J. Jacob Young, '35, of Erie Pa., editor of the 1935 "Ye Domesday Book", the Georgetown University year book, along with his staff, have completed most of the work on the book, which has several new features this year, and gave assurance that the book would be out by Easter. One of the innovations this year is the different arrangement of the sports section, and the addition of many more pages, due to the efforts of Mr. Robert T. Phelan, '35, of Brooklyn, N.Y., sports editor. Mr. Louis J. Camardella, '35, of New York City, business manager of the book, also announced this week that there has been an increase in the number of subscriptions reserved for this year, also an increase of nearly 20 per cent over last year.
June 1, 1938

Dear Father Masterson, P.C.,

At a meeting of the Consultors this morning we considered the finances of the Doomsday Book in 1935. We wish to say that we are pleased with the efforts that are being made on the part of the business department to have as full payment made as possible.

In regard to the Doomsday Book for next year, the Consultors are unanimous that we should continue the book—however, under the following conditions: that the expenses of the book be kept within $2500.00; that the selling price of the book be $5.00.

Of course we realize that this would mean a considerable reduction in the artistic attractions which are so evident in this year’s book. However, we feel it inexpedient to levy a tax on the graduates for the coming year, and yet we do not wish to drop the book.

I wish that you would inform the Editor and Manager of our decision in the matter.

Sincerely,

[Signature]

(u) Coleman Nevels, S.J.

President

The first meeting of the new staff of the Doomsday Book was held Thursday evening. The yearbook staff is headed by J. Jacob Young, of Erie, Pa., while Louis Camarillo, of Brooklyn, N.Y., is business manager. The staff consists of Edwin P. McManus, of Danbury, Conn., assistant editor; Robert T. Phealan, of Brooklyn, N.Y., sports editor; Robert J. Tracy, Jr., photographic editor, and the following members of the editorial staff: George H. Guilfoyle, of New York City; Lawrence H. Coxe, William J. Powers, of Holyoke, Mass.; William M. Byrnes, of Scarsdale, N.Y.; John S. McKennan, of Swampscott, Mass., and John J. Gartland, Jr., of Poughkeepsie, N.Y.

Assisting the business manager are Andrew S. Watson, of Brooklyn, N.Y., assistant business manager; Thomas J. Burns, of Terra Amarilla, N.Mex., advertising manager; Charles A. Gildes, assistant advertising manager; Donald M. Lienb, of Sunberry, Pa., and Charles Weltmann, of Hoboken, N.J., staff members.
June 5th, 1934

Rev. W. Coleman Nevills, S. J.,
Georgetown University,
Washington, D.C.

Dear Father Nevills:

As you know, we printed the annual for your school this year. This book contained a number of interesting pictures which could be used in making up an attractive view book at a great saving in cost.

The book could contain either 8, 16, 20 or 24 pages, or even more, consisting of a mixture of cards and type. You could include views of the buildings and the campus, club pictures, athletics, etc. All of these would be of great interest to a prospect.

This book should be used more effectively than a catalog in this sense. It would be also be much less expensive.

F GEORGETOWN UNIVERSITY, WASHINGTON, D.C.

JOHN J. KIRBY, JR. EDITOR-IN-CHIEF
WILLIAM A. WEISS, BUSINESS MANAGER
To four valiant and far-seeing pioneers; apostles of Christ in the Colony of Maryland; Companions of Jesus, priests in the Society which bears His name; founders of Georgetown University; to commemorate Andrew White, for his foundation at St. Mary's City, in 1634; in memory of Thomas Copley, who built upon that foundation, in 1640, at Calverton Manor; in testimony of Michael Forster, who bore the tradition to Newton Manor, in 1677; to Thomas Poulton, for crowning these efforts in Maryland colonial education, at Bohemia Manor, in 1745; this edition of Ye Domesday Booke, celebrating the Tercentenary of the foundation of the Colony of Maryland, is affectionately dedicated.
What is today known officially as the City of Washington was once a part of the State of Maryland. By the acts of the Virginia and Maryland legislatures, which created the District of Columbia, Georgetown lost her territorial identity with Maryland, but has always maintained a close spiritual relationship with the parent state. Particularly does Georgetown University hark back to those early beginnings of Jesuit education in Maryland. There she finds the primal source and inspiration of her present-day power and prestige. Properly, therefore, she joins hands with Maryland in this, her tercentenary year; aptly, too, have we chosen her joy as the pictorial theme of this Booke.

HEALY BUILDING IN MID-WINTER
ANDREW WHITE QUADRANGLE
A WARM APRIL DAY IN 1933 MARKED THE COMPLETION OF THE INSPIRING NEO-GOTHIC WALLS OF THE WHITE-GRAVENOR BUILDING. THUS ANOTHER UNIT OF A FOND DREAM OF "GREATER GEORGETOWN" BECAME A REALITY.

WHITE-GRAVENOR BY NIGHT
GREEK THEATRE
MILE PATH
The College

When Father Andrew White, S.J., established a school at St. Mary's City, in 1634, for the colonists and the Indian children of the Yaocomoco tribe, his zealous labors not only marked the inception of a train of events which terminated in Georgetown University, but also planted the seeds for a new spiritual empire. The vision of that day finds itself vindicated in this tercentennial year in a corporate Church and a Ratio Studiorum which embraces the Union.

Professor of Obstetrics; Head of Department.

Murphy, F. Fay, S.J. (C)
Associate Professor of Philosophy; Special Lecturer in Social Economics.

Murphy, H. Garrick, Ph.B.
Graduate Manager of Athletics.

Murphy, Wm. S., B.S., M.D. (M)
Instructor in Pharmacology and Materia Medica.

Murray, F. M., D.D.S. (D)
Instructor in Orthodontia.

Murray, John C., S.J. (C)
Associate Professor of Philosophy.

Nyman, Lester, B.S., M.D. (M)
Assistant Professor of Pathology.

O'Brien, William M., Ph.D. (C)
Instructor of Oral Diagnosis.

Newton, Howard J., D.D.S. (D)
Professor of Diseases of the Mouth; Associate Professor of Oral Surgery.

Nielsen, Fred Kemml, M.A., I.I.M., L.L.D. (I)
Professor of Procedure Before International Tribunals.

Nordhoff-Jung, Sophie A., M.D. (M)
Associate Professor of Gynecology.

Norris, Levi Benson, A.M., M.D. (M)
Associate Professor of Clinical Medicine; Professor of History Taking and Physical Diagnosis.

Nolz, William F., Ph.D., L.L.D. (FS)
Dean and Head of Department of Economics; School of Foreign Service.

Nutting, George K., M.D., F.A.C.S. (M)
Associate Professor of Surgery.

O'Brien, Edward M. A.M., M.D. (M)
Instructor in Clinical Pediatrics.

O'Brien, John F., M.S. (M, D)
Registrar, Medical and Dental School.

O'Brien, John Francis A.M., M.D. (M)
Assistant Professor of Clinical Pediatrics.

O'Connor, John F., A.M., I.I.B. (C)
Instructor in History.

O'Connor, John J., S.J. (C)
Professor of Greek and Professor of Religion; Chairman of the Faculty of Classical Literature; Chairman of the Faculty of Religion.

O'Connor, Walter L., A.M., B.B.A., Ph.D. (C)
Professor of Economics; Registrar, College.

O'Donnell, Denis L., D.D.S. (D)
Professor of Dental Medicine.

O'Donnell, James E., A.B., M.D. (M)
Professor of Clinical Electroencephalography; Assistant Professor of Histology and Embryology.

O'Donnell, William Francis, M.D. (M)
Professor of Clinical Pediatrics.

Professor of Common Law Pleading.
REGISTER OF THE FACULTIES

The letter in italics indicates the Faculty, i.e., (C), College; (M), Medical; (L), Law; (D), Dental; (FS), Foreign Service.

O'DONOHUE, DANIEL W., Jr., Ph.D., LL.M. (L) Professor of Equity I and II.
O'CONNOR, BRYAN K., A.B. (FS)

O'LEARY, ARTHUR A., S.J. (C) Professor of Ethics, Chairman of the Faculty of Philosophy. Librarian, Higgins Library.

O'MALLEY, MILLS J., S.J. (C) Dean of the Graduate School. Professor of Comparative Religion and Professor of Sociology. Chairman of the Faculty of Social Sciences.

O'TELL, LAURENCE S., A.B., M.D. (M)

O'MALLA, MILES J., S.J. (C)

Page, R. MASSIE, B.S., M.D. (M) Associate Professor of Radiology.

PAGE, R. BRENNER, B.S., M.D. (M) Instructor in Clinical Medicine.

PARKER, A.M., M.D. (M)

PALMER, A.M., M.D. (M) Instructor in Clinical Ophthalmology.

PARKER, JOSEPH WINTHROP, M.D., F.A.C.S. (M) Associate Professor of Clinical Medicine.

PELZMAN, IVY A., M.D. (M)

PENHALLOW, DUNLAP P., S.B., M.D. (M) Instructor in Clinical Urology.

PETROVITS, STEPHEN J., B.S., LL.B. (C)

PETROPOULOS, THOMAS, A.B., M.D. (M)

PETROPOULOS, THOMAS, A.B., M.D. (M)

PETROPOULOS, THOMAS, A.B., M.D. (M)

POINSETT, JAMES BROWN, Ph.D., LL.D., J.U.D. (C)

POIRER, A. J. (FS) French.

PETERS, ALEX A., A.B., M.D. (M) Professor of Clinical Obstetrics; Supervisor of Instruction, Obstetric Department, Columbia Hospital.

PRICE, FRANK K. (D) Instructor in Operative Dentistry.

RANDALL, WILLIAM R., B.S., M.D. (M) Teaching Fellow in Biochemistry.

REAY, FRANCIS J., M.D. (M) Associate Professor of Clinical Medicine.

REID, EDWARD H., B.A., M.D. (M) Instructor in Clinical Psychiatry.

REILLY, JOSHDUBH M. (C) Assistant to the Treasurer.

RICE, E. CLARENCE, M.D. (M) Instructor in Clinical Medicine.

RICE, EUGENE C. JR., M.D. (M) Instructor in Clinical Medicine.

RICHMOND, PAUL M., M.D. (M) Instructor in Clinical Medicine.

RINES, ISADORA, B.S., M.D. (M) Instructor in Clinical Medicine; Assistant Professor of History-Taking and Physical Diagnosis.

ROGERS, JEREMIAH F., B.S., M.D. (M) Instructor in Clinical Urology.

ROSENBERG, RICHARD M., B.S., M.D. (M) Instructor in Anatomy.

ROSENTAL, J. S., B.S., M.D. (M) Instructor in Clinical Urology.

ROWAN, R. E., M.S., M.A., LL.B. (L) Professor of Criminal Law.

ROWE, LEO S., PH.D., LL.D. (FS) Inter-American Problems.

RUBIN, JAMES S., JR., Ph.D. (C) Assistant Professor of English.

RUSSELL, MURRAY, M.D. (M) Instructor in Surgery.

SAUL, CHARLES F. (FS) Secretary of School of Foreign Service.

SAVAGE, FRANCIS J. (FS) Assistant in Accounting.

SANDERS, FRED R., M.S., M.D. (M) Associate Professor of Surgery.

SANDS, WILLIAM F. AB., LL.B. (FS) American History; Diplomacy.

SAWYER, LEROY L., JR., A.B., M.D. (M) Instructor in Oto-Laryngology.

SCALIS, NORMAN P., M.D. (M) Instructor in Clinical Ophthalmology.

SCARCE, LEONARD, M.F.S. (FS) Staple Commodities of World Trade.

SCHEFFER, CARL F., M.S. (FS) Associate in Physics.

SCHNEIDER, ANTOINE, A.B., M.D. (M) Professor of Clinical Neurology.

SCHNEIDER, ALEXANDER A., A.M. (C) Assistant in Religion.

SCHNEIDER, HERBERT, M.D., F.A.C.S. (M) Associate Professor of Clinical Surgery.

SCHREIBER, FREDERICK C., M.D. (M) Associate Professor of Oto-Laryngology.

SCHREIBER, HENRY R. M.D. (M) Professor of Clinical Medicine.

SCOTT, JAMES BROWN, Ph.D., I.L.D., J.U.D., D.C.L. (FS) International Law; Foreign Relations of United States, School of Foreign Service; Professor of Substantive International Law and Jurisprudence, School of Law.

SCULLY, GERALD A., B.S., M.D. (M) Instructor in Anesthesiology.

SELINGER, MAURICE A., M.D. (M) Associate Professor of Clinical Medicine.

SHARPE, FRANCIS M.D. (M) Instructor in Clinical Surgery.

SHEPPARD, ELMER R., B.S., M.D. (M) Associate Professor of Clinical Oto-Laryngology.

SUS显, JOSHDUBH J., A.B., M.D. (M) Professor of Neurosurgery.

SILVERMAN, ISAAC A., M.D. B.S., M.D. (M) Professor of Clinical Psychiatry.

