FRENCH QUARTERLY APPEARS NEXT WEEK

Second Edition for Present Scholastic Year—French Novelist and Men of Letters Discussed—Contributions Asked

The Georgetown French Quarterly will issue its second edition of the year next week, February 17, and the following day it will be placed on sale in the college store where all who so desire may obtain copies.

This feature of the work of the editor is a joint article by Thomas J. McCormick, of the French Department, and Domingo Caino, of the Spanish Department, both members of the Graduate School, and their choice of the topic, "History of Religious Thought in the Sixteenth and Seventeenth Centuries," should interest all students of history.

Student Contributions

Edward F. Hebert, '32, editor-in-chief of the Quarterly, contributes an excellent article on the French novelist, Cervix, the younger. John Milton, '32, managing editor of the publication, favors the issue with a discussion of "Le Neve de Rameau" by Denis Diderot, which is instructive and of particular interest to students of French literature.

Another article of interest is that of John Agafan, A.B., on Jossambou in "Manon Lescaut." It is to be remarked that the publication is not limited to stories in French and that any article on a subject of interest to students of French is acceptable. Although it is not yet a year since the periodical made its first appearance, it has already established for itself a reputation, and it is felt that its value to students can be materially enhanced by the assistance of undergraduate students whose literary contributions, such as book reviews, essays, translations, and stories, may be written entirely in English.

SPORTS FLASHES

Georgetown beats Western Maryland and West Virginia, but loses to Army, Loyola, and K. of C.

Intra-Mural basketball progresses rapidly.

Al Kelly places in Millrose games.

Freshmen lose fast game to Central, but win from Gonzaga.

(Details of these and other sporting events will be found on page 4.)

BOOK BY FR. SOHON MAKES APPEARANCE

Is Evidence of Work Done in Field of Seismology at University Station—First Comprehensive Book on Seismological Instruments in English

Within the last 21 years the Georgetown University Seismological Observatory has been responsible for the installation of 11 seismographs in four localities, namely, the Hilltop, Guatemala City, Guatemala; Woodstock, Md., and Western College, Mass. These stations were established by the late Rev. Francis Tondorff, S.J., at one time in charge of the Georgetown seismograph, and have been under the direction of the Hilltop Observatory. During this time theoretical as well as practical work has been done in the field of seismology as evidenced by the recent publication of a book entitled, "An Introduction to Theoretical Seismology; Part II, Seismometry," by Rev. Frederick W. Sohon, S.J., a former director of the Georgetown Observatory.

Matter Treated

This volume, which is the first comprehensive work on seismological instruments in English in book form, fundamentally discusses oscillatory motion and contains a general treatment of the main classes of instruments; those which register the horizontal, and those which record the vertical acceleration of the earth, respectively. It also comprises a description of recording mechanisms; a treatise on the static and the

HILLTOP HOST TO ROUMANIAN ENVOY

Luncheon Given By Rev. Father Rector—Held in Riggs Annex in Georgetown College—F. S. School Heads Present

The Rev. Dr. W. Coleman Nevils S.V, president of Georgetown University, was the guest at a luncheon in the Riggs Annex in honor of the Minister of Roumania, Mr. Charles A. Daviau, at 11:45 o'clock Sunday afternoon.

Siderouss Pasha, Egyptian envoy, with attachés of both legations and ranking officers of the university, were present. The Hon. Wallace S. Murray, chief of the Division of Near Eastern Affairs in the State Department, was a guest.

Distinguished Guests

Those who were present, in addition to the envoy of Roumania and Egypt, were: Mr. F. C. Nemo, Counselor of the Roumanian Legation; Mr. George Boncesco, Financial Counselor; Dr. Andrei Popovici, Secretary of the Legation; Aly Lamay Bey, First Secretary of the Egyptian Legation; Rev. Fr. Edmund Walsh, S.J., vice president of Georgetown; Rev. Fr. Joseph A. Farrer S.J., treasurer; Dr. James Brown Scott, authority on international law; Dr. William F. Knott, dean of the Foreign Service School; Dr. Thomas H. Heady, assistant to the foreign service, and Mr. John G. Bowen, assistant to the secretary of the university.

POETRY SOCIETY HEARS FR. BURKE

Speaks on Technique in Art—Is Second in Series Given on Aesthetics—New Lecture Program Arranged

On Thursday evening in Copley Lounge Father Francis Burke, S.J., addressed the members of the Gerard Hopkins Society on the subject of "Technique in Art." This lecture, which was well attended, was the second of a series which Father Burke is to give to the society under the general topic of aesthetics. An interesting discussion followed the lecture.

The mid-monthly meeting, which will be held on Thursday, February 21, will open further questions to discussion among the members. Dr. Bernard Wagner, formerly editor of the Journal and at present lecturing in Freshman English, will talk to the members and read some of his own work. Other members are invited to bring their own poetry to read before the society.

Program Completed

The program of lecturers who will appear on the first Thursday of each month is now complete. Mrs. Caroline Guilt, editor of the Carillon, a magazine devoted to American Governmental Ideas As Opposed to Those of Russia, was invited to bring her own poetry to read before the society.

The opening of Georgetown's celebration in honor of the bicentennial of George Washington's birthday will be marked by a series of 10 lectures, conducted by the Rev. Edmund A. Walsh, S.J., Regent of the School of Foreign Service. These will be delivered in Gaston Hall, commencing on Friday, February 19, and continuing weekly until May 6.

Many Tickets Distributed

These discourses will be in the nature of many instructive papers of the principles of American Government and its political traditions, as conceived in George Washington, in opposition to those of Soviet Russia, as defined by its founder, Lenin. Father Walsh will point out that this latter nation has publicly proclaimed that governments such as that established by Washington and his collaborators are a menace to humanity and should be liquidated by force. Mindful of this, many thoughtful persons of our own day have formed an opinion that these two systems, so diametrically opposed, must eventually clash in one final Titanic conflict.

The immediate and enthusiastic response with which the citizens of Washington greeted the first announcement of these plans is attested to by the fact that in one week's time over thirteen hundred persons, exclusive of Georgetown University students, have purchased tickets, although Gaston Hall has a seating capacity of but one thousand.

