch on the clothing. A clean pen to carry and handle on account of the Ink-Tight seal achieved by the "Lucky Curve" feed and the double sleeve of the Duo-Sleeve Cap.

Any good pen counter will sell you this super-writer on 30 days' approval—flushing plain black, or black-tipped lacquer-red—the color that makes it hard to mislay.

PASTEUR SUBJECT
OF CHEMISTRY SERVICE

Robert E. Maher Gives Interesting Lecture—Mr. Gookin, S. J., Also Speaks.

The Chemical Society of Georgetown College held its second bi-monthly meeting for November on Monday evening, October 24, in the chemical lecture room. Mr. Robert E. Maher, of the Sophomore B. S. class, addressed the society with a lecture on "The Life and Works of Louis Pasteur." Mr. Maher's lecture was one of the finest that has been given by a member of the society and was appreciated by all present as an interesting and instructive effort. The lecturer covered the renowned chemist's life thoroughly and emphasized his devotion, almost a passion, for his chosen science, chemistry. He then proceeded to tell of Pasteur's modesty and how this great Frenchman was the most perfect man in the world of science. He said that Pasteur's study consisted chiefly in atomic reaction and that the eminent scientist's works in this, his favorite field, had resulted in many and great advances in the chemical world. Mr. Maher next spoke of the many different departments of chemistry which Pasteur has been interested in and made greater by the magic of his touch. Among these were his work on germes, the growth of the yeast plant, antiseptic surgery, silk worms (through which work France was enabled to pay off her war debt of 1870), the spreading and checking of contagious diseases, molecular dessynametry and vaccinations. In his summary, Mr. Maher said that the study of medicine could safely and accurately be divided into two periods, before and after Pasteur, and that a study of Pasteur's life should be an inspiration to everyone to cultivate the best that is in him.

Mr. Vincent Gookin, S.J., the moderator of the society, then addressed the members and commented very favorably on the evening's lecture. Mr. Gookin spoke further of Louis Pasteur and said that the French scientist had probably saved more lives than any man that has ever lived, and that to read the life of Louis Pasteur would be of more value to a medical student than a dozen volumes on medicine. An unusual feature of the meeting was a life-size and life-like picture of Pasteur sketched on the blackboard by Mr. Victor R. Alfaro, of the Sophomore Pre-Medical Class. The picture is one of Pasteur at work in his library and all who have seen it have nothing but the greatest of praise for the artist. The society gave a rising vote of thanks to Mr. Alfaro for his generous work.

UNIVERSITY CALENDAR.

Thursday, December 4.
Regular weekly drill of the R. O. T. C. at 2:10 P. M.
Meeting of Gaston Debating Society in the Philodemic room at 7:10 P. M.
Friday, December 5.
Football prom at Rauscher's from 9 until 2 o'clock.
Saturday, December 6.
Football tea-dance from 4 until 7 o'clock at Rauscher's.
Sunday, December 7.
Mass for student body at 8 A.M. in Dahlgren Chapel.

Benediction at 7 P. M.
Monday, December 8.
Football—Annual Sophomore-Freshman game on varsity field at 3:30 P. M.
Meeting of the Philomonomian Debating Society in the Philodemic Room at 7:30 P. M.
Weekly meeting of Literary Society in room 1 at 6:45 P. M.
Tuesday, December 9.
Sodality at 6:25 P. M. in Dahlgren Chapel.
Philodemic Debating Society meeting in Philodemic Room at 7:30 P. M.
Meeting of Chemical Society in chemistry lecture room at 7:10 P. M.
Wednesday, December 10.
Meeting of Biology Club in Gaston Hall at 7:15 P. M.
E. D. White Debating Society meeting at 7:15 in Philodemic room.

JUNIOR TEA DANCE GREAT SUCCESS.

The Junior tea-dance, which was held at the New Willard Hotel on Saturday, November 22, proved to be the outstanding social function to date. The class of '26 spared no expense in their efforts to make this affair a real success. Dick McDonough and his colleagues furnished the music, which was thoroughly enjoyed by all. The largest gathering to attend any tea-dance thus far was on hand and the committee was well pleased with the way things turned out. A great deal of credit is due the committee in charge, who so cleverly handled the affairs and who were the means of its being such a success.

The committee in charge was as follows: John Conklin, chairman; Paul J. Reynolds, Frank A. Ruffer, John Eustace, and Otto Saur.

Columbia's extension courses are now reaching more than 20,000 persons. The authorities are now experimenting with extension courses by radio.

At ALL news-stands—Now

THE HOYA
With the rudiments of Coach's Little's system fairly established and with the development of her players, Georgetown was finally something well, is it not? Their ability and knowledge of the game needs no questioning and there is every indication that next year's team will undoubtedly be one of the best Georgetown has ever sent out on the football field.