“Freshman? Fine, come over here, I want you to jump at a few conclusions for me.” To these and many other mysteries were we high school heroes initiated in the fall of 1930. To most people the word “Sophomore” means merely a second year college student, but to those awe-stricken newcomers at Georgetown, the meaning was more akin to fiend. In spite of their harrying we found time to be presented to Georgetown’s social life under the guidance of the Seniors at their tea dance. In time we grew bold and resisted our tormentors; banners emblazoned from prominent places containing expressions calculated to rouse sophomoric ire. War seemed imminent but somehow never came about. After the Cap game in which a veteran Sophomore team was very nearly defeated by our stalwarts, good fellowship reigned in place of strife. With the advent of spring came a measure of revenge as we decisively vanquished our second year rivals in the water sports on the Potomac. And now to mark our class as it becomes a definite part of Georgetown, we sponsored our first activity, a Freshman tea dance, which was very well received.

A summer rushes by and suddenly we are ourselves the same arrogant tyrants whom we detested twelve months before. We laugh as we see our evolution, and educate the hapless newcomers to the student body just as we were initiated into Georgetown life. But surprisingly our minions rise and administer unexpected defeat in the annual battle of the Caps. Our battered prestige is revived in other fields as we present the Virgilian and Horatian Academies as monuments to those matchless poets of a forgotten age. Gaston Debating Society takes great forward strides under the leadership of one of our number. And in successful climax comes the Sophomore tea dance, almost unique in its distinction of having been financially blessed.

Once more the clock hurries the hours and the days, and lifts us into the upper strata of college life. Corresponding to our rise is an increase of interest in scholastic fields. “Physics test,” a phrase that strikes terror into the hearts of most
of us. But there is another phrase that reigns supreme in our thoughts of Junior year. "The Prom," to which we have looked forward for so long, has come and gone, but the memories will linger long after the formula for Planck's constant has faded into oblivion. A brief, happy blur of reunions, gaiety, and then fleeting goodbyes. Back to the books with a sigh for departed pleasures. Other matters claim our attention and we garner many laurels in forensic and literary fields. From our ranks are chosen the leaders of the school activities.

At last the pinnacle is reached and we are Seniors, surveying the other classes with the eyes of experience and wisdom, or at least with those equalities attributed to us. Political strife, the death knell of loyalty and sincerity, has ended and friendships are cemented as we journey down the last lap together. Under our auspices the Freshmen are presented to the social life of the school. Led by Seniors, the many societies and clubs have maintained the standards of other years, in particular has the Current Events Club gained much favor by its aggressive and interesting program. The Gerard Hopkins Society has achieved much in its short career. In early March we witnessed an Academy in honor of St. Thomas Aquinas, several of our scholars conducting a brilliant exposition of Catholic Ethics and Education.

In athletics our record is unblemished. Competition in intramural activities within the school has left us an unsullied record in all sports and as the representatives of the school in the Off-Campus Conference, we have been victorious in touch football, swimming, volley ball, and ping pong. Varsity athletics depends on our leaders in golf, tennis, and shooting, as well as in other fields.

At the very end of our college days shines a resplendent memory, yet a very tender one. The Senior Ball, our last function at Georgetown, the final gathering for most of us. Good-byes are now adieux. College dreams become memories. College training has fitted us to carry out our dreams of the future. Life beckons.

Georgetown's contribution to the Marx Brothers Hall of Fame:
JUNIOR CLASS

OFFICERS

George H. Guilfoyle
President

Edward W. Hargaden
Vice-President

J. Arthur Hicks
Secretary

Joseph P. Lynch
Treasurer

Henry J. Vier
Student Council President
A VAST new experience awaited some two hundred and fifty young men during the middle of September, 1931, when it was their lot to leave homes in various sections of the country and journey to Georgetown University. For a week our lives were our own, but we soon felt the effect of an energetic Vigilance Committee. However, our Sophomore friends quickly grew tired of amusing themselves at our expense, being satisfied at having put us in our proper place. Now definitely united as a class, we set about to accomplish bigger things.

Men from our ranks have served on the staffs of the student publications, and others have distinguished themselves as members of the Band, the debating societies, and the Glee Club. Further, not infrequently have others been the recipients of scholastic honors. Our social activities have measured up to the high standard of all Georgetown functions. Tea Dances in Freshman and Sophomore years, and a delightful Junior Prom, were tremendously successful, a tribute to the efforts of able committees.

The Junior year draws to a close, and places behind us three pleasant and profitable years. We cherish the memory of days already spent, and look forward to the Senior year which awaits us the climax of a happy period in our lives. During the season we have been under the leadership of the following class officers: George H. Gilfoyle, President; Edward W. Hargaden, Vice-President; J. Arthur Hicks, Secretary; Joseph P. Lynch, Treasurer; Henry J. Vier, Student Council Representative.
SOPHOMORE CLASS

OFFICERS

VINCENT BEATTY
President

GEORGE GARNIER
Vice-President

ROBERT S. KELLY
Secretary

WILLIAM LEAHY
Treasurer

JOSEPH FINLEY
Student Council Representative
EVENTS, suitable for inscription by the historiographer, which have taken place in the life of the Class of '36, are innumerable—so abundant, in fact, that the great difficulty lies in the selection of the more salient ones. The first occurred in the fall of 1932, on the day set aside for “The Battle of the Caps.” The scene is laid in Western High Stadium. An anticipative crowd, assembled in the stands to witness this traditional contest, is growing restless. Of a sudden, huzzahs are heard rounding a neighborly corner, mingled with the harsh symphony of clattering pots and pans, and occasionally an amateur drummer.

Lo! and behold! a howling gladiatorial blotch of Freshmen, and in their midst George Perlitz, a veritable Sparticus, astride a white pensioner of Junk-yard, Inc. A pistol shot rang out. The game was on. But the game was forgotten in the recollection of that Freshman parade. The triumphant entry, the smiling commander, the gallant mascot, and the shouting marchers typified the spirited humor and comaderie that has been evinced by the class since its beginning in the fall of 1932.

In its selection of leaders the Class has shown that they possess a fine sense of evaluation of character. Due to unforeseen difficulties, Charles Ford, the President-elect, was unable to return to College last fall, so that Vincent Beatty, as Vice-President, succeeded him in the Presidency. Assisting him are: George Garnier, Vice-President; Robert S. Kelly, Secretary; and Joseph Finley, Student Council Representative; William Leahy, Treasurer.
FRESHMAN CLASS

OFFICERS

Edmund Bodine
President

Bernard Trask
Vice-President

Peter Brennan
Secretary

Joseph Moynihan
Treasurer
We had a lot to learn as we poured through Georgetown's great iron gate, and got our first glimpse of ancient Healy Tower, that warm September day. Teachers and Sophomores, each in their characteristic manner, undertook the task of teaching us. Will we ever forget those nightly pep rallies? And those periods of "duck-walking" and "rowing," which made us stiff for a week? And what classic struggle, "The Battle of the Caps"? What a game that was. The Sophs came through to beat us in quite an upset, 13-7. Though rather crestfallen after losing, we laughed it off, and the next day were permitted to doff our freshman caps permanently. Except for that upset by the Sophomores, the Frosh football team was undefeated throughout the season.

Came the Christmas holidays, with all their anticipation and excitement; then a return for those nightmarish semester exams. They have come and gone—with relief for most, with regret for some. Now we enter upon the second semester with high hopes, having gone through the period of formation, of apprenticeship, as it were. We have learned much since we first came here, and have grown to love Georgetown. We have been molded into a unified class, versed in Georgetown's ancient traditions, and we face the future with the purpose of upholding those traditions, and of being worthy of the appellation, "Men of Georgetown." To guide us in achieving this aim, we have chosen the following officers: Edmund Bodine, President; Bernard Trask, Vice-President; Peter Brennan, Secretary; and Joseph Moynihan, Treasurer.
MAJOR RAYMOND O. BARTON, U. S. A.
Commandant

In the short time since he has come to this unit, he has successfully accomplished the difficult task of filling the place left vacant by the transfer of Major Hobson. The indomitable spirit of his character, ability, and leadership has already been manifest throughout the unit, and we may successfully predict that Georgetown will rise to even greater heights of glory under his regime.

R. O. T. C.

The R. O. T. C. unit of Georgetown University is an integral part of the general defense scheme of the War Department. The present corps at Georgetown, evolved from that hardy body of men, who, having been hastily trained under the shadow of Healy's towers, later made immortal Georgetown's name on the battle-scarred fields of France. In 1919, an infantry unit of the R. O. T. C. was installed at the Hilltop in keeping with the provisions of the National Defense Act. Our legislators knowing that the future security of this nation lay in the hands of the youth of today, and particularly the college graduates, have undertaken to train these youths in the principles of leadership. The men of tomorrow are better prepared to meet life's problems, and the American nation as a whole is better prepared to maintain and defend the principles of freedom, justice and democracy upon which it stands, as a result of this training.

Indeed the approbation of the Rev. W. Coleman Nevils, President of Georgetown University, shows the honorable positions the corps of cadets occupies at Georgetown.
In the official records of the War Department it holds a similarly high place. The Georgetown R. O. T. C. has been rated as a "Distinguished College" unit continuously over a period exceeding ten years. To those not acquainted with the operations of this and similar units it will be of interest to peer behind the scenes and trace the activities of a cadet throughout the four years of his instruction and note his progress from the rank of a private to that of a cadet officer.

Upon the election of the course, the transition from student to soldier was rapid. The first and most striking effect was produced when the recruit donned his uniform. These uniforms were issued by the Government—they were "neat but not ostentatious." And then came that seemingly endless task of keeping brass polished, a process which one soon came to understand, as much of the essence of a disciplined organization, as were the guns. The classroom required even more assiduous effort than the drill field, whereon the intricacies of squad, platoon company, and battalion drill were learned and mastered. Under the capable directions of Captain Shoemaker and Lt. Hunt—both men, whom we came to admire, and whose transfer in later years we saw with real regret—we studied our duties as soldiers and our obligations as citizens.

As Sophomores we returned to become squad leaders, and, in some instances, platoon guides, which gave us a certain confidence and evidence of advancement along military lines. This year we came to know Captain Shoemaker well, and when his transfer came we keenly felt that we had lost a real friend and a fine officer. Here
problems and principles of scouting and patrolling were given thorough study. The mechanism and use of the automatic rifle was learned and musketry explained. A study of combat principles concluded our basic course.

Our duties as Juniors were those of non-commissioned officers with posts as platoon and company sergeants—which to many an underclassman's regret, we studiously fulfilled. This year Captain DeWare directed our study and no more thorough director could be conceived. Seldom has a man been more universally liked by the unit, indeed by the entire campus, as Captain DeWare. Our hours of training increased from three to five a week. The Browning Machine Gun was studied, both theoretically and practically. We learned the principles of map making, and later tested our skill along the Mile Path. Combat principles of a more advanced nature concluded our Junior year.

To attempt a description in any sense adequate of those next four weeks beneath a consistently hot sun at Fort George G. Meade in Maryland, is well nigh impossible. Within an hour after our arrival we had discarded our civilian garb and were hard at work in a pair of dungarees trying to untangle a .30 Springfield from several inches of cosmoline. Within one day we had fully entered into the routine of an army camp. From sun up until well into the afternoon we applied in the field the theories learned in the classroom. The work on the rifle and pistol ranges distinguished our representatives, and none were more capable with the automatic rifle, machine guns
and 37 mm. field pieces. The closing of our period in camp was the overnight hike and its difficult night march problem which was efficiently solved by a Georgetown command group. Following camp the summer passed all too quickly and we were soon to return to college as seniors. But apropos of our recollection of the camp phase of our course in Military Science it may well be remarked that if any of us had, prior to camp, a romantic conception of army life, the four weeks spent on the torrid sandy fields of Fort Meade served only too well to dispossess us of that conception.

And in this our final year, we came to know the ability and cooperation of Captain Cobb, who as Adjutant, so wonderfully helped us in our battalion reviews and in many other problems confronting us as field leaders. In the opinion of all, he is a fine officer, and a real friend of the R. O. T. C. student.

Looking back over our four years of training at Georgetown we have but one regret—namely, that they have come to an end. The instruction which we have received, in the opinion of all, has benefited us inestimably. We feel that we are better prepared to meet and solve the problems which will confront us, whether they be in an office or on the field of battle. We feel that Georgetown has better equipped us to carry on the traditions, and sustain the glories which have been hers. To Georgetown and to the officers who have been our leaders, instructors, and friends, we owe a debt of heartfelt thanks.

† † †

R. O. T. C.

† † †
PHILIP A. HART, JR.
President of the Yard

Last May the students of the College assembled in solemn conclave to elect as their Yard Officers three members of the then Junior Class. In the office of President of the Yard they were to elect a man who was to be their representative both on and off the campus; a man whom the students could send with just pride to participate in intercollegiate functions and feel quite assured that their interests are not only well taken care of, but also well presented in the person of their President; and yet he must never lose sight of the fact that what he is to them off the campus he must be to them on the campus, for by his very office he is delegated the official spokesman of the student body before the College authorities, and must at all times take the interests of both parties at heart to effect a common and satisfactory solution.

But slightly less important are the offices of Secretary of the Yard and Treasurer of the Yard, for upon their shoulders, besides their own tasks, devolve those duties the President is unable to attend to; and moreover in their respective capacities they are members of the Athletic Association, thus entailing the election of competent and able men to these two offices.