VARSITY DEBATERS PRESENT SCHEDULE

Composed Mainly of Juniors and Sophomores—To Meet Two, Possibly Three, Teams—Unemployment Insurance Subject

Georgetown's Intercollegiate Debating Team, with more than a score of undefeated seasons behind it, has announced its schedule for the current year. There will, in all probability, be three debates, in accordance with the custom of the team. The first appearance will be made at Georgetown on Sunday, March 13, against Johns Hopkins University. Washington and Lee will then be engaged, probably on the following Sunday, also in Washington. The third debate will be held some time in May. The opponent has not been definitely settled upon, but negotiations

However, Bill, being industrious, studies the lesson faithfully each night. Due to the
educated.

tween teacher and student is inevitably formed wherever there is close and frequent
paratively small. Such arrangement has many advantages. The most outstanding
the large number of his classmates, he receives but few recitations throughout the
it difficult to hear the professor speaking and hence misses much of the lecture.
cover and correct any deficiencies that might exist. When the student receives
and comprehensive advantage is the fact that a strong sense of cooperation be-

on each one at frequent intervals during the year, is able to discover and help
the tardy student and, due to the intimacy that naturally arises from such co-
operation, is forever anxious to offer advice whether it may pertain to class-work
or to outside matters. Such advantages have no doubt been the experience and
observation of everyone on the Hilltop.

When considering the advantages and disadvantages a college has, many fail to
recognize seemingly immaterial points as the one mentioned. But the manner in
which one is taught is just as important as the matter that is taught.

FOREIGN SERVICE FRAT ADMITS NEW MEMBERS

Dr. Strakhovsky and Professor Dostert Become Members—Many Alumni Brothers Present—New Men Admitted

At the recent fall semester initiation of Kappa Alpha Phi, the distinguished Foreign Service fraternity, Alpha Chapter was privileged to add to its rolls the names of Dr. Lev U. Strakhovsky and Prof. Leon Dostert to its list of honorary members. Dr. Strakhovsky has studied at the University of Louvain, Petrograd University, the Imperial Agricultural Lyceum, and is the author of two well-known works on Russian history. Professor Dostert is the head of the French Department at the Foreign Service School, and prior to coming to Georgetown was professor in French at Occidental College, California. Kappa Alpha Phi is proud and honored to include two such distinguished men in her brotherhood.

Alumni Present
The initiation, which was held at the Kappa Alpha House, Northwest Eighteenth Street, was attended by many alumni brothers, not only from Washington but also from various other parts of the East. At the conclusion of the ceremonies, President Stanley Nishiwitz addressed the gathering, congratulating and welcoming the new members. President Nishiwitz stressed the ideals and aims of the fraternity and pointed out the success achieved in the past, the high standard to be maintained, and the goal to be attained in the future. Dr. Strakhovsky and Professor Dostert made brief addresses in which they recounted their experiences in Russia and France, respectively.

In addition to the honorary members, the following men, who have proved by their conduct and scholastic ability to be worthy and competent to carry on the traditions of Kappa Alpha Phi, were admitted:

1. Dr. M. X. Sullivan
2. John O'Connell
3. Adrian Dement
4. John Fregger

The late George Coyle, S.J., founder of the Chemo-Medical Research Institute, has been named by the Chemo-Medical Research Institute as his successor. Dr. Coyle's successor named by institute.

R. O. T. C. ANNOUNCES HONOR ROLL CADETS

Cadet Officers Given Temporary Appointment By Major Hobson

The Georgetown Cadet Corps has long been distinguished throughout the United States as a splendidly trained and thoroughly capable officers it has turned out. This has been due, in no small degree, to the unswerving efforts of Major Hobson and the Military Department, to give each student individual attention and instruction. It is this individual training which so invalidates a cadet that in actual service R. O. T. C. men have been found superior to West Point cadets.

Effective Since Last Drill
In keeping with this policy of individual instruction is the method of rotating appointments to the Military Department so that every officer who graduates will have served in every grade and rank, from private to honor cadet. The latest temporary appointments and assignments of cadet commissioned and noncommissioned officers, which became effective Thursday, February 4, 1932, are as follows:

CUBAN TREMOR FELT AT G. U. OBSERVATORY

Hilltop Observatory Submits First Report of Earthquake in Santiago de Cuba—Furnishes Information in Investigation of Disputed Area

The major shock of an earthquake which caused some loss of life and considerable damage in the vicinity of Santiago de Cuba was first recorded on the Georgetown University seismograph on Friday, February 3. At 12.00 a.m. The Hilltop observers reported that the disturbance, received by Science Service in Washington, was the greatest disturbance of its kind in the ocean about 30 miles from the city on the northern edge of the famous Bartlett deep.

Assists Scientific Expedition
The occurrence of the tremor two days before sailing time gave added interest to a research program which had been formulated several weeks before through the cooperation of the United States Navy and other authorities. According to a telegram received on February 5, the United States submarine S-48 left Guantanamo Bay, Cuba, carrying an international scientific expedition including Dr. F. A. Vening Meinesz, Dutch geologist and authority on the determination of gravity at sea, for the purpose of studying the cause of the changes in the earth's crust in the vicinity of Santiago. The expedition returned from the Carribbean in an effort to ascertain the cause of this and similar quakes which had been reported in the vicinity of Santiago.

Previous to the departure of the expedition, it was reported that the submarine by the Navy Department, in Washington, D. C., bearing the information that there had been no further activity and all her passengers were safe and requesting that the seismological records of the disturbance, as taken at the Georgetown University Observatory, be forwarded as an aid to

Hilltoppers Pull the Unexpected By Upsetting Mountaineers In Fast Game

Ca. oan Scores 16 Points—O'Neill 13—Georgetown Shows Considerable Improvement—Await Pitt

Georgetown pulled an upset last Monday night when it defeated the quintette representing West Virginia University in a very fast game, 45-31. As in the preliminaries, the game was very close at the half time, but the Hilltoppers completely halted their opponents in the second half to win by a large score. In fact, the Georgetowners tallied more points Monday night than they had in any other single game before this year.

West Virginia Gets Lead

The Hilltoppers started off well when Bill Comors, playing in place of Jim Murphy who is still out with an injured ankle, got the tap-off. Georgetown could not hold on to the ball, however, and Carr made a 3 point pass to Bill Johnson who dribbled through for a goal and Georgetown being 4-0. The point soon came again, but by the visiting quintette. Tom Carolan took a pass from O'Neil under the basket and thus started a brilliant exhibition of sharpshooting which did not end until the score reached 10-2. Incidentally, put him in the lead for District individual scoring honors. Joe O'Neill made a very difficult shot from the side of the floor and, a minute later, Tom broke into the spotlight again by (Continued on page 8)

VARSITY BEATEN BY LOYOLA BASKETTERS

Baltimoreans Have 10-Point Lead in Last Quarter—Hilltoppers Make Spirited Recovery—Jim Murphy Out of Lineup

The "one-point" jinx is still plaguing the Georgetown quintet! Ever since the St. John's game this persistent pest has been dogging the footsteps of the Hilltoppers and causing plenty of trouble. This time it was Loyola University, of Baltimore, who resurrected the demon of Lineup—await Pitt

3RD RYAN-MAGUIRE WIN FROM 5TH COPLEY

Losers Rally in Last Half to Overcome Big Lead—McFayden Individual Star

In one of the keenest and most exciting games since the intra-Mural Association started this year, third Ryan-Maguire nosed out the Fifth Copley Juniors by the score of 14-12.