Consistent performers among the Georgetown forwards during the entire season were Capt. Fred Sheehan, George Murtagh, Harry Connington, and Nute Busch. Especially laudable was the work of Captain Fred Sheehan. Not one man who opposed was a match for him. Time and again he smashed through the opposition to toss the ball carrier for a loss or to drop the reserves of punts in his tracks.

Jack Hagerty, Georgetown's star half-back, was easily the highest man of the backfield. His offensive and defensive work was of the highest caliber. His breaking up of aerial attacks saved Georgetown often when circumstances threatened to cross her goal line.

When considering the stars of the season, the work of Jerry Minihan, Georgetown's diminutive pivot man, must not be overlooked. Though small and light, he was a power on the defense and offense. Jerry formed a habit of grabbing the elusive oval and galloping 25 yards for a touchdown that proved quite annoying to opponents.

Tomorrow night brings the football prom, the first formal affair of the year. Instituted for a worthy cause, it deserves your patronage. Show your appreciation to the team and coaches by being there when the first strains of syncopation sound throughout the ballroom at Rauscher's.

FR. DOYLE'S NEW WORK.

A recent acquisition to the reading world in general and the Hirst Library in particular is the new book entitled "The Sacraments: What They Are and What They Do," by the Rev. Fr. Michael T. Doyle, S. J. The work has been written in a most attractive manner and will be of the highest interest to all classes of readers.

ON OTHER CAMPUSES.

Before the close of the football season, Lafayette College selected the leopard as its mascot. A skin was worn by a student at all the football games after the adoption.

The University of Nevada has abolished cuts for seniors and juniors in recognition of the upper classmen's sense of responsibility and seriousness.

The University of Minnesota is offering a trip to Los Angeles by way of Seattle to all expenses paid to the student who sells the greatest number of "Gophers." The Minnesota football book will be distributed to all students in order to acquaint them with the principal players of this year's team.

With the decadence of classical learning there has been a corresponding reaction in American education, and a novel instrument was used to determine whether or not enough rain had fallen to affect attendance at the games.

Clemson College has almost returned to normalcy following the recent strike of half of the student body, numbering 300. Twenty-three members of the senior class were dismissed, while four seniors and 108 juniors have been suspended for the school year. The cause of the strike was dissatisfaction with the food and the suspension of the senior class president for a year.

Valparaiso University contracted for insurance of athletic contests against unsettled weather, and a novel instrument was used to determine whether or not enough rain had fallen to affect attendance at the games.
Gaffey Counts.

However, the Hilltoppers came back fighting and started a march towards the opposing goal line. Gaffey then took the ball over the line from a cross-over formation on the first play of the second period. His try for a goal failed when the muddy ball slipped from his hands. The Fordham line braced after the following kick-off and stopped the Blue and Gray attempts to gain consistently.

The rain fell steadily during the third period and put the field in poor condition for fast playing. Fordham received the kick-off and after an exchange of punts was in possession of the ball at mid-field. Manning, Shane and Gaffey then proceeded to advance the ball towards the Georgetown goal line. However, the Blue and Gray team stopped their opponents on the 15-yard line and thus prevented what seemed a certain touchdown. Shortly after the Maroon again started in the direction of the Hilltoppers line. Their fast backs had little trouble arriving at the Georgetown 50-yard line, but again the Blue and Gray held and a pass intercepted by Hagerby ended another rally.

The Fordham drive was stopped on the Georgetown 10-yard line. Graham then stepped back and kicked a field goal, which gave Fordham a lead of three points. Georgetown tried desperately to score, but their opponents managed to hold them off until the final whistle announced a Fordham victory.

Mr. William Manger, assistant in the Latin-America courses in the School of Foreign Service, and who has been awarded the Degree of Bachelor of Foreign Service, and master of foreign service, has just been appointed secretary and disbursing officer of the American delegation to the third Pan-American Scientific Congress, which will assemble at Lima, Peru, on December 29 next.

At the close of the Congress Mr. Manger will accompany Dr. Leo S. Rowe, director general of the Pan-American Union, on a trip through the Central American republics.

What's the use of artificial lightning?

It is mainly experimental, aiding General Electric scientists to solve high power transmission problems. Many such experiments yield no immediate return.

But in the long run this work is practical and important. It is part of the study which must go on unceasingly if this powerful force, Electricity, is to be fully tamed and enlisted in your service.

---

FORDHAM DEFENDS G. U.

Continued from page 1

Gaffey Counts.

During the final period snow fell and it became necessary to turn on the grandstand lights. Fordham made another desperate effort to score a touchdown, and once "Zev" Graham broke loose, only to slip and fall on Georgetown's five-yard line. The Hilltoppers again showed their strength when the Blue and Gray backs began to gain consistently. The final Fordham drive was stopped on the Georgetown 10-yard line. Graham then stepped back and kicked a field goal, which gave Fordham a lead of three points. Georgetown tried desperately to score, but their opponents managed to hold them off until the final whistle announced a Fordham victory.