With this implicitly in mind the student body returned their impartial verdict in favor of Philip A. Hart, Jr., of Bryn Mawr, Pa., for President of the Yard. In spite of his failings and weaknesses, to which every one of us is prone to a greater
or less extent, the choice was a happy and judicious one for Mr. Hart, to an eminent degree, has those qualities necessary for the fulfillment of his office. With always a kind word and a gracious appearance, with at times a gentle but firm and just criticism, he was able to inspire alike, the trust and confidence of the faculty and the students, and, he was able, in the year of Tercentennial Celebration, to truly represent, to the credit of the College, its students before the outside world. Never let it be said that in his interests in the student body he failed to completely and adequately present, on every occasion, through himself, the petitions, desires, and complaints bound to arise in the course of the year.

To the office of Secretary of the Yard was elected Neil T. Regan, of New York, who during his college life has been an outstanding man of his class, a leader on the field of sport, in scholastic work, in extra-curricula activity and in social circles as well.

Of no less importance was the election of Basil T. Moore, of New Jersey, as Treasurer of the Yard, whose efficiency and sunny and cheerful disposition well suited him for his office and who was able, in his modest way, to carry the Georgetown Banner in Intercollegiate affiliations.

To these officers the students express their heartfelt gratitude for the untiring devotion exerted in their behalf and they take their leave with a fond regret.
The Senior Ball, the social climax of the school year, the final participation of the Senior Class in the numerous affairs of its college career, its last contribution to the many pleasurable events of four years, failed in no way to meet the exacting demands of just such a week-end.

For many years this has been an annual event; each succeeding graduating class has tried to make its final Ball and Tea Dance the best in the history of the College. The Class of '34 lost no time in choosing the men who were to manage the festivities. Nothing was sacrificed that would lend pleasure, and a basis for fond memories, to this farewell party of the Seniors. Nor was there any lack of cooperation and whole-hearted support on the part of the other classes in the College, and the various Schools of the University.

The setting, Washington in the spring, the beautifully decorated ballroom of the Wardman Park Hotel, the music by Freddy Martin, and the attractive favors, left nothing to be desired. The fact that the Ball was held earlier than in previous years was decidedly in its favor, since there was not the usual proximity to the June examinations, and the uncomfortable climate of late May.

To the chairman, Howard Gunlocke, and his committee, composed of William Curtin, Gerald Dolan, Rupert Friday, Francis Hickey, John Keenan, Paul Kennedy, George Looser, Arthur Parker, and William Stafford, go the justly deserved congratulations and thanks of all those who attended the festivities of the Senior Week-end.
On Friday evening, January nineteenth, the Junior Class held its Prom in the
Modernistic Ballroom of the Shoreham Hotel. The dance, an outstanding social affair
of the school, was a distinct success in every way. The committee in charge presented
an innovation to prom-goers of Georgetown; this consisted of two orchestras, Emerson
Gil and Dick Mansfield, playing continuous music. Although every class was well
represented, and many from the different schools of the University joined with the
College, at no time was the dance floor crowded—this was entirely due to the con­
tinuous music. Perhaps the most charming feature of the Prom was the ballroom. The
Shoreham has the most beautiful in the city, and the lighting effects certainly con­
tributed in a great way to the success of the Prom.

The Tea Dance, which was held in the Kennedy-Warren Hotel on Saturday, the
twentieth, also received much deserved and unqualified applause from all. Many
couples who were not present at the Prom added to the gaiety of this dance. The music
furnished by Leo Brusillof, and the seclusion of the ballroom gave this affair a unique
touch seldom attained.

The success of the Prom both financially and socially was due in no small part to
the ceaseless effort of Charles Milton, the chairman of the Dance Committee, and to
those of the other members of the committee, which included Henry Campbell, George
Guilfoyle, John Kenny, Eugene McCabe, John McKenny, Samuel Moore, John Quirk,
and Peter Sinnott.

THE JUNIOR PROM
To understand the Student Council, and its importance in student life at Georgetown, it is wise to briefly survey the activities over which the Council has control, and its general powers. Possibly most important of these, is the unique position which is the Council’s by virtue of which it is the official link between the faculty and students. The vital factor, which such a coordinator is, hardly needs clarification. The good which can be and has been accomplished through this group is sufficient testimony of the Council’s power.

It is their duty to regulate the operation of all extra-curricular activities and organizations. This in itself gives the board a powerful place in school life. To exemplify, this year the Council has established a new and more generally approved set of regulations governing the conduct of all campus voting, and the Council is, upon this matter, the only approved board of Certification. Composed of the official representatives of all classes, it is Georgetown’s official undergraduate voice. And from its activity, let us now define the Student Council as the undergraduate’s government and voice. It is well said, then, that here is Georgetown’s most influential student organization.

Its membership consists of: Rev. John J. Keboe, S.J., faculty moderator; Mr. Philip A. Hart, Jr., ’34, President; Mr. Henry J. Vier, ’35, Secretary; Mr. Francis E. Hickey, ’34; Mr. Richard H. Clarke III, ’34; Mr. George H. Guilfoyle, ’35; Mr. Vincent F. Beatty, ’36; Mr. Joseph S. Finley, ’36; and Mr. Edmund J. Bodine, ’37.
The Gerald Manley Hopkins Society—to quote from the first issue of "Measure," the official organ of the Society: "was organized in 1931-32, by three professors of the College of Arts and Sciences: Dr. Theodore Maynard, head of the English Department, Mr. Thomas A. Sulkie, S.J., of the English Department, and the Rev. Francis Burke, S.J., of the Department of Philosophy. The first of these, a Vice-President of the Catholic Poetry Society of America, wished to have that Society represented at Georgetown; the second hoped to bring the students and faculty together for poetic discussion and creation; and the third wished to present an aesthetics based upon Augustine and upon Paul Claudel."

Since its inception, the original aims of the Society have been preserved, and "Measure" has continued to be published twice a year. During the first two years of its existence the Society officially had no Moderator, although the Reverend Rector of the University very graciously took upon himself the duties of this office. For the past year, we have been fortunate in having as our official Moderator, the Rev. Joseph A. Slattery, S.J., who has devoted himself unsparingly to the interests of the Gerald Manley Hopkins Society. This year, let us add, has been a most successful one, due to the efforts of our Moderator, and the President, Mr. James C. Hendrickson, '34. Assisting them are John Shields, '35, Vice-President, and John G. O'Brien, '36, Secretary.

GERALD MANLEY HOPKINS SOCIETY
The Sodality of the Blessed Virgin has for its purpose the honoring and reverencing of the Mother of God by various devotions and activities in her honor. It was indeed most fortunate in once more having as its inspiring Moderator, the Rev. Vincent S. McDonough, S.J.

The student officers, whose ceaseless endeavors cannot be too highly praised, were headed by the Prefect, Richard H. Clarke, III. Assisting him were: Leon J. Roversi, Jr., Secretary; John J. Murray, Treasurer, and Frank A. Castellano, Organist.

The various committees, their functions, and the chairmen, who directed them, are: Apostolic, lead by Hubert Tracy, supervises sports and games for poor children; Big Brothers, under John Murray, works with Catholic Charities in the interest of wayward boys; Catholic Literature, directed by Gerald Dolan, keeps book-racks stocked with interesting current Catholic literature; Eucharistic, headed by Leon Roversi, endeavors to increase the number of frequent and daily Communions by the students; Membership, under Robert Curry, selects candidates for admission into the Sodality; Mission, directed by Henry Keller, secures contributions for the foreign missions; Our Lady's, supervised by Victor Scavullo, has charge of devotion directly honoring Our Lady; Poster, headed by Jacob Young, makes posters for the bulletin boards; Publicity, directed by John Garland, gives proper publicity in the school's newspapers and magazines; Social, under Frank Hickey, attends to social functions; and Social Activities, directed by Herman Heide, prepares members for "Catholic Action" in public affairs.
Another successful year is drawing to a close, another year in which the Society has fostered a closer and more intimate union of its members into the Mystical Body of Christ through services at the Sacrifice of the Mass. Not only this, but more has been the scope of the Society. It has endeavored to instruct applicants in the service of the Mass and Benediction; and through the kindness of its Moderator a series of lectures were given on the Rubrics and on the appreciation of the Mass.

Moreover, the celebration of the Feast of our Patron, St. John Berchman, was revived after a lapse of some years. Honor was paid to our Saint in the way he paid honor to God—by doing the ordinary thing as well as he possibly could. In this spirit have we, the members of the Society, tried to fulfill our appointed tasks; and in this spirit have we co-operated at the Sacrifice of the Mass, be it High or Low, be it early or late.

A word of appreciation is due our Moderator for his untiring and unselfish devotion to the Society; and a word of congratulation and gratitude is extended to the members, not only by the officers but also the Fathers whom they served, for their loyal support throughout the year. The affairs of the Society are being admirably directed by the President and Master of Ceremonies, Mr. Herman L. Heide, Jr. The officers assisting him are: Richard H. Clarke, Vice-President; Francis E. Hickey, Secretary; Leon Roversi, Treasurer.

ST. JOHN BERCHMAN SOCIETY
Although this organization is not one of the oldest in Georgetown, it nevertheless holds a rather unique position, inasmuch as it is the only exclusive Senior Club in the College. Its objective, as the name connotes, is to be of assistance to Seniors in determining their vocation once they have left the sheltering walls of Georgetown. In fulfilling this purpose, leaders in their respective walks of life are invited to lecture on the various aspects of their chosen vocations. These talks, which are given in the Senior Lounge, are consistently interesting and instructive.

This year's group was particularly fortunate in hearing Mr. Joseph Tumulty, Secretary to the late President Woodrow Wilson, Dr. Chas. B. Lowndes, of the Georgetown Law School, and Mr. Charles T. Fisher, Jr., former President of the Yard and now head of the Reconstruction Finance Corporation in Michigan, and Dr. James A. Cahill, professor of clinical surgery at Georgetown. Due to existing conditions in the world which we are about to face, the lectures, or rather the friendly talks of these gentlemen were particularly timely and inspirational.

The members of the Club also considered themselves very fortunate in having as their Moderator, the Reverend Peter V. Masterson, S.J. It was due entirely to his unflagging interest and remarkable personality that the Club attained its popularity and achieved its purpose during the past few years. It is a thankless task and the members of the Club pay tribute to Father Masterson. At the first meeting of the Club, in the Fall, the members elected Walter O. Briggs, Jr., President, and John P. Noonan, Secretary.
Immediately behind the rostrum in Gaston Hall, there are fixed three seals, one of the University, another of the Sodality of Our Lady, and the third of Philodemic. No more striking testimony need be offered to reveal the Philodemic's outstanding position among the extra-curricular activities of the College. Contemplating its one hundred and fourth year of continuous existence, little wonder that it is rich in tradition beyond any other. Upon its rolls are the names of Georgetown's famous sons—many of whose portraits line the walls of its impressive meeting room.

Its purpose is the "fostering of a love of eloquence and the development of persuasive speech." How well it has attained these ends, is revealed from the phenomenal record in intercollegiate debates—Georgetown has not been defeated in competition since 1921. Also it sponsors the outstanding academic competition of the year, the Merrick Debate, inaugurated in 1875. So too, it conducts the Hamilton Extemporaneous Debate. Both of these are time-honored events at Georgetown.

Philodemic is not complete without the man who has guided it for the past twenty-one years to such a remarkable position. A master of logic, Father John J. Toohey, S.J., can be hailed as the man who has sent into life sons of Georgetown well grounded in clarity of thought and forcefulness of expression. Its one hundred and fourth group of officers are: Philip A. Hart, President; Jerome J. Downey, Vice-President; Francis E. Hickey, Recording Secretary; Charles Hutchinson, Corresponding Secretary; Richard H. Clarke, III, Treasurer; George D. Crowley, Censor.

PHILODEMIC SOCIETY
The Gaston Debating Society has successfully completed another year, its twenty-first, at Georgetown. The Society was guided this year by the unflinching hand of the Rev. Joseph F. Thorming, S.J., Moderator, and a new arrival at Georgetown. Yet he has ably directed the organization in maintaining Gaston's high peak of perfection, which was reached last year under the careful guidance of the Rev. Charles J. Foley, S.J., the former Moderator.

Newton A. Free was well chosen by the Society as its President, and the other officers: David J. Powers, Vice-President; Thomas F. Quinn, Secretary; John O. McGuire, Treasurer; and John G. O'Brien, Censor, showed themselves worthy of their elections. Under their leadership Gaston maintained its traditional excellence. The junior members of the Society, selected principally from the Freshman Class, have exhibited such fine abilities in both debating and leadership, that they give good promise of carrying on the glories of Gaston next season.

The Society has created a new position this year, namely, that of Manager of Debates. James S. Kernan was chosen to fill this new office, and he industriously performed his duties by arranging intercollegiate debates for Gaston against Manhattan College, Yale University, Columbia University, and the University of Maryland. All of these contests were favorably engaged in by the representatives of this Society. Finally, there was the traditional Gaston-White Debate, in which, as usual, the interest and rivalry was intense and keen, but friendly.
In the year 1912 a debating society was organized at Georgetown College to aid members of the Sophomore and Freshman Classes in gaining facility in effective public speaking. The Society was named in honor of Chief Justice Edward Douglass White, whose accomplishments distinguished him among the jurists of the United States and gentlemen of Georgetown.