Going into the second half, the Juniors were behind, 10-3, but they soon opened up with all they had, and, holding their opponents scoreless, they knotted the score 10-10 at the close of the third quarter. Dugan and Grant worked hard in an effort to bring their teams into the reach of victory. The third Ryan-Maguire point, seeing their big lead diminished to nothing, became desperate, and McFayden, their tall star forward, sunk two long basket shots which put the game on ice. The Fifth Copley Juniors, although making a desperate attempt to win, fell short by two points. McFayden was easy star of the game, scoring 11 of his team's points, while Dugan led the losers with 9 points.

The score:

5th Copley: 4th F. P. T. 1

McFayden, f. . . . 0 0 3

O'Neill Individual Star

Bill Cagney had caged the first two-pointer in the game. However, the other two-pointers were turned in by the above date will (Continued on page 7)

ATTENTION

INTRA-MURAL BASKET BALL SCHEDULE REVISED

Because of the forthcoming annual Intra-Mural boxing tournament it has become necessary to speed up the basketball season in order that Charlie Fish may erect his ring immediately after the varsity season is over. In accordance with this plan the following schedule will go into effect immediately. Where there are three games scheduled for Saturday morning, the first game will begin at 9:15, and the others as soon thereafter as possible. Afternoon games will begin at 3:30, second game to follow immediately upon completion of the first.

BILL SOISSON, Mgr. Intra-Mural Sports.

KELLY SCORES WHILE RELAY TEAM FALTERS

G. U. Sprinter Places Second in Millrose Games—Milers' Efforts Marred By Mishaps—Outlook Strong

Al Kelly once again distinguished himself, when, in the 362 feet of the Millrose games, he placed second after giving Emmett Toppino, of Loyola University, the world's record when he made the same distance in 4:06, defeating the Millrose A. A. Toppino and Kelly met in the final and Toppino won. In the final Skyward event, Toppino ran the distance in 3:55, Kelly following closely on his heels, and Ira Singer taking third place. All the men seemed in good form, and should undoubtedly add to his laurels this year.

Relay

With the start of the relay, Chuck Carlin brought in the stick about 14 yards in the front, followed by the Holy Cross man, who led. He lost ground when he was jostled on the turn. Mara picked up the relay and held his own at first to finish strong, picking up a yard or so. Kelly did the same, gaining about three.

GONZAGA NO BATTLE FOR FRESHMAN FIVE

Score Tied at Eight All at Half—Yearlings Outscore Prep-ners 21-1 in Final Period—Hargended Stars

The Georgetown University Freshmen had little trouble beating Gonzaga Prep Monday night in the Tech Gym. The final score, 29-9, represents the ease of the yearlings during the game.

The contest had no sooner started than Bill Cagney had caged the first two-pointer. Jake Young followed this up immediately with another of the same brand. Here Gonzaga got their hands on the ball for the first time. Hall passed to Roger Lao, the star forward of the Prepners, and the latter dribbled the entire length of the floor for a goal right (Continued on page 7)

1. Kelly Sprists

Al Kelly defeated Bill Bruder of the Newark A. C. in the first heat of the 100-yard sprint series, in the good time of 10.8, destroying the world's record when he made the same distance in 2.6, defeating the Millrose A. A. Toppino and Kelly met in the final and Toppino won. In the final Skyward event, Toppino ran the distance in 3:55, Kelly following closely on his heels, and Ira Singer taking third place. All the men seemed in good form, and should undoubtedly add to his laurels this year.

Relay

With the start of the relay, Chuck Carlin brought in the stick about 14 yards in the front, followed by the Holy Cross man, who led. He lost ground when he was jostled on the turn. Mara picked up the relay and held his own at first to finish strong, picking up a yard or so. Kelly did the same, gaining about three.

GONZAGA NO BATTLE FOR FRESHMAN FIVE

Score Tied at Eight All at Half—Yearlings Outscore Prep-ners 21-1 in Final Period—Hargended Stars

The Georgetown University Freshmen had little trouble beating Gonzaga Prep Monday night in the Tech Gym. The final score, 29-9, represents the ease of the yearlings during the game.

The contest had no sooner started than Bill Cagney had caged the first two-pointer. Jake Young followed this up immediately with another of the same brand. Here Gonzaga got their hands on the ball for the first time. Hall passed to Roger Lao, the star forward of the Prepners, and the latter dribbled the entire length of the floor for a goal right under the basket. Young took a pass from Hargended and tallied just as the first quarter ended. Score: Freshmen, 6; Gonzaga, 2.

Gonzaga Ties Score

As soon as the second period opened, Lao tied the score with two goals from the floor in rapid succession. The Prepners missed several shots, however, under the basket and seemed to be taking things easy, drilling in their passing work rather than trying out their shooting ability. Hall put Gonzaga ahead for a short time with one from the center of the floor. Hargended tied the score with (Continued on page 8)
GEORGETOWN RIFLES

WINS COUNTED OVER MISSISSIPPI A. & M. AND COLUMBIA, CARNEGIE TECH SCORES EASY VICTORY

The Georgetown Rifle Team opened its intercollegiate season with a bang during the week ending January 16. Following with quite a few more explosions it ended the week with three telegraphic messages from the State Capitol announcing that 151 new records were set in the five matches held during the week. The top scores were selected for the five-man contest, the ten highest for the ten-man event. Ten men fired record targets and the five highest scores were selected for the match. The other was a ten-man shot, fifteen firing and the ten highest chosen.

Split Even

The five-man contests were fired with Carnegie Tech and Columbia University, the Hilltoppers splitting even on the two matches. The score of the former was 1,302 for G. U., as against 1,832 for the Pittsburghers. This was a four-position match and flood led the Nimrods with a total of 364 to 400. Captain Bob Furnam ran a close second in this event. Furman and Tarry only tied the score and forced the two teams to the New Yorkers 1,302. Dave Tarry led this match with a score of 270, Schreck and Flood being able to get only 365 and 325, respectively, out of a possible 400.

