"STRONG NAVY BEST INSURANCE POLICY AGAINST WAR," STATES SENATOR WALSH

Chairman of Naval Affairs Committee Maintains Strong Defense Agencies Only Assurance of Peace—Denies Army in Armament Race with Other Nations

By JACKE DELANEY

"A strong Navy is the best insurance policy against war! I am for peace, but we must shore up America," said Senator David J. Walsh, Democrat, of Massachusetts, and Chairman of the Naval Affairs Committee, in an exclusive Hoya interview at the Senate Office Building last week.

"In my opinion," he continued, "it is understood that the idea of an American Navy to be growing in this country and throughout the world than it is moving away from an attitude of strict neutrality and from the isolationist in national defense on the basis of what may be absolutely desirable. The present measure for the expression of our national defense is likely to be jeopardized unless it is made clear and certain that we are making ourselves free from agreements or understanding with other nations.

"We must be practical. We are in a mad, mad world that seems to have lost all its sense of balance. We will be involved in war sooner or later, unless we fight against alliances with any nation that has one.

"As head of the Naval Affairs Committee, it is my duty to keep the Senate apprised of the national defense bill. It will be taken as a fair cross-section sentiment of the country that goes to the naval expansion bill. The measure passed the House by a large margin, and comes up in the Senate this week, with public hearings scheduled to start on Monday, March 28.

"The bill is a foregone conclusion that the Senate will pass, and it is certain that we will deal here with the naval questions that are before the Senate. A SAFE SPRING

With the coming of spring the collegian's fancy turns to everything but serious work. The restless spirit prevalent on most campuses is to be expected because the energy pent up during the long winter months must be vented. As a result, the unfortunate collegian finds himself doing things which he would not even consider in his saner moments.

It has been said that the actions of this period of the year are to be attributed to a general joie de vivre, or perhaps they may be due to the exuberance of youth. Yet the fact remains that at times one is prone to exceed the bounds of reasonableness. Clearly that current collegian prank of testing one's throwing arm by trying to hit a dormitory window is stretching the exuberance of youth a bit too far. It has been proposed that one derives unbridled pleasure from hearing the sound of breaking glass, but this is hardly plausible for a dormitory window is stretching the exuberance of youth a bit too far.

Facilities for outdoor relaxation are to be found easily, so there there is no reason why one should be reduced to work off excess energy by climbing trees. Let kids make a pleasant and a sane spring.

CONCERNING THE NATION

By Thomas A. Callaghan, Jr., '40

Last Sunday night, from Secretary Morgenthau came the brief announcement of the termination of the monthly sugar purchase by the United States in order that the Government in its fiscal program might conserve a certain of its financial resources for the national welfare. Mexico, in the wake of the declaration of the embargo, imposed a total prohibition upon the importation of Mexican silver, paying with American dollars. This action, which was due to its desirability for commodity purchases in the United States. With Mexico, the United States' prime export, further discussion was focused among that nation's bookeers, an 80,000 silver miners fired by the strength and probable unemployment.

In his saner moments, Cardenas has only seen but that the United States would naturally make a reprisal for its expropriation of American oil companies.

But if Cardenas thought this, he quite tactfully instructed his people to "judge it with necessary severity, to the end of taking away American oil companies." And if Secretary Morgenthau, the admitting that no reprisal of such a magnitude would be necessary, the next day he joined the American delegation.

The Secretary's remarks, coupled with the announcement by Mexican authorities of the embargo, caused a stringent and rigid control over American and other foreign oil companies.

Until the advent of President Cardenas, Mexican oil wells had been controlled by foreign capital—Mexican companies accounted for only 15 per cent of the oil produced in Mexico, so derived from the combination of Mexican labor (unskilled and poorly paid) and American and other foreign oil companies resources were then shipped out of the country. Imposition of the embargo was, therefore, a reprisal, no intention of such a magnitude will have reflected on the American industry. Yet, glancing behind the iron curtain, we are persuaded that the motives of the Government were purely defensive. American and other foreign oil companies.

The United States had quite "incidentally" discontinued its silver purchases. It did not do a few days after Mexico's embargo were used for the expropriation of foreign oil companies.

Last January, in an effort to encourage home industry, Cardenas raised wages for workers in the United States—this is in direct opposition to the wages paid in Mexico—thus removing the "neighbor" and reciprocal trade agreement.

Mexico has also worked toward the development of its manufacturing industries, and the government has encouraged the formation of labor unions, and has established a labor department. As a result, over 15,000 workers have been organized.

Impoverished by such a program, Mexican industries have been unable to compete with American and other foreign oil companies.

To summarize, this action is beneficial to the American and other foreign oil companies.

In the United States, the government has given increased support to Cardenas's regime, which has been extremely beneficial to the American and other foreign oil companies.

While Cardenas meant this action as a reprisal, it is an act of the American and other foreign oil companies.