During the course of the current year the topics selected for debate were those of national concern and importance. The interest shown in them was evidenced in the discussion by the members following the formal debates. On these occasions lively arguments took place, giving the members an opportunity for extemporaneous speaking.

This year the White Debating Society had the pleasure of meeting the Hughes Debating Society of Fordham University in New York. We also had the pleasure of debating with the Marquette Society of Boston College in Boston, and of having as our guests at Georgetown the representatives of the Robert Bellarmine Society of Loyola College, Baltimore.

The Society sponsored a Tea Dance, the first in a series given at Georgetown this year. It was a success and together with the Annual Banquet comprised the Society's social activities.

We are grateful to our Moderator, Father Fay Murphy, for the wise counsel and sincere interest which he has given to the Society. The officers are: Mr. James D. Curtin, President; Mr. Thomas B. Finan, Vice-President; Mr. Frank S. Swain, Secretary; Mr. Frank Barton, Treasurer; Mr. Frank S. Ainsa, Censor.

WHITE DEBATING SOCIETY

![Image of the White Debating Society members]
An integral part of university education is contact with the drama. Excellent workmanship and enthusiastic vitality have been the mark of the Society. Beginning with the romantic pageantry of “If I Were King;” the modern movement in “Wings Over Europe;” the dynamism of the one-act plays: “The Game of Chess,” “Something in the City,” “The Hand of Siva,” a distinct contribution has been made to the esthetic life of Georgetown.

The drama gives more possibilities of interaction between the students than any other art form; Actual presentation is but a crystallization. There are the mechanics of direction, staging and rehearsal. Few activities demand such strict attention to expression and have given more enjoyment.

The one-act plays were a novel experiment in direction by students. Neil Regan brilliantly interpreted the Russian pessimism and barbaric decadence of the “Game of Chess.” Jack Leal achieved satiric scintillation in “Something in the City,” with Joseph Kirby a priceless Marjoribanks. Roland Gallagher with critical direction developed the psychic quality of “The Hand of Siva.”

With the present impetus and established nucleus, something of real worth must arise. For those we shall see no more; May they raise all hearts to a new vision as they trod the boards in buskins. SILENCE—the curtain rises—ON LIFE.

It seemed only proper that the three hundredth anniversary of the establishing of the Jesuit Order in the United States should have found a Georgetown Glee Club whose achievements were of an extraordinary character. It may be truly said that this was one of the finest as well as the largest musical organizations ever to represent the University.

The call for candidates during the first week of October elicited a generous response, and after a period of intensive practice under the patient and masterful direction of Dr. Edward P. Donovan, this group attained a perfection of tone and a delicacy of balance not often met with among college units.

During the season the Glee Club gave many performances at the various schools and social organizations in the vicinity of Washington and Baltimore, and its repertoire, which extended from the sacred music of the Middle Ages, to the works of modern composers, was received with great enthusiasm. In addition to its usual duties, the Club took part in several of the functions which were sponsored by the University in honor of its founders. The rendition of ancient Gregorian Chants at the reception of the Papal Nuncio in October, was especially worthy of praise.

Dr. Donovan and Father Aloysius M. Torre, S.J., the Moderator, may be justly proud of their work in developing such an efficient Club. The officers of the Glee Club for the year, were: President, Victor K. Scavullo, '34; Vice-President, James A. Gannon, '34; Secretary, Thomas J. Rice, '35.

---

**GLEE CLUB**
The Current Events Club is an organization which draws its membership from all classes of the university. Brought into being several years ago as a supplement to the history courses, this society has always enjoyed the whole-hearted cooperation of the university administration as well as that of the student body.

The purpose of the Current Events Club is the discussion of major national and international questions. At specified times meetings are held to which some recognized authority upon the question to be discussed is invited; round table discussions being held after the address by the guest.

Perhaps the greatest single reason for the interest displayed throughout the year in the Current Events Club is the capability of its moderator, Professor Tibor Kerekes, Ph.D. His wide range of experience coupled with his natural interest in the organization fit him admirably for the position. During the school year of 1933-34 the society has enjoyed perhaps the greatest enrollment and interest in its history.

As an instrument for broadening the outlook of its members the Current Events Club has more than achieved its purpose; as a supplement to the history courses it is both necessary and interesting; and in its main objective, the production of a university organization to engage the student interest in national affairs, it has proved invaluable.

The officers of the Club are: Dr. Tibor Kerekes, Moderator; Mr. Herman L. Heide, Jr., President; Mr. John M. McVoy, Jr., Vice-President; Mr. Thomas F. X. Scully, Secretary.
The Georgetown Chemical Society is an organization open to upper classmen who are interested in the science. It aims to increase the knowledge of the members and stimulate their interest in the development of Chemistry. Particular effort is made to show the importance and application in industry of principles learned in the lecture hall.

Meetings are held at which lectures are given by members of the faculty or by leaders in the science outside the University. Papers by the members of the Society on current developments are read with an aim toward familiarizing them with recent scientific literature and the trend of modern experimentation and research. There are also facilities for showing motion pictures of industrial processes.

The Society in its present form was organized by the late Father Coyle, who set the high ideals which it is carrying on. Although greatly limited by lack of facilities in previous years, the success was remarkable. With the expansion of the Chemistry Department into its new quarters in the White-Gravenor building the subject of Chemistry takes a more important position at Georgetown, and the Chemical Society looks forward to increasing success. Under the able direction of Father Gorman and with the willing assistance of the Chemical Faculty the past year was a highly successful one. The officers of the Society are: Robert J. Mawhinney, President; Joseph H. O'Connell, Vice-President; Joseph F. Guilfoyle, Treasurer; Rupert H. Friday, Secretary.

* * *
In offering this 1934 edition of *Ye Domesday Booke* the staff has spared no effort in order to produce a volume which, they sincerely hope, will be truly representative of one of the most loyal and companionable classes which Georgetown has ever seen. The many obstacles which have arisen in the preparation of this Booke would have been insurmountable had it not been for this cooperative spirit. So let such errors and shortcomings as may creep into this work be attributed to human imperfections, rather than to any lack of diligent and careful application.

Justice demands that our heartfelt appreciation of the unselfish assistance given by these many persons, be herewith expressed. And so to the Rev. W. Coleman Nevils, S.J., President of Georgetown University, and the Rev. Peter V. Masterson, S.J., Moderator of *Ye Domesday Booke*, for their continued cooperation and helpful counsel; to Mr. William A. Daniel, of the Benson Printing Company, to whom belongs the credit for any innovations which this volume may present; to the Benson Printing Company, the Lotz Photo-Engraving Company, and the Chidnoff Studio, which have placed the perfections of their respective crafts at our disposal; to William A. Weiss, our colleague, for his tireless and ceaseless devotion to the task of making an annual possible in a time of financial distress; to each of the Editors and Business Managers of the various profession schools, who have bound this Booke into a closer unit than ever before; to Neil T. Regan, a brilliant Sports Editor; to Walter O. Briggs, our Advertising Manager; to Joseph O'Connell, an ever-willing photographer; to all those faithful members of the College Editorial and Business Staffs; to the secretaries and historians of the various organizations and classes; and to our advertisers; we extend a warm commendation of their labors, and a deep appreciation of their loyalty.

The fifteenth year of its publication has seen The Hoy augment its reputation as one of the finest university newspapers. It has proved its value as an agent for providing journalistically minded students opportunities to manage the essential details of a complete weekly.

As occupant of the editorial chair, Thomas F-X Scully has inaugurated several improvements, both in the style and the composition of the publication, which have served to render the news of the college more forceful and direct. In the University department John M. McVoy has been singularly successful in incorporating the several schools into a well-knit unit.

Edward S. Kelly, director of the business staff, performed the herculean task of making the assets by far outweigh the liabilities, no mean feat for a college business manager in these benighted times. For a managing editor of the highest qualities The Hoy was fortunate in having John J. Gartland. With a complete knowledge of the mechanical details of the paper at his command he has performed his task more than capably. To Neil T. Regan and his sports department followers of the Blue and Gray owe a debt of gratitude. Complete and accurate, this section of The Hoy has never failed to please subscribers.

Last, but far from least, Mr. George A. Yanitelli, S.J., moderator, has shown himself to be a guiding spirit of incalculable value to the entire staff. His assistance in everything from last minute cut service to mediating in dark hours with the administration were vital to the very life of the publication.
Representative of the highest standards of undergraduate literary ability, *The Journal* has ever seemed to possess those elements of classicism and beloved tradition, which stamp it as peculiarly "of Georgetown." The fact that it has passed through another year, not only living up gloriously to the high standards expected of it, but actually taking a step forward in quality, reflects no little credit on all those connected with it.

The Editor, James A. Gannon, besides being a literary gentleman of extraordinary ability, also showed himself possessed of the facile tact and endless optimism necessary for such a portentous office. John I. Griffin, the Assistant Editor, proved himself an indefatigable worker and an indispensable aid, taking a hand at everything from running departments to writing stories.

The year 1934 marked the Tercentenary of the founding of Maryland. This event, of intimate significance to Georgetown, was celebrated in *The Journal* by a series of articles throughout the year on the events and characters concerned in Maryland's history, written by John C. Kelly, one of the most brilliant essayists on the staff.

*The Journal* was particularly fortunate in having as its Moderator this year, Rev. William S. Dolan, S.J., whose solicitation in all matters pertaining to *The Journal* was far more than official. His unflagging interest, his unfailing cheer and amiability, and his broad knowledge not only rendered him invaluable to the staff, but mainly helped to raise *The Journal* to still higher plane.

"... With purity and with holiness I will pass my life, and practice my art... into whatever houses I enter, I will go into them for the benefit of the sick, and I will abstain from all mischief and corruption. ... Whatever in connection with my professional practice, or not in connection with it, I see or hear in the life of men, which ought not be spoken of abroad, I will not divulge, as reckoning that all such should be kept secret..."

_Oath of Hippocrates._
School
Commencement this year marks the conferring of degrees upon the first class to begin its course of studies in the new Medical School Building. Since its opening, the affairs of the new Medical School have been under the wise and capable guidance of the present Regent, Reverend John L. Gipprich, S.J., and Dean, William Gerry Morgan, M.D. Within the short space of its existence, this new building has watched with quiet satisfaction the untiring efforts of these splendid educators. Innumerable have been the changes which they have sponsored in unceasing determination to keep at highest standard the quality of medical teaching at Georgetown. We, the Class of 34, thank them for their abiding solicitude in our welfare and hope that their past success may be eclipsed only by greater accomplishments for the glory of our Alma Mater.
The curtain is lowered slowly and reverently; the Class of '34 has played its role within the walls of Georgetown and goes forth to all quarters. In the minds of its members, sad memories, fond recollections and noble tenets intermingle with the just pride of duty well accomplished. Sons of Georgetown officially entering one of man's most trying careers—God prosper us and banish from our hearts the petty jealousies and passions which narrow a man's service to his fellow men.

To those of us from whom Time has called some dear one during our stay at Georgetown, we offer sincere and heartfelt sympathy, but beg of you not to be too sad—for, after all, the loss is ours alone, and we can stand that, knowing as we do, that those dear ones are enjoying our success on this joyous occasion to even a higher degree than possible in this mundane existence. May they remember us, your friends and classmates, in their intercessions.

Though the close of this year marks the beginning of a lifelong separation of many of us, this "Booke," with its names and portraits, can but call back to mind incidents which will forever be a source of pleasure. Among those names and portraits are the men with whom we have lived as brothers for the four most decisive years of our lives—we honor those men and wish them well earned success. We smile with them as they recall the terrors of Anatomy, the bugbear of every medical student. And who will fail to recount the sleepless nights spent in the preparation of other subjects?—only we can appreciate that. Nor shall we ever forget such impressions as our first encounter with Death and our first view of an emergency room crisis. Depressing, yes, but soon offset by the wonderment aroused by the successful tracking down and treatment of obscure ailments, the restoration of maimed limb or the rehabilitation of some misdirected mind along normal and useful channels. And none of us will forget the thrill which came to him when, for the first time, he helped an infant soul
into this world. Would that the space allotted was sufficient to recount the many happy incidents involving our classmates at school, in the clinics and even in "extra curriculum activities," but since it does not we must pass them over by asking, "Who will forget them?"

Whenever we glance at this book may it always serve to remind us of our Alma Mater and her Faculty members who strove so earnestly, by precept and example, to make of us what they themselves so ably typified—Gentlemen and Physicians. We want them to know that we shall always regard them in highest esteem and if, perchance, in time to come, adversity should overtake them, we, in our prime, pledge a helping hand to the best of our ability. We wish them the utmost of success in their varied lines of endeavor and hope that in years to come we may have many happy reunions. And later, as the years and experience round out our wisdom may we, in the same unselfish spirit as these men, pass on to the younger sons of Georgetown whatever help and assistance lies within our power.

To our parents, we offer this volume as a token of love and appreciation for the sacrifices which made possible our appearance in it. Though every son of us, deep in his heart, desires to pay back those sacrifices we likewise realize the utter futility of such an attempt. Therefore, since such material reparation is out of the question, let us all hope that your ultimate motive may very soon be accomplished in the possession of an honorable, successful and respected son.