In the ten-man match with Mississippi A. & M. the Hilltoppers shot out 3,490 to the Southerners' 1,882 for an easy victory. Flood again led the Nimrods with a count of 364. Furman and Tarry only

FIRST COPLEY BEATS FOURTH RYAN, 17-13

Victors Extend Streak to Limit Win—Ferguson Offensive Leader

In the first game of a double-header played in Ryan gym, Sunday morning, the First Copley hoopers went in and out of the five telegraphic matches fired before the noon hour from the State Capitol. Each of the matches were five-man matches. Ten men fired record targets and the five highest scores were selected for the match. The other was a ten-man shot, fifteen firing and the ten highest chosen.

Tight Defense

Ferguson, Maguire and Curry each contributing four points for the Copley five, were the offensive luminaries for that team, with the outfit as a unit playing a fine defensive game which proved to be an insurmountable obstacle to the prospective Ryan-Maguire point-getters. Watson, playing center for the freshmen five, and the Fourth Ryan Maguire, was high scorer of the game, dropping two goals in the floor and a free shot from the foul line. Muscatello also played well for the losers. The score was 17-13.

FOURTH HEALY WINS AFTER LONG CONTEST

Game Goes Extra Period—Victors on Short End of 8-2 Score at Half Time

Seemingly outclassed in the first half, Fourth Healy staged an almost miraculous comeback in the second stanza and won by an 8-2 extra-period margin. A field goal by Gus Mitchell a few seconds before the regulation game ended tied the score and forced the two teams into an extra 5 minutes of play. During this time, Tom Jenkins made a good free toss and Tanous caged a field goal to give the Healy men a 1-10 lead. Hutchinson put in a long shot with a few seconds to play, and a slight hope was revived among the New York rooters. However, play scarcely began again when the final whistle had blown and Fourth Healy had won their first league victory.

The winners were out-scored, 5 to 4, from the opening gun, but made a good stand and won by this margin. Gus Mitchell stood out because of his all-round defensive work and because of the six points which gave him high-scoring honors. Hutchinson and Farley each tallied five for the losers.

1ST NEW NORTH TAKES 3RD HEALY'S SCALP

Victors Run Away in Last Three Periods—Hutchinson Heads Scoring List

In the Intra-Mural Basketball Blue League First New North swamped the Third Healey quintet by the score of 29-10. The contest was played in the first quarter but after that First New North was never in danger.

At the end of the first quarter the score stood 9-6 in favor of First New North. After that, Charles McGee and Alex Hargeden began to sink the ball with ease and with the defense holding their opponents scoreless in the second period, First New North stood out in front 15-0 at the end of the half. Hutchinson, Farley, and Larkin were the mainstays of the winners, scoring 11, 8, 6 points, respectively. Hicks and Seplowin were the leaders of the losers, but little they could do against the fast-moving quintet of First New North. They scored five points and Seplowin made two points. The winners scored three free throws out of nine attempts, while the losers made good four goals out of eight attempts.

The score: 3rd Healy 0 0 0 0

1st New North 4 15 23

BROOKLYN CASEYS VANOGH G. U. FIVE

Hilltoppers' Rally Near End Falls Short—Carolan Again High Scorer

In an attempt to break the jinx which has been following them for the past two weeks, Fredly Mosner's Georgetown heu league invaders Invaded Brooklyn on January 24 and stormed the Caseys' basket with a score of 23 to 21. It was a close game throughout, but every time the Caseys were finding it hard to cope with a determined but fruitless attempt by the Casey five at Ryan gym last season, Dick King, the Georgetown basketeers was unable to stave off disaster and the game shown by the home team being edged away from the Washington college by the absence of Jim Murphy and Capt. Col. Council Georgetown.

Murphy, King Out

Being handicapped at the very outset by the absence of Jim Murphy and Capt. Dick King, the Georgetown basketeers was eliminated but played valiantly to avenge the setback at the hands of the classy five at Ryan gym last week but to spite of the sensational playing of Carolan in the last half and the excellent teamwork exhibited the Georgetown was unable to stave off disaster and the team went down in defeat for the sixth straight time.

Lead At Half

At half time the Caseys were out in front with a measager 14-13 lead, and seemed to have it locked to a determined bid on the part of the invaders to overcome their lead. However, at the start of the second half the Caseys put out a red mend from the Washington college and it was not until the closing minutes of the fourth quarter that they received any serious opposition again.

Keating, Garvey and Clough led the K. C. outfit, with the fine passing game shown by the home team being a factor in the victory. The summary:

Referee, Katalanski. Timekeeper, Schweigh.

RYAN-MAGUIRE TEAM BEATS THIRD HEALY

Game Won in the Last Quarter—Stickle Leads Scoring

In an Intra-Mural basketball half game on Sunday morning the Second Ryan-Maguire quintet handed the Third Healy their first setback of the season. The Cadets representatives their second straight set-back in the Blue League, bringing their record on the long end of the 20-17 score. Until the last few minutes of play the game was "nip and tuck" with Third Healy leading by a point in the early stages and Blandon, of the winners, started to droping points after basket set-up by that team. Ryan-Maguire had a good lead. Third Healy led at half 9-6. Stickle, of the winners, took the honors of top man and runner-up honors of top man and runner-up. Eddie Katalanski, of the losers made good four goals out of five points, Eddie Katalanski, of the losers made good four goals out of five points, but in the last quarter the Cadets found themselves deadlocked for third position, with seven. Jake Young was the only freshman to score, being chalked up for five points and Seplowin made two points.

The freshmen had to be satisfied with the honors of top man and runner-up positions in the scoring column. Korman and Hargeden had nine and eight points, respectively, to their credit. Moulton, of the winners, scored next with seven. Jake Young was the only freshman to score, being chalked up for two field goals.

2ND COPLEY'S QUINTET BEATS 4TH NEW NORTH

Game Forced Into Overtime Period—Dillon High Scorer

In what proved to be one of the hardest of all battles seen this far in the Intra-Mural hoop leagues, Fourth New North defeated Second Copley, Sunday morning, December 25, by a 22-21 score. Both teams resorted to an air-tight defensive game, and only took the offensive when the situation was dire. Dillon was the only high scorer of the five-minute overtime period, with the New North contingent finding themselves out in front when the final whistle was heard and, accordingly, the victory was theirs by a two-point margin.

Moore Stars

For the victorious New North basketeers, Moore played the starring role with his four goals from the floor, assisting greatly in the final compilation and enabling his team to get into the New North five in the excellent team-work exhibited by that team, with his three shots from the floor added six more points to that team's score. Pimmd carried away the high-scoring honors of the losers, but little they could do against the snappy system of play.