The Georgetown team played erratic ball and the Fordham players were quick to take advantage. Graham was undoubtedly the star of the game, and even the Georgetown rooters could not help admiring the masterly fashion with which he directed the Maroon attack.

FRESHMAN ELEVEN PREPARING FOR ANNUAL CLASH MONDAY WITH SOPHS

Game on Varsity Field—Freshmen Have a Strong Team—Sophs Should Show Up Well—Many Varsity Men to Play.

By LAWRENCE SULLIVAN, ’28.

Although the 1924 varsity football season is closed, the students of Georgetown still have one more chance to see a Georgetown football team in action. This is the game in which the Blue and Gray count and to the Greenbriar Military Academy, victories had been scored over Swavely that was much anticipated of the Blue and Gray. The game will show the players who will be in the varsity line-up against the Naval Academy Plebes. The Blue and Gray will be marching to the field at 2 p.m. sharp.

The official rules of the game will be in force, and the Blue and Gray will have a large guard that will be determined by Coach O’Reilly. The place of the Blue and Gray in the varsity line-up will be determined by the coaching staff.

The Blue and Gray have a strong team, but the sophomores are expected to be well represented in the team line-up.

Downs Naval Academy School.

The coaches have not participated in many games this season, due to many and various changes and cancellations in the schedule of games. Few members of the student body have seen the frosh in action outside of their practice sessions and scrimmages with the varsity of the Hilltop. However, those who have seen the scrimmages and practice sessions have no doubt that the Blue and Gray will be competitive and will be able to give a good account of themselves.

The frosh game will be played on the new field, which has been constructed to the specifications of the varsity football team. The field is expected to be ready for the game, and the sophomores are expected to be well represented in the team line-up.

The Blue and Gray will be prepared for the game, and the Blue and Gray team will be ready to play against the sophomores.

Basketball and Track Start Soon.

Yearlings Administer Drubbing
to Plebes—Dwyer Makes 50-
Yard Run for First Counter—
McLain Stars for Georgetown
Freshmen.

While the varsity was defeating Loyola, the Georgetown Freshmen went over to Annapolis and handed the Naval Academy plebes a 13 to 6 defeat. It was an interesting and hard-

fought game, and the better team

won. The Georgetown yearlings re-
peatedly outplayed their opponents but the Middies took good advantage of every break and forced the Hill-
toppers to fight hard for whatever

breaks they gained.

Georgetown drew first blood when shortly after the beginning of the in-
itial period, Bob Dwyer ran off tackle

50 yards for a touchdown. Grigsby

shortly after the beginning of the in-
scored the seventh point by a pretty

period, Bob Dwyer ran off tackle

advanced the ball to Georgetown's 35-

yard line. Hannegan, Navy quarter-
back, then tossed a short forward pass

for the extra point. Resorting to the forward pass-

missed the drop-kick for the extra

point. Trying after touchdown by

drop-kick—Conklin (2) (both failed).

Substitutions—Maguire, Lawless for

Dempsey, Ryan, McDonough for

Schlotterer, Slavin for Hickey, Ward

for Thaete, Fisher for Spronkle.

Try for point after touchdown by

drop-kick—Conklin (2) (both failed).

Substitutions—Maguire, Lawless for

Dempsey, Ryan, McDonough for

presented the dean of the school, Wm. H. Notz, Ph.D., who gave an interesting summary of the work accomplished by the school since its inception, and expressed the hope that increased success would be its lot for the future. He was followed by Rev. Charles W. Lyons, S.J., present rector. Father Lyons impressed upon the students the weight of their obligations to their country in their diplomatic work in the future, pointing out the peculiar advantage that is theirs in being students of the first school of its kind in the country, not having at their disposal the vast treasures of the National Capital. At this point in the program the Georgetown Alma Mater was sung by the students, to the music of the college band.

Comprising the second part of the evening’s program, three speeches were made by government representatives. Hon. John J. Tigert, U. S. Commissioner of Education, congratulated the students upon their achievements to date, and brought out the ideals for which they should stand in the nation. In a brilliant and pleasing speech in behalf of the State Department, Hon. J. Butler Wright, Assistant Secretary of State, offered felicitations of the President to the faculty, and assured them that the government will gladly co-operate with the University towards the growth of the Foreign Service School. He said that in its few years of existence it has proved its right to a place among all university curricula. At the conclusion of Mr. Wright’s talk, Father Walsh closed the exercises, stating that it is the earnest hope of all that at the school’s next commemorative exercises, twenty years hence, the record of its achievements will appear as a great and glorious contribution to the most important of government offices, the foreign service.

Mr. and Mrs. Thomas M. Monroe announce the arrival of a baby boy, whom they have named Thomas Melton, Jr., born October 31, 1924, at Bremen, Germany.

Mr. Monroe was awarded the Certificate of Foreign Service from the School of Foreign Service in June, 1923. He is at present employed as claims agent and assistant to the Director of Operations of the United States Lines or private concerns that operate with the Leviathan and the best of the ships. Stationed at Bremer Haven, Germany.