And now, from halls which we shall ever reverence, we step into the ranks of Hippocrates to follow his leadership and to practice his principles with loyalty to God and to man. Setting aside false ambitions for worldly gains we pledge ourselves to lives of self-sacrifice in the service of mankind. May the years grant us wisdom and happiness that our sunset glow may reflect serenely on the parents, school and tutors who so capably directed our start toward that end.

And so, gentlemen, another year has added to the worries, troubles, pleasures and delights of the chronicler. In our doting old age, as we meander through the pages of this tome, we will come upon this sketchy record and by the process of association, which Drs. Bullard, Reed, and Hickling have variously explained, some of the most pleasurable as well as some of the most worrisome and important days in our lives will pass in review.

We started in that memorable September of 1931 with high hopes, and were thus initiated into the fellowship of Anatomy students. Our interest in our work fluctuated in intensity in direct proportion to the distance that Dr. Madigan or Dr. Duncan were from the dissecting table. We recall on our first arrival in Histology Lab., Dr. Bennett's "Gentlemen, you will report to Gallinger Hospital for a post-mortem." Then we settled down to grind.

We were fittingly introduced to the intricacies of Bio-Chemistry by Drs. Hird and Holm and Mr. Milone. The consultations of Dr. Holm with Tommy Christianson were awaited eagerly by all the class with the exception of Tommy himself. All of us will be telling our colleagues, years hence, that we believe a statement concerning Physiology is true, because Dr. Mackowitz said so and demonstrated it on an experimental animal.

The second semester was drawing to a close. Remember when the non-fraternity men met upstairs before the class elections, in a group twice as large as the total of
all frat men. But in union there is strength, and the frat combination won all posts except that of Mr. Hughes, who was reelected to the Presidency.

We returned in the Fall and heard increasingly louder rumblings of the National Board. Most of us managed to survive at the end of this third semester and went on to skim rapidly over the pages of MacCallum and Gray.

Bernie Schultz, believing that all work and no play would make us irritable, staged a most enjoyable dance. We remember when the New Jersey boys arose at a class meeting and protested against the National Board Exams. We took them the following June. We must not forget the shortest election meeting in the history of the school, when a motion to reelect the whole slate terminated in a pre-election week of quietness and utter lack of campaigning.

Now that we have reached our clinical years, where we learn more of the glamour and squalor connected with the ways of Nature and Man, we take this opportunity to express our appreciations to Father Giprich and the members of the Faculty who have assisted us so patiently.

**JUNIOR CLASS**
In most of us the desire was born and nursed through four years of college—four years, which when they had drawn to a close, found us not too highly elated with our Bachelor Degrees, but rather with a hungry yearning to start in pursuance of our medical careers. The degree caused the usual satisfaction, yet we knew that in the real sense of the word college graduation was—commencement.

In beginning our studies at Georgetown the realization of the hard road to be traveled was very soon firmly entrenched in our minds. We met our professors, and we were very soon of the opinion that no efforts had been spared on the part of the University authorities to place our eager ambitions in the hands of men of understanding, and of keen insight.

As time unfolded itself, and slowly but surely we began to grasp our subjects, the feeling of uneasiness became less and less. Three weeks had hardly been under way when we selected our first president, "Kel" Thompson, who after a term of a few weeks decided to leave school. Another election was called and our present leader, George Lawson, inscribed in office.

The term wore along and as the "mid-years" approached, that vague something away down "there" began to assume titanic proportions. At the Christmas holidays many a Freshman clutched his Anatomy and Histology firmly in his hand as he...
headed toward home, determined not to waste any vacation time on frivolity. When the hour for examinations arrived most of us were on the verge of collapse.

However, throughout this trying period we were buoyed up with the realization that at their conclusion we were to hold our first social affair, the Freshman Prom. The chairman, George Duggan, and his committee spared no efforts in making it a success, and the memory of the affair is still fostered by all who attended.

Starting our second year, with a good idea of what lay ahead, we set about immediately to make good by attempting to repeat the success of our first. A note of sadness was evident when the class learned of Dr. Duncan's illness, necessitating a year's leave. Our memories of his kind tutorage, and sympathetic understanding, mark his place in our lives as one of endearment and constant thoughtful regard.

As the curtain slowly descends on the last act of our pre-clinical years, it is with renewed hopes and ambition that we face those of our clinical. When the time arrives for Georgetown to count the class of '36 among her alumni, it is our final desire, that she know and realize, that those high Christian ideals, she wants to make such an intrinsic part of our medical careers, will be fulfilled.

SOPHOMORE CLASS
FRESHMAN CLASS

With a doctor’s degree as our focal point, we have successfully completed the first step towards our chosen vocation. It was with timidity and hushed respect that we registered last September, attended our first classes, and moved with an anxious step through the sanctuaries of science, fully realizing that we were no longer members of the social ranks of collegians and partakers in the carefree life of Latin, Greek, Mathematics, and Philosophy.

Classes began and quickened stride with each passing day, and before long we found ourselves not only acclimated, but very much a part of the greatest endeavor of the laity. It was from the outset impressed upon us that we had at last reached the realm of higher education, and with this thought in mind, the entire responsibility fell upon our shoulders to do with our time and privileges as we could, but, in any event, to take the consequences whether they be for better or worse.

Our time was interestingly and fully occupied with the minuteness of Histology and the multiplicity and complexity of Anatomy. With the coming of the midterm, we found ourselves finished with one science, and another—not altogether new to us, yet different in scope, took its place. We were again dabbling with test tubes, and had to at once adapt ourselves to a more accurate consideration and to a more accelerated technique.

Much of the credit for our success must be given to those men whom we found, not rigid and matter-of-fact, as we had expected, but most tolerant and helpful to us in our work during the year. We are most grateful to our professors for their many
painstaking efforts in our behalf, and here take the opportunity of extending our ap­preciation and thanks.

Class elections, held in October, were at first to be temporary, but the popularity and ability of the selected men warranted for them a re-election for the remainder of the year. Much can be said of these men who worked zealously and untiringly for the Class during their chosen term. Charles A. Finnigan, our President, was never too busy to give to each one a word of courage, or too tired to listen to a complaint or suggestion for the benefit of the individual or the Class. His co-worker in class management was equally as active, ever cheerful, and willing to give more than his share to his classmates; Joseph Sheffery, we had wisely selected as Vice-President. To the Secretary, Philip S. Arthur, and the Treasurer, John B. McDonald, we also extend a vote of thanks, and hope that the coming year will find us with the same, or as competent a group of officers.

The first step has been taken, and we eagerly await our Sophomore year, justly proud of our accomplishments thus far, and hopeful of an equal or an even greater degree of success in the years to come.

---

FRESHMAN CLASS

---

FRESHMAN CLASS
Maryland has always cherished and prided herself upon her title of "the Free State." It is to her imperishable credit that she first wrote into law the principle of religious toleration. Georgetown, once a part of Maryland, has made her contribution, training many for the Maryland bar,—still more, spreading her tradition to all parts through the thousands of graduates of the Law School.
Law
Upon the studious sanctuary of old Georgetown Law School, its mellowing and harboring protection we turn our backs, and with a certain solemn expectancy we face the world which even at the moment of our entrance is deep in the throes of a hopeful reconstruction. It is indeed in solemn expectancy that we of the Class of '34 join at the exit, the long, long line of alumni reaching far out toward the setting sun. With the imprimatur of her seal of learning stamped upon the intelligence of each, Georgetown's lawyers, vintage of 1934, solemnly and ambitiously face their destiny intent upon perpetuating her illustrious record and upon earning for themselves careers of distinction and of humanitarian service.

So we view the future as our class attains the day of its majority and the hour of emancipation. By reason of this very fact, however, we pause upon the threshold and the purpose of this chronicle is fulfilled as we permit our gaze for one last moment to wander retrospectively.

We find ourselves, then, once more assembling for the roll call of the Georgetown Freshman class, a good one hundred strong. There dwells with us the memory that, as for the first time we answered the calling of our names, there weighed upon our consciousness the rumbling forebodings of a nation in its crisis. The world was sick of an old passion, but still we designed to look into the future. For the passion which inspired us was the passion to succeed. In this spirit we chose Walt Gallagher to blaze our yearling trail, second in command we placed Finnegan, and Al Brick assumed the formalities of guarding our depression treasury.

Then through that warm Spring initiation to a dream there came that realistic trumpet call to war. Through hot May nights and hot May days we fought, fought for the right to lead a legal life. Out of the smoke and heat of battle loomed one Panati, first in the onslaught of book and brain.

September sleeping like an aging maiden upon
the warm bosom of the city, and we in Washington again. Hark to the roll call, brothers! What mean those little silences? Somewhere in Washington, somewhere throughout the nation, men have gone down before the lances of examinations, before the ravages of monetary wars.

Then there came forth, first in command one John Waldhauser and on his staff we find these men: Ray Law, Malone, McLean, Kersjes, and Bible. About them in grim determination did we rally, meeting upon one front the woes of a bankrupt world; upon the other the exacting demands of professional education, brooking no distractions, jealous to the end.

Thus amid the dire rumblings of a darkest year we plowed our way across the dangerous No Man's Land of second year, and as we plowed, we dodged those most murderous shells of Common Law Pleading. Most murderous shells? Ah! we must not forget the supremely amiable and humorous propensities of the grand old man who aimed them at us. Professor Keigwin took the sting away.

Another September. Another convocation. The Three Years War is waning to a close. Was it not a most sober class which selected suave and diplomatic Boland to carry on? With him we placed in office Panati Tapogna, Driscoll, Morgan and Platt.

Faced with crises, we fought for tradition. Still there was the habit of the Law School Prom, still a smoker dotting here and there the routine work of living for an end. To our credit be it said that never have we forgotten how to laugh; and to the credit of Dr. Lewis Cassidy, a student of attainment, friend of the student in distress, be it said that we were not permitted to sour and forget. To his wily witticism and friendly satire here's a memory in the cup.

With this we go. Our epic is the silent one of personal action past, the burden of our song, the silent message in eyes focused on tomorrow. We have no time for bickerings of amiable antics in and out of class. We are a depression class, we face tomorrow familiar with defeat, yet solemnly prepared to triumph.
There is an evident lack of discernment in any effort to picture the events of the past while the present and the future are so much in the minds of the group of potential lawyers who compose the Class of '34. It is the thought of the happy prospect or the ominous portent of the future which affords the colorful background for the story of the Senior. In keeping with this pervasive attitude of anticipation, many of the Class had prior to the reassembling for the Senior year submitted to and successfully passed the examination for admission to the bar of the District of Columbia. Others were in preparation for the next examination shortly to follow. Satisfying to the minds of all was the prospect of the acquisition of the long-awaited degree.

The chronology of class activities had its customary beginning with the election of class officers. These proved to be a happy family affair of disinterested voters whose studious choice conferred upon Cornelius Keefe Hurley the office of President of the Class. The following were named his fellow officers: Fred B. Doyle, Vice-President; Francis X. Vance, Secretary; George A. Cassidy, Jr., Treasurer; James T. Murphy, Historian; and James Bennett Cowdin Howe, Sergeant-at-Arms.

Scholastically matters proceeded with the precision expected of the Senior, a precision born of the vastness of his experience. One disturbing factor alone deserves recalling from the limbo of class routine. That bit of distressing irritation was a lingering real property ailment known as a "Perpetuity." In order that posterity may know, and that the participants in the ordeal of research may not too easily forget, the topic of the treatise, requested by Professor Sullivan, is hereby officially restated: "The Operation of the Rule Against Perpetuities in the District of Columbia with Special Reference to the Code of 1901." Ere that crowning literary effort reached a conclusion many an otherwise rational young gentleman was defining a perpetuity as a period of time required for the writing of
twenty-five pages rather than as a period of years.

Examinations were festive occasions of relaxation by comparison.

Notwithstanding the hurry and bustle of everyday life, many of the Senior Class found time in which to extend their energetic efforts into extra-curricular activities. Several Seniors were counted among those actively interested in the John Carroll and the Ashley M. Gould Law Clubs, over which James O'Donnell and C. Keefe Hurley presided, respectively. Georgetown's Law Journal received the earnest support of numerous members of the class, outstanding among whom was George A. Cassidy, Associate Editor of the Journal. While not particularly active socially as a group, the Seniors individually aided and abetted the management, and enjoyed the Law School Prom.

An overworked legion fifty strong was this Senior Class of '34. The trying requirements of a life of study found a complement in the even more commanding task of ekeing out a livelihood. This latter portion of the story defies the narration, for it approaches too closely the intimately personal or shades into the monotony of the everyday struggle. As for the ultimate success of these workaday efforts let the results speak. Our numbers remained almost intact while capable young men from our midst were becoming business executives, enterprising realtors, insurance experts, court attaches, technical men skilled in the patent arts. One or two of the more aggressive were already practicing their profession before the Courts of the District of Columbia. And another has been signally honored by an appointment to the staff of the Attorney-General.

Twice a man is he who attempts the role of student and wage-earner. His struggle is twofold. His history is necessarily a eulogy rather than a recounting of events. To have traversed the years filled with alternate periods of interest and of gruelling monotony is to have triumphed. The thoughtful hope for the future should be that his curious blend of inquisitiveness and acquisitiveness may remain unchanged, and that he may find the aurea mediocritas in the predominance of neither but in the preservation of both.