Dillon Leads

Dillon carried away the high-scoring honors in the game with his four field goals, including an air-shot for a total of 14 points. Moore played the starring role with his four goals from the floor, as well as his three shots from the floor and the free throw. Dillon was also a power in the speedy floor-work of the Copley basketeers. Cassidy and Carollan showed well for the Copley team also.

WESTPOINTERS TOO POWERFUL FOR G. U.

The visiting Georgetown quintet jumped into an immediate lead and led throughout for almost three quarters of the battle. At the half the Washington team was out in front by an 11-to-4 count, and were playing a game far superior to that of the Cadets. Heminger, Captain Ray Stecker, one of the Military Academy's most prominent athletes, both on the court and on the field, started with a pair of baskets and a pair of shots from the floor and the rally, which was eventually overthrown the Blue and Gray, was well on the way.

Close Finish

However, with but 8 minutes remaining in the game the Cadets forced themselves still on the short end of a 15-to-12 score. Epeler, Besio and Stecker continued their scoring streaks for the home club which for the first time gave them the lead, a lead which was never erased. Besio continued his scoring at this hard, as Carolan and McLaughlin came back to sink a pair of baskets and put their team to put them back in the game.

Free Shot

O'Neil's free shot brought the Hilltoppers' Rally near end falls short—Carolan Again High Scorer

From the floor for a total of 14 points, Tom Carroll was right behind him, having tallied 13 markers on six field goals and a foul. Carroll, of Georgetown, Belfy and Tannehill, of Loyola, were deadlocked for third position, with seven points apiece. O'Neill tallied four points of the total 23 points, and Carroll was the one to do it, having scored six points from the floor and the free throw. Loyola was outscored from the floor, they made their free throws count and brought the ball up and down the court, but in the last quarter the winners came out on the long end of the score.

Second New North 18 11 29

First New North 11 9 20

TOMASELLI STARS AS Losers Score Only One Point in Initial Half—Tomaselli Leads Victors

In a fast game in the Gray League of the Intra-Mural basketball schedule, the fast combination from Second New Northwest outplayed Losers and put them to a 25-5 pounding.

The game, although a runaway, was very fast throughout. With Stapleton, Tomasselli and Dolan continuously showing the fans how to play basketball, the winners easily carried off the honors to go into the lead in the league. Moore and Friel were the big guns for the losers, but they could not keep up with the quintet from Second New North. Tomasselli led the scorers with seven points and his teammate, Stapleton, totaled six points. Dolan, also of the winners, scored four points. Moore, of the losers, led his team's scoring with four points. At the half, the score stood 8-1 in favor of the winners, and they were never headed.

Second New North won another good three goals out of eight tries, while Fourth New North made one out of eight attempts at the free throw line.

FOURTH OLD NORTH BEATS 4TH COPLEY 14-10

Score Tied at Half—Pagliaro Has Hard Time Finding Basket

In the Gray League of the Intramural Association, Fourth Old North-Collier broke into the winning column Sunday by turning back the representatives of Fourth Copley in a thrilling defensive battle, 14-10, with Ed. Katalinas refereeing.

The winners were in constant trouble until the final drive from Urbano, of Fourth Old North-Collier, broke loose and put the team far ahead. The combination of Daniels and Schwegel, of the losers, kept the defense of Fourth Old North-Collier on the hop, but between them they scored all their team's points.

Third New North Wins From 3rd Copley

Gilligan and Urbano Again Star—Outcome Evident From Start

In the Blue League last Saturday morning the representatives of Third New North defeated the team from Third Copley by the score of 32-19. The game was a close one, and the result was never in doubt.

Gilligan and Urbano were the stars of the winning team, scoring between them the total of the Third Copley quintet. Gilligan scored 10 points, while his running-man, Urbano, added 12. The high-scoring Hilltoppers found little of the 15 points they got from the losers. The results of Third Copley were: Gilligan, 10; Urbano, 12; Grant, 2; Fabrega, 2; and Dugan, 1.

The score: 3rd New North, 32; 3rd Copley, 19.

FRESHMEN WIN

(Continued from page 4)
an easy shot from the foul line and the half ended: Fosh, 8; Gonzaga, 8.

Fosh Run Wild

In the second part of the Freshmen cut loose and the fireworks started all over the court. Korman made a foul shot good and they scored two more to take a 16-4 lead. Then, before the period ended, Hargened had hit the cords for two field goals and Parcell's and Carolan's attempts failed. They had made up one each: Fosh, 17; Gonzaga, 8.

The yearlings kept up their fast shooting in the final half and goals rang through the hoop every few seconds, Fox making the last one a split second before the period ended. Final scores: Fosh, 29; Gonzaga, 9. Hall made the first and only Gonzaga point in the second half when a foul try was good at the opening of the last quarter.

Fox again led high scores with four field goals while Jake Young tied with Lao for runner-up position with two each.

W VA. GAME

(Done from page 4)
dribbling through the entire West Virginia team to tally and bring the score to 17-12. Jack Doyle, with Georgetown will remember for some time because of the trouble he caused them on the back line last fall, was in good form here, attempting to score and make one of his drives good. At the other end, Crowley tied the score with a shot from the foul line. Connors, trying to make a basket, took a chance too far and the ball and the passed through the cords without hardly moving them. Joe Dot­ter, who played the count up to 18-16 with another long shot from near mid-floor and O'Neill made a free toss good as the half ended.

Score: Georgetown, 19; West Virginia, 16.

Hilltoppers Run Wild

At the beginning of the second period a new team took turns in scoring until Tom Carolan scored his third field goal in succession. Almost immediately on it was nearly all Georgetown. Crowley took a short pass from O'Neill and made his third goal of the game. Joe made one to bring the score to 24-12 and then the Hilltoppers dominated the game. When Sorter had made his last field goal with the tabulation 24-20, West Virginia had finished their scoring for the evening with the addition of Abruzzi's goal. Then it was just a ques­tion of how high a score Georgetown would run up. The Mountaineers were demoralized and it was no feat at all to grab the ball under their basket and dribble the length of the floor for two more points. Point after point the re­juvenated Hoyas chalked up on the scoreboard and it was not until the final run that the competitors scored. Hilltoppers and Duquesne were dismissed, having learned quite a few lessons since they came to Washington.

Team Improved

The team as a whole showed considerable improvement over any of its previous games, both in its passing and its accuracy. The team is now point­ing for that all-important Pitt game Friday night. It is a safe bet that if it plays山水 the same brand of game that was exhibited Monday, it should stand a good chance to whip the highly favored Pitt team.