The professors are aware of this fact and many of them have devised their own pet snares to trap their wary prey, such as pretending to look out the window while watching the class in the reflection, or walking slowly down the aisle and then whirling suddenly at a slight sound. There are many more subtle ways which only make some students work harder, not in their studies but in devising new ways to defeat the professors. In most cases we do put the blame on the professors, nor do we mean to imply that all or even a large minority of the students at Georgetown participate in such practices, but it is evident that such a condition is present in sufficient extent to warrant doing something about it. We, the students, do not wish to put the faculty does not want it to continue, but what is to be done?

HONOR SYSTEM

Too large a percentage of college students have, at one time or another during their college career, given or received aid in an examination. This is not startling as it may appear, for it has been going on for many years, as most of the undergraduates and graduates will admit. Undoubtedly, too, the authorities know of this condition, for several test papers have been torn up or returned uncorrected because the student was caught in the act. We do not think that a student of Georgetown or any other university. It is up to the students to prepare themselves for the fight. The difficulties that face us in politics and economics today are admittedly difficult, but not so difficult that they cannot be solved without overthrowing our American system. If we want democracy and are willing to work for it, we can have it.

FATHER WALSH LASHES NEW DEAL POLICIES IN WEEKLY LECTURE

Scores Taxation Bills and Reorganization Plan of Roosevelt
Before Large Audience

Evaluating present tendencies of the Federal Government in taxation as a threat to states' rights and the reorganization of the executive branch before Congress in the ambits of the philosophies of the late President, the Rev. Edmund A. Walsh, S.J., Regent of the School of Foreign Service, acced the inconsistency of the administration's approach to the state's legislative progress the Friday night.

Grant

A more of about 1,200 gathered in Memorial Continental Hall heard Father Walsh declare that the American system conceives Federal Government to the的功能 and personal influence in the political arena. "The Government," he said, "is covertly attempting to substitute for that system one lived under now of delegated power. The source of the present status of medical knowledge, concerning the power and the heart. He also included original research in this field.

Fine Choice

This lecture was under the sponsorship of the Kobler Foundation, which was established by the late Dr. George Kobler, of Washington. Dr. Kobler created an endowment fund for lectures "by men who have contributed to the progress and achievement of the medical sciences and preventive medicine." Dr. Kobler was Dean of the Georgetown Medical School for nearly 40 years, and was President of the Medical Society of the District.

Under the terms of the foundation, the lectures are nominated in alternation years by the Association of American Physicians and the Association of Military Surgeons. Dr. Yater was the unanimous choice for this year's lecture.

Biography

Dr. Yater has been head of the Department of Medicine of Georgetown since 1930, and physician in chief of the Washington Hospital. He is an acknowledged author of medical literature and well known as a pathologist. He has worked with the Washington University and his medical education in the University of Minnesota. He was a member of the staff of the Savage Clinic from 1926 to 1929, coming to Georgetown immediately after.

St. Stephen's Church, on the corner of 10th and V Streets, is going to be the scene of a memorable pageant which takes the shape of a Tea Dance to be given on the evening of Friday, May 15th. The theme of the event is "Shall We Dance," and everything will be done to make the affair as delightful as possible.

The plans for the event were announced by Father Walsh, who said that the student body had been most enthusiastic in their support of the idea. He also announced that the proceeds of the dance would go to the fund for the construction of a new gymnasium at St. Stephen's.

FR. WALSH (Continued from page 3)

The favor of the title pageant was reserved for the senior class, and the plans for the event were presented to the faculty by the senior class officers. The planning committee included the following members:

- John Smith, Class President
- Jane Doe, Class Vice-President
- Robert Brown, Class Treasurer
- Sarah Lee, Class Secretary

The theme of the pageant was "The Spirit of St. Stephen's," and it was decided that the pageant should be held on the evening of May 15th.

FR. WALSH (Continued from page 3)

The event was expected to be well attended, and Father Walsh expressed the hope that everyone would be present to enjoy the festivities. He also announced that there would be a special guest, who would be announced at a later date.

TREATING A YOUNG MAN'S FANCY LIGHTLY

By Ray Bradbury

This week I've been reading about a young man's fancy lightly. The title is "Beast" O'Connor. It seems that he is writing about his experiences in various places, including his time as a student at Georgetown University. The article mentions that "Beast" O'Connor has been known for his "corny" job of trucking, and that he often overheard people daring each other to get in trouble. The article also notes that "Beast" O'Connor has a reputation for being hard to handle. Remember the old adage: "A rolling stone catches no moss."

In spite of the "temporal" and "moral" spring-like weather of the past weekend brought the devil out in most of the inhabitants of the Hilltop. The A. & W. has now become the campus and next week Curley's Confusion and Renegade's Roddies are going to unveil a new statue to John Carroll on the lawns of the A. & W. The cowboy element will be appeased with an appropriation of some renowned figure like our cousin or Danvers.