Off to the Embassies

A Typical Meeting of One of the Law Clubs
The Class of '35 is now on the Home Stretch! Three quarters of our Law School course is now completed. We gathered together in September of 1931 from the four corners of our country. We had a common purpose to accomplish, and "that sultry night in June" notwithstanding, we are well on our way to its achievement. During these three years acquaintances have ripened into friendships which are now close, and which, we trust, will be long-enduring.

The Class of '35 has been most fortunate in its assignment of members of the faculty. Unfortunately for us, the press of professional duties has forced some of these men to lay aside their professorial robes. Another has been called to his reward by the Almighty. But all of them, those who have gone as well as those who remain, have unselfishly and unstintingly contributed their best to the common end we all desire. During our course we have received advice and examples which we shall carry with us long after we have left the halls of Gortown and have gone far away from our Alma Mater to our respective homes. And may each of us strive faithfully to maintain that professional integrity which is traditional of Georgetown men, and which has become a part of us through the examples and inspiration of our teachers.

Our scholastic leader has been Howard Boyd, son of the late Professor Boyd, whom God saw fit to take from us to his reward. George Lamb, George Stoat, and Phillip Marenberg made up the rest of the "Four Horsemen," and have furnished
keen competition for Boyd. Our "Wit and Humor" department is in the capable hands of "Gentlemanly" O'Neill, whose banterings with Professor Cassidy have enlivened many evenings in the not too lively subject of Corporations. Mr. James Curry Bernhardt handles our "Question and Answer" department, and never has a reported case been found about which he could not ask (and answer!) a question. And famous for his dissenting opinions is Mr. Phillip Marenberg, who can dissent with equal facility no matter which side falls his lot.

The destinies of the Class of '35 were guided in our first year by George Stout, in our second year by George Lamb, and, not to break the reign of Georges, this year we elected George O'Hare. Each of these men has in turn devoted himself with unfailing interest to the welfare of the Class; each has furnished us with a brilliant examplar; each has represented us honorably and judiciously.

May the Class of '35 follow in the footsteps of our illustrious predecessors, carry the renown of Georgetown proudly, and zealously guard against the temptation to assault those principles which have been inculcated in us by both the faculty and our classmates. These prayers being granted, we may be assured of success in our chosen profession, and may ever treasure fond memories of student days at Georgetown.

THIRD YEAR EVENING CLASS
SECOND YEAR MORNING CLASS

When the portals of the legal domain opened to us some two years since, we forsook forever the idle dream of an empty day to face the grim business of tackling reality, the reality of the law court, not of the motion picture theater. The shield of the classroom forestalled its pressure, but the heat of its presence was felt.

Yet, as the body can exist only through the immanent activity of the soul, so reality shall achieve greatness through the sustaining force of an ideal. This class willingly shouldered their ideal, and thus far has quivered not an inch under its lash. The ideal lawyer, held up to us, and infused almost unconsciously into our sluggish blood, by the experience of men well-equipped for their task, is now fixed, imperishable—a goad to achievement. The foibles of the profession have been met with and disposed of as superfluous.

The ideal is unworthy which does not impose hardship and necessitate work. She uses this method to winnow the spirit of whatever is useless. She hammers these blows to shape the legal mind, and rid it of the fleshiness of sloppy thinking. No member of this class has felt the sting of his two years at the study of law without at the same time experiencing the compensating thrill of a forward step towards the ultimate goal. Today at the close of the second lap, each member is summoned to stand trial as to his fitness.

Time, the relentless inquisitor of the unwary, once more pauses to survey and judge. The class of 1935 grimly faces old Rhadamanthus, and renders its accounts:
"Your Honor, we humbly submit that during the years 1933 and 1934, we, who form the coming generation of lawyers, have been most diligent students of the precepts of our profession. With persistent devotion, brooking no sweet thought of yesterday's loves, have we crept, run, leaped, vaulted, flown with ever increasing eagerness to bear the torch of justice in union with our brethren."

"Before passing sentence, your Honor, upon our earliest endeavor, stay—judge us not in the light of our present meagre learning. We have wrestled with the mighty Tort until our very bones ache, we have wormed our way through the thickets of Common Law Pleading, scaled the bluffs of Real Property, and now we fasten our eyes as far as we can see upon the unplowed acres yet to test our strength. Great cause to crave mercy from your hands.

"Yet judge us not as we are today, but as we shall be. Let our history be not of the past, but of the future. Penetrate the veil, at which our hands tug vainly, and repeat to us the syllables of doom or glory, which your eyes discern. How many of us, your Honor, are worthy to plow those unplowed acres? Who is the sluggard? Who is the zealot? With this knowledge before you, live up to the name you bear, and let your judgment be neither generous nor compensating, but swift and sure, stern and wise and just."

SECOND YEAR MORNING CLASS
A fretful first year class vanished last year, only to reappear as a sophisticated group in September. Although in our first year our entrance had been anything but auspicious and exciting, now we met with hearty handshakes and friendly greetings, all eager to resume interrupted friendships, all glad to see each other back. Some of our comrades had for various reasons fallen by the wayside, but the others promptly swung into step with agreeable comradeship and pleasant cheerfulness.

This year the election of class officers was put entirely into our own hands, whereas last season, presided over by the President of the Senior Class, we had elected: Edward R. Talbott, President; Emmet N. Rogers, Vice-President; James G. Mackey, Secretary; Paul F. Schmidt, Treasurer; Gilbert S. Sherman, Historian; and Albert C. Hayden, Sergeant-at-Arms. Our selection and confirmation of these men may have been a bit hesitant, but on the expiration of their terms our praise for their conduct in office was most spontaneous and wholehearted. Our selections, as second year men, were a bit more lively contested, and election night was indeed one of activity. Final tabulations of votes showed Arthur B. Focke, President; Albert C. Hayden, Vice-President; Raphael H. O'Malley, Secretary; William J. Whelan, Treasurer; H. Gabriel Murphy, Historian, and Ralph F. Bacht, Sergeant-at-Arms. With such capable leaders our class was confident of a successful year, and, as the months rolled by, succeeding events more than proved that our confidence had not been misplaced.
Following class elections came the formal opening of the Law School, and an address by Dean George E. Hamilton. At this time the outstanding scholars of the previous year were awarded prizes; among those so honored being C. V. Shannon and R. F. Koebel of our class.

The pre-exam period strengthened our belief in the old maxim, "Law is a demanding mistress." All exams, however, were soon over, and we felt that these midyears had not been as difficult as we had expected them to be. Following the exams came the most important social event of the year, the Law School Ball. Our class seized upon this occasion as a welcomed opportunity to "let off steam." May we have more such Proms!

The next event of note to break in on our reveries was our own evening of celebration, the Class Smoker. The committee, appointed to arrange for this affair, let no detail escape its attention, and that evening will long live in our memories as cementing into closer union the friendships of our Class.

And so time moved on, bringing us once more face to face with our final exams, and stirring up the same fears and fancies, hopes and expectations previously experienced. But all this was forgotten when we signed the dotted line on the last page of the last exam, and realized that another school year had ended. And thus we concluded the half-way mark of our Law School course.

SECOND YEAR EVENING CLASS
FIRST YEAR MORNING CLASS

The history of the class of '36 is brief, but its future is promising. Entering the justly famous School of Law in September, we found ourselves completely enveloped in that mysterious and treacherous fog, the law. Sitting in fear and awe, and hoping never to be called upon to recite, our first few weeks were spent in making dire predictions that our careers at the Law School would be short-lived. The words of wisdom from Mr. Keigwin concerning the forms of actions touched with the subtleties of medieval scholasticism and the adventures of that forever-in-trouble, strange, creature Jernigan, confirmed us in that opinion. Offer, acceptance, consideration, personal property, torts, homicide, arson, made the whole seem completely bewildering. However, under the skillful tutelage of our learned professors, some gleams of light began to break through the fog.

With the Senior President in the chair, our class officers were nominated and elected. To guide us successfully through this, our first year, we elected Dick Douglas, President; Richard Hannon, Vice-President; Joseph Meglen, Secretary, and Bert Ferguson, Treasurer.

Although our knowledge of law is of necessity limited, and the study difficult, yet we should not feel too pessimistic. For during the past year, certain men of our class have appeared whose ability in various activities has been tried and proven. William J. Schall in winning the prize debate gives every promise of becoming one of the great speakers of Georgetown and with Fortunee in second place, we feel
confident that the class will be well represented in the field of oratory. For the members of our class have been active in the law clubs and in all extra-curricular activities, in addition to maintaining a noteworthy scholastic rating. The ensuing years will undoubtedly show a fuller development of all this talent.

In athletics we have fully done our part. On the football squad were Cohen, Downer, Meglen, Parcells and Williamson; Crowley was a regular on the basketball team, while Ferguson was on the tennis squad; Parcells and Downer chose track, and the boxers included Meglen, Cohen and Williamson. Holding an outstanding position among our athletes is Dick Danner, freshman football coach, whose great team lost but one game this past season in a very difficult schedule. To these men, praise is due for the splendid manner in which they have carried on both in class and in athletics.

Closing this brief review, we feel that the year has been a success. While a few have dropped by the wayside, victims of the inexorable master, nevertheless, we feel certain that from our number worthy Georgetown men, capable of carrying on the honorable traditions and high standards of former graduates, will issue forth to continue their work. Time will tell, and now, with a smile and a desire for new conquests, we go on.

FIRST YEAR MORNING CLASS
Slightly bewildered, much impressed, and more than a little confused, the Class of '37 assembled for its first meeting late in September. An interesting study presented itself on that occasion. Eighty young men, from twenty-seven states, the District of Columbia, and Alaska, Hawaii, and Cuba, gathered together but for one goal—the completion of their course in law. On each hopeful countenance was traced lines of ambition, of zeal, of determination, and of ability.

As has been found true, no gathering of men can cling together without organization. Political experiences were remembered, machines attempted, nominations held, and the class elections staged. A son of Ohio, Walter J. O'Donnell, proved the truth of the "United we stand" philosophy by emerging from the election as the President of the Class of '37. Other officers chosen were: William V. O'Connor, of North Dakota, Vice-President; Joseph A. Hoskins, of Missouri, Secretary; Clarence G. Pechacek, of Iowa, Historian; Aaron W. Cohen, of Indiana, Sergeant-at-Arms.

The banquet initiated the social activities of the Class, and it will long be remembered by those who were present. Professor Laskey was one of us that evening, and from his inexhaustible experiences gave us an insight into the future life of the aspiring young attorney. And ever ready with good humor, wit, and a smile, Professor Cassidy contributed his finest and won a permanent place in our hearts.

Life flowed steadily until examination time. Lights were burned late, pages were thumbed, and all too soon the exams were upon us. Contracts started the combat.
and from it all emerged still hopeful. Personal property followed, after which all
relaxed. Feeling fortified by experience, we felt that we had no cause for worry,
and wondered at the fears of upper classmen. Supremely confident of our ability to
expound Criminal Law, we fearlessly began this examination. But our confidence
was short-lived, for three hours later we emerged exhausted, agreeing among ourselves
on but one thing, that Professor Laskey was a past master of the art of giving gruelling
examinations.

The inquisitions being completed, we commenced the second semester. The ear-
nest expressions of that late September day had not faded, and to these were added
determinations to carry on, of unwillingness to stop short of the goal. The seas had
been turbulent, but most of the ships passed the jutting rocks safely. And with ranks
but slightly depleted, we unhesitatingly pushed onward.

What our feelings will be four years hence, when we have successfully completed
our course, we cannot venture to say. It is our earnest and sincere hope, however,
that all will be present to share the joys of that occasion, and that as the hand of
Time checks the success or failure of each, it will write after the records of the Class
of '37 a short eulogy in recognition of their efforts, "Well done."

FIRST YEAR EVENING CLASS
The Pierce Butler Law Club, popularly termed the "Better Law Club," was, at the outset of the academic year, obliged to waive its constitutional restrictions on membership in order to admit an unprecedented number of applicants. The majority of candidates were drawn (some, perhaps, conscripted through the "agency" of the moderator) from the first year class, but there was also a number of applicants from the second and third year classes.

Offsetting the severe handicap occupying the Chancellor's chair, the less volatile members of the executive body started the Club off to its present position of prominence by inaugurating a series of luncheons with such distinguished guest speakers as the Hon. Harlan Fiske Stone, Associate Justice of the United States Supreme Court, and the Hon. Leo A. Rover, former United States Attorney for the District of Columbia.

The Club takes its fair share of credit in the restoration of the morning school to a place in the sun of the annual prize debates. Eclipsed in the past two years by the law clubs of the evening school, the representative of the Butler Club, assisted by his colleague from Edward Douglas White, carried off the decision in the opening debates of the current year. In the first, the White representative was chosen best speaker; in the second, the Butler man secured the honor. This displacement of deadweight in law club work is characteristic of the law school's renewed interest in extra-curricular activities in general.
The Edward Douglass White Law Club, formed in 1926, derives its name from the late Chief Justice of the Supreme Court of the United States, a distinguished American jurist and one of Georgetown's most revered alumni. Since ability in public speaking is of the essence of a successful legal career the purpose of the White Law Club has been to provide for its members opportunities to develop equanimity and skill in forensic address.