The New Republic announces a Writing Contest, open only to college students, with prizes of $50 each awarded for the best Editorial (1,000 words), Article (2,000 words maximum), Short Sketch (1,000 words), and Book Review (of any book published since January 1, 1932; 1,000 words) suitable for publication in The New Republic. The contest closes April 1, 1932. Any undergraduate in an American college or university is eligible to compete. The winning manuscripts will be published in The New Republic, and the editors reserve the right to buy at the regular sale price any non-prize-winning contribution. Contestants may submit manuscripts in more than one of the classifications. The judges will be the Editors of The New Republic. Manuscripts should be addressed: Contest Editor, The New Republic, 421 West 21st St., New York, N. Y.

FOR HER VALENTINE
USE
"POSTAL"
The age old controversy about the relative intelligence of men and women is far from settled but the latest evidence would seem to favor the men. In a University of Chicago psychology test, the purpose of which was to test the fundamental intelligence of men and women, the men placed higher in three of the five tests than the women. 

There were more coeds than men in the 750 members of the class who were given the examination. First place was won by William K. Traynor, 19, of Chicago, who prepped at Loyola Academy in that city. The gauge for marking in the quiz was not knowledge but ability to reason. For instance one question supplied an artificial language with instructions to translate a passage from it into good English.

The above paragraph would seem to indicate that men are really the intellectual masters, but suppose we look at the other side of the question. The scholastic ratings of the University of Maryland for the year 1930-31 show that the co-eds are far above the men when the marks are compared. This has been the rule for several years at College Park. An interesting commentary on these rankings is that the non-fraternity and sorority students are uniformly lower than the members of the Greek letter societies. Two sororities led the school lists. Just what is to be inferred from these ratings we do not know. The safest thing that could possibly be done is to call the battle a draw.

Two million pilgrims from all over the world kissed the feet of St. Francis Xavier during the 40 days in which the saint's embalmed body was exposed in the church of Bom Jesus. Up to the time the body was replaced in its silver sarcophagus a few weeks ago many thousands of miracles were reported to have occurred, during the 40 days.

Brother Leo, the famed philosopher of St. Marys College, has said many things that the world as a whole would do well to take to heart. 

"We learn something about a man from watching him at work; but more from watching him at play. In their leisure moments men are made or marred. In their leisure moments they show what they really are. Fifty of time, a commodity more precious than money, wise men utilize their leisure. When they get a breathing space they breathe; but they also contrive to do things, wise and pleasant, which circumstances have not hindered them to do. College men understand that their considerable leisure affords them an opportunity to make themselves bigger and better and happier. Fools just muddle through."

Brother Leo, the famed philosopher of St. Marys College, has said many things that the world as a whole would do well to take to heart.

Even in 1734, Harvard University had freshman rules. These were a few of them: (1) A freshman shall wear his hat in the college yard except when it rains or snows, or be on horseback, or have both hands full. (2) No freshman shall use lying or equivocation to escape going on an errand. (3) Freshmen may wear their hats at dinner and supper except when they go to receive their Commons of bread and beer. It grieves us to think that there would be a slight amendment of the last rule necessary today if it were to conform with another well known amendment.

You probably never knew that Franklin was once a state of the United States. Counting is done in the presence of a chaplain. . . . Law students at Creighton are the only persons allowed to carry canes on and about the campus. . . . Ninety per cent of the students at London University don't believe in God. . . . Akron university has the largest number of the entire student body available for blood transfusions. . . . Ohio has more colleges than any other state, 41 as against 40 for New York, 38 for Pennsylvania, and 24 for Illinois. . . . Love, dumbness, and faculty intelligence are the reasons assigned for so many freshmen flunking exams by a professor of a large western university. . . . "Pop" Warner says that hard work and enthusiasm are the two main factors that prompt coaches to select the men for their teams.

Four years ago Jerry Dalrymple, Tobacco's All-American end, landed in New Orleans with $10. Last year he earned about $2,000 at the following jobs: manager of a restaurant, investigator for a law firm, salesman for a department store, salesman for office supplies, government investigator, newspaper sports writer. Next season Jerry, timing of variety, will try to obtain a post at some school as football coach.

Santa Clara University owns its baseball season not long ago with a rally at which were present a whole constellation of major league baseball stars. Ty Cobb, Joe Cronin, "Lefty" O'Doul, Lou Fonseca, and Bill Cunningham were among the others. Dr. Popovic then reviewed the educational system in pre-war Hungary and compared it with the existing system in Greater Roumania, pointing out that not only was the education of national minorities in pre-war Hungary in a lamentable state, but that it was practically impossible for an average Roumanian from Transylvania to obtain higher education before 1914. This situation can be best illustrated by the following figures:

**Primary Schools**

**Under Roumanian rule**

1 school for 803 Roumanians.
1 school for 778 Hungarians.
1 school for 880 German-Saxons.
1 school for 2,184 German-Souabians.

**Under Hungarian rule**

1 school for 1,200 Roumanians.
1 school for 200 Hungarians.
1 school for 890 German-Saxons.
1 school for 10,847 German-Souabians.

**High Schools**

**Under Roumanian rule**

1 school for 65,909 Roumanians.
1 school for 15,163 Hungarians.
1 school for 28,750 German-Saxons.
1 school for 38,504 German-Souabians.

**Under Hungarian rule**

1 school for 732,000 Roumanians.
1 school for 11,976 Hungarians.
1 school for 46,000 German-Saxons.
A STUDENT'S COMMENT ON THE ALUMNI SITUATION

At one of the city club dances held during the holidays there had been an attempt made to interest the alumni of the town in the project which was vitally concerned with their alma mater. Circular letters had been sent out to many of them, while telephone calls and personal contacts augmented the number of those who were engaged for that particular effort.

They were engaged for that particular effort made to interest the alumni of the town in their alma mater, while telephone calls and personal contacts augmented the number of those who were engaged for that particular effort. Weekly luncheons and interested cooperation in the affairs of the school become the bonds that hold these groups together, ultimately causing love for dear old alma mater ostensibly if not actually. At any rate, there is a kind of Rotary Club in the guise of the alumni groups of other large institutions which are bound to be a big aid either in business or professionally to the graduates of that school in that particular vicinity.

