Re: National Automotive Industries (Florida)

Dear Mr. Rector:

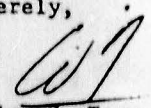

This is in response to your request of ~~February 6, 1976~~, for information on Rule 144 in connection with your proposed sale of 1,000 shares of common stock of National Automotive Industries (Florida).

We are enclosing copies of Rule 144, an amendment, and a proposed amendment to the Rule (Securities Act Releases Nos. 5223 and 5613). You will note that Release No. 5223 contains an explanation of the Rule. We are also enclosing copies of Form 144 (SEC 1147) with the special instructions regarding its use (SEC 1538). Please also see paragraph (h) of the Rule with respect to Form 144.

Since the Company does not file reports with this Commission, your attention is called, in particular, to the explanation under "Availability of Public Information" which is set forth on pages 7 and 8 of Release No. 5223. That explanation is, of course, a synopsis of paragraph (c) of the Rule found on pages 19 and 20 of the Release. In the absence of having reports filed with this Commission by the Company, there must be publicly available the information referred to in paragraph (c)(2) of the Rule, set forth on page 20 of the Release. Your broker will advise you on this point.

We hope that this is helpful.

Sincerely,

William E. Toomey
 Assistant Chief Counsel