Preliminary to each one of the four Law School prize debates, the Club engaged in a debate with the Pierce Butler Law Club to choose the men to represent the two clubs in the final public arguments. These meetings, due to the rivalry which they engendered, were interesting not only to the members of the clubs but also to the rest of the student body.

The White Club had the honor again this year of having as its Faculty Moderator Dr. Charles L. B. Lowndes, to whom the members of the organization wish to express their gratitude for his generous help.

Raymond T. Law was the Chief Justice and to him is due much of the Club's success and progress. Through his efforts a program of addresses by leaders of the nation's thought was inaugurated and a number of prominent men spoke before the body. The other officers of the club were: Associate Justices, Harold M. Platt and Clarence J. Malone; Secretary, Daniel T. Sargeant; Treasurer, William A. Koughan; Historian, Philip T. Sybert; Sergeant-at-Arms, J. Thomas Waldhouser, Jr.
Inspired by that same spark which stimulated our predecessors to win laurels, which wrote the name of John Carroll Law Club in the hearts of those who have passed to the ranks of aspiring alumni of Georgetown, and imbued with that dauntless spirit which has ever permeated Carroll’s debates, a group of thirty embryonic lawyers, representative of the evening school classes, embarked upon a year which promised success.

This was a year of years. As a result of emergency legislation enacted by Congress the nation was slowly emerging from one of the severest economic depressions it had ever experienced. Of the many acts so passed, the outstanding were the National Recovery Act and the Agricultural Adjustment Act. The constitutionality of these acts proved most timely and interesting subjects for debate, and were argued with the boldness and courage of youth, and with a sincerity characteristic of Carroll forensics.

This has been a most successful year for Carroll. Under the guidance of James O’Donnell, Chancellor; and assisted by Edward Gall, Vice-Chancellor; George Lamb, Recorder; and Thomas Barry, Comptroller; the members have striven with unrelenting effort to make Carroll Law Club fulfill the end to which its forum is dedicated—the forensic improvement of its members. And having accomplished this, the Club extends its appreciation to those members of the Senior Class who have so earnestly contributed their best efforts in its behalf, and to them go its sincerest wishes for success in their chosen professions.
The Gould Law Club was organized six years ago for the purpose of stimulating legal debate and to offer an opportunity for law students to practice and improve vocal self-expression. Gould Law Club is the youngest debating club in Georgetown Law School, but for the past four years a member of the club has won the inter-club final prize debate, which is the most coveted honor to be attained at the Law School. The following members of Gould Law Club have won this debating award: Mr. Lawrence Hince, '30, in 1930; Mr. Al Philip Kane, '32, in 1931 and 1932; and Mr. C. Keefe Hurley, '34, in 1933.

The members of the club have enjoyed and participated in some spirited debates at their weekly club meetings, on current subjects and legal questions propounded by Mr. George A. Cassidy, Jr., and argued before worthy “Gould Bench,” presided over by the venerable Chancellor Hurley.

Members of the Gould Law Club have been fortunate in having for their Chancellor, Mr. C. Keefe Hurley, of Massachusetts, who was appointed as Special Assistant to the United States Attorney-General shortly after the opening of school in September. Mr. Hurley also won the inter-club final prize debate in 1933, and was elected as president of the Senior evening class. The other officers of the Club are: Mr. George A. Cassidy, Jr., of Pennsylvania, Vice-Chancellor; Mr. Frank X. Vance, of Texas, Clerk; and Mr. Ralph Batch, of Virginia, Treasurer.

THE LAW PROM

A gay and colorful event was this year's Law School Prom, which was held on February 2 in the main ballroom of the Kennedy-Warren. Traditional of Georgetown are its Law Proms, but the one of this year was outstanding, and will continue to be recalled with pleasure long after memories of others have faded and passed away. Students, alumni, and friends who attended the Ball were lavish in their praise of the Prom Committee, which was headed by George A. Cassidy, Jr., of the Senior Afternoon Class, capably assisted by Charles Hurley, of the Senior Morning Class. Maxim Lowe's Shoreham Orchestra contributed its finest to the evening's festivity, a feature of which was an excellent floor show presented by prominent radio entertainers.

Patrons of the Prom included Senator and Mrs. Joseph C. O'Mahoney, Representative and Mrs. Patrick J. Boland, Justice and Mrs. Daniel W. O'Donoghue, Justice and Mrs. Jesse C. Adkins, Assistant Attorney-General and Mrs. Joseph B. Keenan, Assistant Director of the Bureau of Investigation and Mrs. John S. Hurley, Reverend Father Francis J. Lucey, S.J., Regent of the Law School, Dean and Mrs. George E. Hamilton, Dr. Hugh J. Fegan, Assistant Dean of the Law School, Mr. and Mrs. Leo A. Rover, and Mr. and Mrs. William E. Leahy.

Members of the Executive Committee whose efforts made this year's Prom such a success were Thomas S. Ferguson, Harold W. Sheehan, William F. Connolly, John Waldhauser, Richard S. Havourd, Harry L. Ryan, and Judson W. Bowles.
Dental School

The fine arts of prosthodontia and surgical dentistry and allied endeavors have grown slowly and surely within the last century, and nowhere as splendidly as in the vast land which has developed from the thirteen original colonies. Today "American Dentist" is a passport of excellence throughout the world. Long since divorced from the blacksmith and the barber, the silversmith and the jeweler, Dentistry stands today in the dignified stature of an independent profession.
The fact that the dental school of Georgetown University has emerged from a comparatively obscure place in the horizon of national dentistry to one second to none is due largely to the unceasing efforts of our regent, Father Gipprich, and Dean Cogan. Under their progressive spirit the curriculum was intensified and broadened, and a splendid new school was furnished with the new equipment it deserved. The cumulative effect of the years of hard work last year resulted in the recognition of our school as being of class A. The prestige of the school from which he graduates is not the least of the tangible assets of the professional man.
Graduation always represents a sharp transition, a link that connects our more or less irresponsible student days with a mature future when we become men. As is true whenever anything completely rearranges our lives permanently, we look back sentimentally; and though we glory in our degree, are happy in the pride of our family and friends, and confidently anticipate the future, the tinge of sadness must always color our thoughts as we trace our gradual development through our four years at school.

Our first year found us trudging up the alternately muddy and dusty road to the new school, hardly out of the hands of the bricklayer and plasterer, and before the landscaper had yet arrived. Out of the mass of confusion that we were, enough order was miraculously wrought for us to find that plaster when mixed with water actually and before our very eyes does get hard. We were soon carving blocks of ill-formed plaster into the semblance of teeth, presumably human. We were also persuaded to make a few prosthetic pieces, from which awkward fingers reluctantly fashioned unfortunate heavy misfits predestined to be forever inarticulate.

If we were not so successful as technicians then at least socially we were not failures—no, not in our first year. Many of us found solace in the class dances, and at our own dance, particularly, at the Hay-Adams House we did indeed loosen the bonds of restraint. We will not soon forget it, nor will, we are afraid, the management of the hotel.

Our class was not one to bow meekly before the dignity of the instructors or even of the profession. Even now rumors come echoing to us down from that Freshman year that a certain professor is still looking for the anonymous party that gave him the Brooklyn razzberry. And who was he who hit the instructor when the good doctor walked into the laboratory, and inadvertently into the no-man's-land of a plaster battle?

Somehow we clamored noisily into the sophomore year with only a few casualties due to incompetency, transference to other schools, and financial inability to con-
The riotous tendencies of the class were beginning to be tempered with a little dignity, although it must be admitted it was barely perceptible. We now in bridge work and operative science had our first taste of the precise nature of dentistry—and how the heavens rang with alternate hosannahs or curses as the case may have been!

It was not until the beginning of the Junior year that we began to feel the sobering influence of the profession. As we mastered the basics and came closer to actual dentistry, our adolescent characteristics gradually left us. Getting accustomed to clinic work after laboratory technic was attended with considerable difficulty and discouragement. After one has assumed a back breaking acrobatic position for an hour or so plugging a tooth only to find that it is a mirror that you are so energetically working on, then, indeed, you are a man if you can still smile.

By the time we entered the Senior year, the realization that our profession was to be taken with more than a cursory interest had moulded us into entirely different personalities than had so haphazardly started four years previously. With the greater operating proficiency already attained, we devoted some time to develop an ideal attitude toward the patient. This represented the final step in our attaining a mature professional character.

The extra-curricular activities of our last years limited themselves to class politics, a few dances, and the fraternities. Election of officers was of course attended with the usual over-emphasis. In our Sophomore and Junior years Scavatto was elected president, and the other positions being more or less evenly distributed between the various fraternities, races, and non-conformists.

And so now we find ourselves walking down the now landscaped and paved grounds of the school out into the world. We give our heartfelt thanks to our instructors and professors, and forgive them their annoyingly meticulous exactness which meant so often “do it over.” To those that follow us, we say do not do so well as us but do better, and as for us we shall not forget that we are men of Georgetown.

After two years of hard work sixty-four technicians blossomed out as full-fledged dentists, in appearance at least. It is surprising how with the donning of a white coat our morale rises; and will we ever forget its abrupt fall when we learned how much different clinic work is than laboratory technic work?

Now is the proper time to look into the past, but this is no easy matter. What with eleven subjects and a waiting room full of patients. If it can be accomplished, among other things this is what we could see.

A mass of sixty-odd (to varying degrees) students are densely packed in one corner. There is a stretching of necks, everyone is on his toes, and a deadly silence prevails. In the center sits the victim, his face is pale and he is gasping for air. Nearby water boils, and steam spurts into the faces of the men crowded about, unheeded. Attention is the keynote. There is a hushed cough from the unfortunate, he squirms in the chair. He cannot talk. Out of the silence comes a voice, "Now we keep the impression in the patient's mouth until hard." Like the memory of our first patient, the memory of our first demonstration lingers.

In our first year we did not feel so much the effects of the depression, and as a consequence we manifested an interest in politics and society. Under Jenning's administration, we had a dance accompanied by many a happy daze. Now we are thankful for the occasional amusement offered by our "Big Bundle of Nerves," Carodino, and his "Stimulators."

As a reward for the attaining of our sophomore year we were given the right
to use foot engines. This, some of the more astute observers, have said accounts for
the chronic footitis prevalent among us and of which we get so many complaints
from our dancing partners. We quickly made the most of the basic sciences, with
our eyes ever looking upwards, fascinated by the rows of gleaming chairs on the clinic
floor. This era also records the passing of the gold standard in our technic pieces.
From now on the bridges and inlays took on a more and more suspiciously copperish
tinge or silvery gleam, according to the metallurgic urge of the student.

A few incidents come back to us. Remember the party Gus gave when peace
broke out in Panama, the arrival of Jim O'Reilly from the Flatbush Plains, the
thrill we got when on our return home from vacation the mailman handed us the
blue envelope telling us we were Juniors?

We have now passed uneventfully well into the Junior year under the guidance
of Elwin Saunders. The more optimistic of us have already picked the types of office
equipment to be used in our office, while others have their eyes peeled for a location
for fruit stands or shoe-shining parlors.

The class of '35 has worked hard, and we have few regrets, only one of which
is a major one. We still are deeply grieved at the death of our fellow-student, "Dean"
Flatley.

JUNIOR CLASS
We, the class of '36, are not a remarkable one. Our chief claim to distinction might even be the insignificant fact that we are the last class to enter school under the one-year pre-dental requirement, not that we as a class have taken advantage of that. Most of us have had at least two years of college work and many already have a degree.

Our introduction to dentistry took place with the usual please-sign-here-and-give-us-your-check formality. Afterwards we were dragged off, shoved into the labs, and told to go to work, which we did in the inimitable way of dental students. A couple soon broke a vulcanizer—who would think it was so fragile, when it looked so strong! Then Douglas discovered that Radice had such a lovely head—to throw compound at, and nilly-willy the calm atmosphere became rent with the velocity of plaster bits, old boxes, and Flanagan's notebook. Only the innately peaceful nature of O'Reilly prevailed and order came into its own.

After thus working in the labs, we would go to lecture. There, if the subjects were anatomy or histology, we reduced the body to its component parts; and if it was chemistry which was at hand we learned the composition of those parts.

As president during our first year we had Murphy, whose tactful manners did much to oil away the friction between the Profs and us, friction which would naturally arise when we would accidentally miss classes, or when we, in our freshmen innocence, would not observe the proper decorum.
We were flattered in the second semester by the attention given us by the various fraternities. The S. E. D.'s, Zips, A. O.'s, Psi O's, Phi Alpha's, and the Delts all vied for the best men, and all succeeded, except that many good men were unable to accept pledges for financial and other reasons.

When we arrived at our present status as sophomores, we had achieved a quiet sort of a homogeneity, relatively speaking, and the common bonds of the dental school began to bind us more closely. Thus while we had no social functions to speak of, during our first year, in the first semester of our second year we had two informal parties at the Phi Alpha House.

Out of the confusion of election we found that we had chosen as President, Tomasi; as Vice-President, Aaronson; as Treasurer, Mancarie; and as Historian, Flanagan. They have done much to weld us into a harmonious unit.