There is a question that many students are asking themselves now is naturally, "Why is it that there is no alumni organization in this town?" Surely there is nothing wrong with these men individually, for Georgetown's sons have proven their capacity to fill the successful positions they have attained throughout the country to give reason for doubting the initiative or integrity. Movements have been launched for the renewal of spirit in various sections of the country, but the flame soon died for lack of fuel. Several years ago in Arizona, where graduates of any Eastern college formed a Georgetown Club with about 14 members, yet it has not been heard of since. In Chicago, where the former students numbered some 200, a banquet was given for Fr. Nevils several years ago which was attended by about 40 who waved the Blue and Gray, and this gathering has stood as a masterpiece for all time in the art of gathering together Chicago Hilltoppers.

Apparently the palms go to Cleveland and Detroit, where with comparatively small enrollments there are regular meetings, luncheons, and banquets each year. These cities are showing that it is not impossible to have such affairs. New York, of course, has its moments when the boys get together and sing "Sons of Georgetown," but the possibilities of an alumni roster like this city has are unbounded. Pittsburgh is struggling hard.

Similarly, throughout the country there is a potential organization in influence and power in the graduates of Georgetown. If a spirit were cultivated in them or if they would simply gather once in a while and realize that the institution from which they came was walled off between 27th and O Streets it is not impossible to have such affairs. Probably the Andrew White Quadrangle would have by this time become a completed testament to the glory of Georgetown and her sons.

When the high school graduate selects his next place of learning he usually wants one with a name. This name is based on four requirements, each to a variable extent: the school must have a high scholastic standing; it must have an athletic team with reasonably successful records; and it should have an alumni organization behind it. This last condition should exist in any case where the first three conditions are present, for any school with these qualities should certainly hold its graduates to it.

Georgetown surely has a high scholastic standing and few colleges have anything nearly as complete as our A.B. course, nor as thorough as those of P.U. and B.S. degrees. Moreover, not many institutions of any nature in this country can date back to the inauguration of our first President. Thirdly, no one will ever say that Georgetown has had a record in any department of athletics which might be embarrassing to any supporter.

Here, the making of the present, but where are the results? It is being said by people who have no connection whatever with the institutions that Jesuit Schools just naturally do not have alumni interest. St. Mary's, Kansas, was an exception to this, but even such a student interest has ceased to exist. It is unpleasant to think that there is something about the school itself that we are unaware of which makes for indifference and inactivity when the students leave. However, in our particular case there can be no doubt that on commencement day one looks back on four years of pleasure, no matter what his opinion may have been of certain features of the school. Also, the reactions to a walk around the mile-path in the spring and the advantages of being in Washington are not without.(Continued on page 12)

THE RESERVE OFFICERS' TRAINING CORPS

The purpose of this article is to clarify and describe so far as possible the purpose of the Reserve Officers' Training Corps. It seems difficult for business and professional men and women, following their choice of the various types of military organization to prepare them to carry on the duties of a second lieutenant. When he reaches his 21st birthday, he is given a commission in the organization of the Army of the United States. Originally this branch of the national defense was composed of men who held commissions during the World War. With the passage of years, these men decrease and ultimately, of course, none will remain. Here, therefore, the Reserve Officers' Training Corps graduates step in and replace the regular officers of the World War. Thus, our great Nation of 120,000,000 souls may rest assured that in every locality there are young men pursuing their peace-time vocations, ready to lead our troops, should we be unfortunate enough to again be faced in defense of right, justice and national honor.

The Reserve Officers' Training Corps should be supported by every patriotic American citizen.

The Alumni Association of Erie, Pa., tendered a dinner to Rev. James Patrick Rossetter, LL.D., on February 16, Thursday, February 4, in that city in honor of his recent inauguration as mayor of Erie. Mr. Rossetter, a prominent jurist in Pennsylvania, was elected to his recently assumed office at the November elections, but was sworn in February 2, 1932.

Cincinnati.—A new type of college was created by the non-professional students, and to be of three-year duration, was suggested by Dr. Ernest Hatch Wilkins, president of Oberlin College, before the meeting of the Association of American Colleges, of which he is also president.

Citing the special needs of this type of student, Dr. Wilkins said:

"I therefore propose the creation of a new type of college, to be called the central college, which students want, and the conditions are right for it. In the great majority of the students what society really wants them to have, namely, a training which will enable them to live as members of society. To live well as members of society means to live with intelligence and good will in each of the five fields of social living, which are: home life, the field of earning, citizenship, leisure, and the field of philosophy and religion.

Training for successful life in these five fields involves training in health, training in the use of what may be called general mental tools, English, logic, and so forth, instruction and some type of experience in each of the five fields, and the encouragement of social mindedness. A college course carefully designed for this purpose could be completed in three years. New institutions might be called three-year general college, and those four-year colleges which, through lack of endowment, can not stand the cost of specialized work, would also do well to become three-year general colleges.

"The establishment of such colleges would be a benefit to the students of society, that society itself if our ardor will be frozen as has that of our predecessors. It is hardly a matter of private initiative and zeal alone, else things would not be as they are now. The determining factor will be whether or not the students of today and of tomorrow will absorb from their college life the certain spark of interest and loyalty to the institution which will make them want to maintain their relations with the Hilltop and to keep alive their interests by actively entering into things pertaining to Georgetown and by responding to Georgetown appeals."

R. F. M.

Dr. William J. O'Shea, superintendent of New York City schools, has issued instructions that teachers are not to give pupils monotonous home work, and not to make pupils do monotonous work as a penalty for misbehavior. These practices, he said, lead to disinterest in education on the part of the children.

Low evening and night rates

LOW EVENING AND NIGHT RATES ON TELERADIO CALLS

EVENING: (Between 7 p.m. and 9:30 p.m.) 15% to 20% lower than day rates

NIGHT: (Between 9:30 p.m. and 6:30 a.m.) 40% to 50% lower than day rates

These reductions apply on all rates above $0.50.

WHITE DEBATERS NAME INTERCOLLEGIATE TEAM

Two Sophomores and One Freshman Selected—To Meet Fordham March 18—Will Discuss Armaments—Officers Elected

The White Debating Society held its last meeting on Wednesday evening, February 3, 1932. At this meeting the election of officers for the ensuing term was held. In view of the efficient manner in which the officers of the last term carried out their duties, they were unanimously elected to retain their positions for the remainder of the year.

Mr. Watters was elected to serve the term announced that the debate scheduled for February 10 was to be on the question, "Resolved, That a three-quarters vote of the jury be sufficient for conviction, except in murder cases," whereas the affirmative side of this question is, "The United States should adopt the silver money standard...

The affirmative team in this debate which was held at Georgetown on March 18, and the question under discussion will be, "Resolved, That the United States should adopt the silver money standard..."