The gentle little instances like the one mentioned above keep the party going. (have you ever seen 200 people half drunk). Twan and Joe were the only ones to know what was what and Alice over my pretty shoulders about stuff, but the little girls fixed things up with a smile and a foot of one. Little Terence enraged and then quiet settled over the A. & W. and a ghostly moon looked down wistfully upon the empty parking space of Greater Georgetown.

Oh Saturday night was the 140th anniversary of the founding of Georgetown. Senator David I. Walsh graced the occasion, as did our President, the Dean, the Faculty, and Renehan's Roddies are going to unveil a new statue to John Carroll. The A. & W. has now become the campus and next week Curley's Confusion and Renegade's Roddies are going to unveil a new statue to John Carroll on the lawns of the A. & W. The cowboy element will be appeased with an appropriation of some renowned figure like our cousin or Danvers.

Senator David I. Walsh graced the occasion, as did our President, the Dean, the Faculty, and Renehan's Roddies are going to unveil a new statue to John Carroll. COUNTLESS little instances like the one mentioned above keep the party going. (have you ever seen 200 people half drunk). Twan and Joe were the only ones to know what was what and Alice over my pretty shoulders about stuff, but the little girls fixed things up with a smile and a foot of one. Little Terence enraged and then quiet settled over the A. & W. and a ghostly moon looked down wistfully upon the empty parking space of Greater Georgetown.

Change is Coming...

Everyone at the Hilltop knows what he can do, and they are sure that he will come back with a basket full of trophies. His stiffest competition should come from the person of Jay Turner, of Catholic University, who has proven himself worthy of any prize given him by virtue of his strong driving hitting in the spring season at C. U. However, "Diamond Jim," as he is known by fans in the District, is being looked to for great things, and he will come through again if he fights out-half as well as before.

Last week a wise guy known as McMahon violated the sacred secrecy of the Unionist Club. The finished product was a paragraph of his own fabrication concerning the current state of affairs and, to his surprise, numerous "one and onlyes" will start meeting each other through the medium of this paper.

We announce the arrival of a certain Betsey into the lower class of O'Connor. Sorry, Tom, but a local people has a strongly preferred son in this new fire.

Tom, the loving Rover boy, is reported to be extremely dissatisfied with the present crop of pulchritude. Our humble apologies, sir, that we're all not god.

We are told that the coefficient of friction has finally caused Bob Tan, Sullivan to fall from his perch. We're told that he's at it, too, might be able to entertain you with the art of terpsichore, so that he, in addition to a long sojourn into the land of fantasm, with definite reference to cinema? We wonder what the magic power of the Washington Club's Easter Ender will be. Is it merely a matter of coincidences or is there something more in it? We announce the arrival of a certain Betsey into the lower class of O'Connor. Sorry, Tom, but a local people has a strongly preferred son in this new fire.

Higher Learning

School days, school days,
Dear newfangled school days;
Feasting, eucymnics, and plastic art,
Taught with the aid of a Binet chart;
I was led with a low I. Q.,
You were a maid with a minus two,
Just what we learned we never knew,
But that is the newfangled way.

--The Hawk.

Literally: "Young man, can you explain how these empty bottles get in your room?" --Student: "I'm sure I don't know. I never bought an empty bottle in my life."--San Francisco Foghorn.

Gather your lessons while you may,
For time brings only sorrow.
The girls who are so free today
Are chaperons tomorrow.

--The Targe.

Father: "Yes, my boy, I'm a self-made man."
Son: "Ge, pop, that's what I like about you. You always take all the blame for everything."--The Legionnaire.

His teacher asked Johnny one day: "Who made the forests and the roads and the beautiful trees?"
Johnny thought a while and said: "The C.C.C., teacher."
Startled but game, the teacher asked: "Well, who made the lakes and the crops and the green grass?"
Johnny thought a little longer and answered: "W.P.A., teacher."
"Well, then, who made the sun and the stars and the rain and the thunder and the wind?"
Johnny thought a long, long while. Finally he said: "God, teacher.
At this point came a snort from the seat behind Johnny: "Shut up, you damned Republican!"--The Santa Clara.

A freshman went to visit one of his girls and while talking of this and that her father leaped up from the room and shouted: "Say, it's past midnight. Do you think you can stay here all night?"

"Well, I don't know," replied the freshman, "I'll have to telephone mother first."--The Louvete.

It is only natural to hope that the boys will be able to bag all the cups they possibly can. There are so many able candidates that an injury to one of the stars would not be missed much. At any rate, the collegiate champions seem to be on this campus, and the final season will find Georgetown with a team of seasoned veterans.

The Andrew White Memorial Quadrangle, with its new buildings in collegiate Gothic, commemorates the proto-founders who arrived from England in 1634 and established their first Academy in the Maryland colony.

When night falls over Washington, the College on the Hilltop blazes with lights from hundreds of windows. The Washington Monument and the various bridges stand out, the river reflects, and one can see the distant lights of Maryland and Virginia. View is from Observatory Hill.
