COMMISSION ON LIFE SCIENCES

2101 Constitution Avenue Washington, D. C. 20418

BOARD ON BASIC BIOLOGY

July 18, 1986

MEMORANDUM

To: Members of the Board on Basic Biology
From: John E. Burris, Executive Director 
Subject: Agenda Book for August 5 Meeting at Woods Hole

Enclosed is the agenda book for the meeting on August 5 at Woods Hole. This meeting of the BBB should be most interesting - we have a full agenda, three new members, and almost full attendance of our members. There will not be as much time as I would like to discuss the future of the Board on Basic Biology, but I think that the afternoon discussion on sequencing the human genome warrants our postponing of discussions on BBB's future until our next meeting.

Please contact me if you have any suggested items for the agenda or any changes in the present ones. The responsible staff member will be in touch with those of you who will be leading the discussion of an item on the agenda.

I trust that each of you has been alerted to your respective housing arrangements. If you have questions or changes, please contact Frances Walton at (202) 334-2612.

I look forward to seeing you at Woods Hole.