Sir Norman Angell, British statesman, asserted recently that the depression was not so much the result of natural causes as it was the failure of man properly to educate himself.

The secretary also announced that plans had been completed for a debate with the Hughes Debating Society of Fordham. The debate will be held on Fordham on March 18, and the question will read, "Resolved, That United States should fulfill its naval armament quota..."

The secretary also announced that plans had been completed for a debate with the Hughes Debating Society of Fordham. The debate will be held at Fordham on March 18, and the question will read, "Resolved, That the United States should fulfill its naval armament quota..."

What is believed to be an innovation in prison reforms was the appointment by Governor Pinchot, of Pennsylvania, of a former inmate in the prison to be a trustee of Eastern State Penitentiary. The appointee was Henry G. Brock, who served three years after he pleaded guilty to killing three persons in an automobile accident. During his term he established shops in Philadelphia where prison-made goods were sold and the proceeds, about $40,000, were turned over to the convicts.

The National Geographic Society has determined that George Washington was the first geographer of the United States and the foremost traveler of his time.

THOUGHTS WHILE STUDYING

Armando Jones

Work... How little that word meant until I began to study for the recently concluded mid-term examinations. And having written nothing since before the Christmas season. A telegram from home as I was studiously applying myself to the law compelled me to disrupt my good intentions much to the annoyance of others. I did not allow her arrival to interfere with my daily studying. I realize how fortunate I am to have a mistress who understands the law is, and that she must be served at all costs. So studiously have I been working that I have not long since my eyes have feasted upon any current productions of the cinema. I did take the afternoon after the last ordeal to see the very interesting and rather unique presentation of the game between the University of Southern California. And an attractive young thing serving as G. Washington in a play at the School in conjunction with the Sherlock Holmes picture. Art Gallagher desired to drive the win. Nor could my suasion as to the stimulating effects of the drug deter him. I never found out from the dapper Chief Justice of White. He, beaming with smiles like a swain upon whom the touch of spring, had no doubt, was an interesting and interesting lecture on taxation. Delivered by no less an authority than Baby Congresswoman Hartley, of New Jersey. 

Toner refreshingly serious and determined to make good. The Donato Brothers eternally entertaining and jovially amusing. Attorneys or actors they are, let us judge by the highly interesting lecture on taxation. Delivered by no less an authority than Baby Congresswoman Hartley, of New Jersey. Nor could I accurately learn her name; each time she passed my table. I no longer had a desire to rise and follow her. Among the charming persons whom I have not seen in many a moon are the Sheehan sisters, Terry Leshan, Betty Driscoll, John Farrell's attractive blonde cousin, and the Dorch sisters. One of the latter I understand has been receiving much favor phonetically it was McCue. She furished plenty of excitement for the entire evening. I cannot pass a window demonstration. A very dull show at Earl's. Tried to see M. Al Hadi but could not get in. Thus, went another mile or two. Shorten the season to six or seven games. Eliminate pre-season practice. Ban subsidizing. Abolish recruiting and pre-sealing. Reduce coaches' salaries to the general faculty level. Return the game to student management. Abolish drudgery in training. Eliminate the long training entirely. Schedule only competitors of equal strength. Educate alumni to respect well-developed athletic programs rather than lopsided stress on one sport.

Sol Metzger, well-known sports writer who died last week, was a member of the University of Pennsylvania football team in 1901, 1902, and 1903, and later coach at his alma mater, and at West Virginia, Washington and Jefferson, Union College, South Carolina, and Baylor.

MOSCOW.—An outline of Soviet Russia's new five-year plan has been announced. It includes:

- A speedier rise in living standards than under the first five-year plan.
- Technical reconstruction of industry, transportation and agriculture.
- Increase the output of machinery by at least three and a half times that of the first five-year plan.
- Solve the cattle-breeding problem.
- Increase the output by two and a half or three times.
- Produce 20,000,000 tons of coal as against 90,000,000 at present.
- Build from 25,000 to 30,000 new kilometers of new railroads, and completely reorganize railway transportation.
- Reach, by 1935, an annual electric output of 100,000,000 kw. as against 17,000,000 in 1932.

TRIANDON TREATY

(Continued from page 10)

Under Roumanian rule—
1 school for 72,500 Roumanians.
1 school for 32,500 Hungarians.
1 school for 20,000 Hungarian-Saxons.
1 school for 154,200 G-man-Sobatinians.

Under Hungarian rule—
1 school for 590,800 Roumanians.
1 school for 25,000 Hungarians.
1 school for 25,633 German-Saxons.

These figures are taken from the report of a special commission headed by Mr. Eric Colban, director of the Ministry Department of the League of Nations, which investigated the situation in 1926.

Not closing his eyes to the deficiencies which still prevail in certain quarters of the Roumanian administration, Dr. Popovici stressed the point that they are only slight if compared with the progress that has been achieved during the 10 years since the incorporation of Transylvania in the Roumanian kingdom.

Opposes Treaty Revision

In his conclusion, Dr. Popovici pronounced himself naturally opposed to any revision of the Triandon Treaty on the ground of the evident achievements realized by Roumania in the status of minorities. In support of his stand he quoted Dean Lohbruck, of Syracuse University, who, without solicitation authorized Dr. Popovici to quote his conviction that, "Roumania did all that was humanly possible in the short time at her disposal for the happiness and progress of her minorities, a thing of which she justly can be proud."

LOW EVENING AND NIGHT RATES
ON LOCAL TELEPHONE CALLS

EVENING: (Between 7 p.m. and 8:30 p.m.) 10% to 20% lower than day rates
NIGHT: (Between 9:30 p.m. and 4:30 a.m.) 40% to 50% lower than day rates

These reductions apply on all rates above 35c.

LUCKIES are my standby

CHIP OFF THE OLD BLOCK
Cash in on Poppa's famous name? Not Douglas Fairbanks, Jr. For months he labored as a five-dollar-a-day "extra." Then he crashed into a part like a brick through a plate-glass window. Doug boxes like a pro, and we don't mean a palooka... he has muscles like a wrestler. When undressing, he hangs his clothes on the chandelier. The box offices like his latest FIRST NATIONAL PICTURE, "UNION DEPOT." Doug has stuck to LUCKIES four years, but didn't stick the makers of LUCKIES anything for his kind words. "You're a brick, Doug."

"LUCKIES are my standby. I buy them exclusively. I've tried practically all brands but LUCKY STRIKES are kind to my throat. And that new improved Cellophane wrapper that opens with a flip of the finger is a ten strike."

Douglas Fairbanks Jr.