And now that we have proceeded far enough to find that the muse of dentistry is not to be courted in a slip-shod way, we are developing at least one characteristic of the ideal dentist—precision. As for the other qualities, well, they too shall come, notwithstanding the cynical, condescending looks of the upper classmen.

The Sophomore class congratulates the outgoing Seniors and wishes them every success.

**SOPHOMORE CLASS**

![Sophomore Class Photo]
The Class of 1937 began its career at Georgetown Dental School quite unheralded and unsung. We were a very small group and are now still smaller, having lost several of our members in the early months of the year. But mark well our words, before we have completed our four years and have earned our D.D.S.'s, we shall have made a lasting impression on the school. As is well known, the raised requirements for admission held the number of candidates down very low, and we, the successful ones, are going to make the most of an unusual opportunity.

Class elections early in the year produced such leaders as Clem O'Toole, President; Bill Alexander, Vice-President; John Macauley, Secretary; Jerome Paterno, Treasurer; and last but not least, Ben Posner, scribe, historian, or what have you. Strenuous efforts were put forth to supply an office for every student in the class, but try as we could, we didn't succeed. We do believe, however, that the men of the class are well satisfied with their officers, and that the officers in turn are proud to represent the body of men that they do. Of course, it has been hinted by men not fortunate enough to be members of this class that the governing body is a sort of Swiss Navy; that is, more admirals than seamen.

Among us are included men from New York, New Jersey, The District, and from as far south as Georgia. We are all here for a common cause, namely, to learn the ethical practice of an honorable profession; and if possible to further the inter-

FRESHMAN CLASS

The Class of 1937 began its career at Georgetown Dental School quite unheralded and unsung. We were a very small group and are now still smaller, having lost several of our members in the early months of the year. But mark well our words, before we have completed our four years and have earned our D.D.S.'s, we shall have made a lasting impression on the school. As is well known, the raised requirements for admission held the number of candidates down very low, and we, the successful ones, are going to make the most of an unusual opportunity.

Class elections early in the year produced such leaders as Clem O'Toole, President; Bill Alexander, Vice-President; John Macauley, Secretary; Jerome Paterno, Treasurer; and last but not least, Ben Posner, scribe, historian, or what have you. Strenuous efforts were put forth to supply an office for every student in the class, but try as we could, we didn't succeed. We do believe, however, that the men of the class are well satisfied with their officers, and that the officers in turn are proud to represent the body of men that they do. Of course, it has been hinted by men not fortunate enough to be members of this class that the governing body is a sort of Swiss Navy; that is, more admirals than seamen.

Among us are included men from New York, New Jersey, The District, and from as far south as Georgia. We are all here for a common cause, namely, to learn the ethical practice of an honorable profession; and if possible to further the inter-
ests of the science. With the faculty and equipment that Georgetown has our ambitions should not be too difficult to attain. We are all putting forth our best efforts to maintain a good scholastic standing, as well as to adhere to the rules and regulations of the college.

The first semester of the year having been successfully negotiated without any unusual incidents, we eagerly awaited the new semester. It was ushered in with an eight-inch snowfall. We hoped that it was a good omen and that all our misfortunes were buried beneath it.

In the second semester we continued our excursions into the mysteries and mechanics of the human body. Having already been given a thorough grounding into the minutiae of it, insofar as structure goes, we were, in addition, shown how the molecules and atoms behaved in order to produce the phenomena known as life. We continued our studies in Dental Materials, learning why and how plaster sets, how hard amalgam is, and how much gold flows under stress. All of this we were taught under the watchful eye of Dr. Goldberg.

But all work and no play makes Johnny Freshman a dull boy; and though we may be fresh it cannot be said that we are also dull. The socially inclined, practically all of us, can be seen almost any Saturday night attending to their attractive social distractions. It was a happy and profitable year withal.
DENTAL HYGIENISTS

The Dental Hygienists, class of nineteen hundred and thirty-four, were no different, we must presume, than those of the preceding years. At least, in our asking where to go and how to get there, we must have been as dazed and blundering as any.

By the end of the first week the common ties of ignorance and confusion had bound us into close acquaintanceship, and we began to see the different individual characteristics. Perhaps the first things noticed were the various accents. By their provincial tongues we knew from where they came, particularly was this true of the southerners and the easterners. Eight states were represented: Ohio, Pennsylvania, Connecticut, Virginia, West Virginia, Maryland, New York, and the District of Columbia.

We gradually discovered the virtuous whims of the individuals themselves. The food consumer of the class, Murphy, gained twenty-five pounds and still was slim. She seemed to be forever eating and forever smiling or giggling. Clore was famous for her “get there” step in walking, yet which seemed somehow to fail her in the morn-

ings. The quiet and thoughtful Keyse and Stelzer were seldom heard from, except on certain occasions when they wanted something such as Keyse’s penchant for “Flit” and Stelzer's for “Sterno Oil.” Cobean, the shy maiden from Virginia, conquered many studies while at Georgetown, but not unfortunately blushing. And then we have the one of many moods—Coira. If ever Coira becomes tired of being a dental hygienist, a corner in the boxing ring will be open to her, but evenings only. Ewing did much burning of midnight oil while doing research work on the “absent brain.” It was rumored that this was being done for a certain young men’s college. The common sense diet introduced at Walter Reed Hospital was it is said, proposed by Helfrich. The details of the harrowing introduction may be obtained from a particular interne (private!) there. The resourceful Schlossberg, being susceptible to respiratory afflictions, invented a draught-proof window, which when pushed open to a certain angle prevents draughts of any kind. Cherundolo, the youngest of the class, was always as fresh (so we were given to understand by a professor) when the day ended as when it started. The football expert and statistician of the class was Welsh, who each morning supplied the class with the latest results and opinions. She was also interested in Newfoundland and we often wondered if she planned to introduce the sport among the Eskimos there. Lossin, the Connecticut Yankee, had a difficult time controlling her eyes and little fingers. And dear old Minerva, the most silent one of the class, would stand in a corner day in and day out exhibiting a complete and perfect set of “false dentures,” as Gert Helfrich would say.

Early in October the first class meeting was held, at which the officers of the Probationers Committee were elected; namely, chairman, Louise Coira, secretary, Catherine Murphy, treasurer, Gertrude Helfrich, reporter, Antonette Cherundolo. These meetings were held every month under these officers until the probationary period was up. Social and business matters were discussed.

The meeting on the first Monday of December brought the girls together for a Christmas party, where gifts more or less suitable to the personality of each were distributed. At this meeting the aims, ambitions, and ideals of the class were crystallized. We also decided on a name for the class. A little later in the month when our probationary period had been served, we elected as officers of our class the following: Louise Coira, president, Leatha Keyse, vice-president, Hattie Cobean, secretary, Gertrude Helfrich, treasurer, and Antonette Cherundolo, reporter. A social committee composed of Edythe Welsh, Mary Clore, Hattie Cobean, and Leatha Keyse, and a Ways and Means committee composed of Dorothy Schlossberg, Catherine Murphy, Irene Lossin, Gladys Ewing, and Loretta Stelzer were also appointed.

In January the class was invited to a dinner given by the District of Columbia Dental Hygienists’ Association, where we met many charming girls. Doctor McGeehee was the chief speaker of the evening, and a more distinguished one could hardly have been obtained. He later entertained us at a musicale, which was probably the most appreciated social function of the whole year.

And so the months tumbled by until June arrived, and the annual tea in our honor, and at last, graduation. Now we are Dental Hygienists, for which accomplishment we must always be grateful to Miss Cain, whose untiring and efficient help was indispensable. The attainment of the degree is a source of great happiness, but it is also a source of sadness as we say goodbye to each other and to Georgetown.
The work of Father John Carroll, the founder of Georgetown College, is the embodiment of all that the Foreign Service profession represents. This distinguished priest and patriot enjoyed the distinction of being selected by the Continental Congress as a member of the first diplomatic mission of the Colonies. For this delicate piece of diplomacy, Congress chose John Carroll to accompany Benjamin Franklin, Charles Carroll, and Samuel Chase, to seek the aid of Canada in the struggle against England. Father Carroll will forever remain the guiding spirit of the Foreign Service School.
ings. The quiet and thoughtful events made for certain occasions when the students divided into groups for 'Sterno Oil' suppers, and continued their studies while at Georgetown. One of many moods—'corner in the boxing ring' was the name given when the burning of midnight oil in the dormitories suggested that this was how the incoming class maintained their sense diet introduced at the beginning of the course.

The details of the harrowing hours (private) were not divulged. The recommendations, invented a draught of any and every medicine, was given as fresh (so we were given to understand) when it started. The football and basketball games, the dances, and the Baxter meeting on the football field supplied the class with the sport among the Eskimos. Students were asked to control their eyes and to control their class, would stand in a set of "false dentures," as the students called them.

Early in October the Dental Hygienists Committee were elected. Murphy, treasurer, Gertrude Helfrich, president, Louise Coira, president-elect, and Alice Murphy, treasurer, composed of Edythe Wells, Mary Ewing, Gladys Evans, and Irene Lossin, Gladys Ewing, and Alice Murphy, respectively.

In January the class was summoned to the Dental Hygienist's Association meeting. Louise Coira, president, Irene Lossin, Gladys Ewing, and Alice Murphy, respectively.

And so the months turned by, and at last, graduation. Not always be grateful for the attainments, we must always be grateful for the attainments. The attainments were a source of sadness as well as joy.

The world could probably do without the history of our Class of 1934, or any other class. Its failure to be written would not handicap generations to come. Its absence would not create a large gap for researchers in future ages. However, it might be of interest to those few connected with it.

The first thing unusual about this class was the distinction, unenvied by many, of being the first for which five years were necessary towards graduation. But this extra year was not begrudged much, since none of us could get a job anyway. Thus we were enabled to stall off the grim spectre of the workaday world one year more. Besides, for those who asked embarrassing questions about why we were not working, we had the alibi: “But I must finish my education.”

However, in the middle of its last year the class was caught between two shells. Then was introduced the honor-point system under which students with sufficiently high grades could be graduated in four years instead of five. Under this arrangement its members were vitally affected. Some discovered that they could have received their degree the previous June; others that they could graduate in February; while still others learned that instead of graduating with a B.S., they could finish with a M.S. in the same length of time. This was a favorable commentary upon the scholarship of the class. Many felt that had they known of the plan earlier they would have improved their marks.

The change from the gloomy quarters in the down-town section of the city, to the expansive and beautiful location on Hilltop gratified all. A new spirit of unity grew up in the new surroundings. And while the accommodations were rather crowded the first year, the authorities provided many conveniences the term following. This made us feel that they were taking a real interest in us.

Most class histories contain an elaborate account of elections, parties, proms, etc. Since
every class has more or less the same routine along this line there is little need of mentioning them except to state the active part taken by all in the matter of elections. The elections always reminded one of Tammany Hall. They were intensely interesting, and in the last three years reflected the keen interest of the country at large in elections and politics, caused by the depression and universal unrest. More log-rolling than in Congress. Blocs of votes traded, groups voting solidly, deserters from said groups frowned upon, campaigning and lobbying galore. And the election itself! Rivalries and personalities. But when it was all over—forgotten. Its importance dwindled. Then in the clear light of day 'twas evident how little it mattered after all; how maybe the world would not crash even if our man was not elected.

While most proms are just "proms" ours of the last two years stand out; not for the orchestra alone, not for the elaborate decorations, not for the sumptuous locale; but for the spirit that pervaded the affair. Here, if ever, was evident a feeling of comaraderie among Foreign Service students. A real Foreign Service Spirit. It was a feeling of warmth, of gayety. Two splendid evenings.

The class was distinctive—one that the world should be glad to receive, but one that will not expect too much from the world. We have passed through a period too troublous for that illusion. Ours is not the typical "Rah Rah" stereotyped "Collegiate" group, not a clannish group, not a very expressly emotional group. It has been individual. It never was class conscious. Each member went his way, friendly to his fellow classmates but in no way making a fetish of "his class." But under this veneer of indifference was the sturdy oak of pride in his class and a silent admiration and deep affection for its members.

The class of 1934 was a likable, sane, independent, intelligent class whose members did not take themselves too seriously. From such a group are bound to spring men of distinction. Such a class is a helpful contribution to the world today.
The year 1934 signalizes an important milestone in the affairs of the world, just as it is one of the utmost significance in the lives of the Seniors of the Foreign Service Evening School. With it an outstanding epoch in our personal history comes to a conclusion. To some of us it writes a finis to our college careers, to some of us it spells the end of long hours and never-ending years. To all of us it means that we are prepared to face the world with a confidence inspired by a liberal education.

It would require a volume to trace in detail the lessons we have learned, the friendships we have formed, and the interest that has been engendered in world affairs through our contacts at Georgetown in our undergraduate days. Reminiscences constitute a source of the greatest pleasure to human beings. Joys and Happiness are enhanced by the perspective of time; the keen edge of sorrow and toil is dulled; neither can be forgotten. To us who entered school in the halcyon days of 1928 has come an abundance of both. We have seen history in the making, we have lived on the very threshold of innovations in life and government. The pendulum of prosperity had reached its zenith when we enrolled at Georgetown. We viewed the troublesome times that followed with the view of overconfident youth, partly modified by the intelligent insight and experience conveyed by our teachers. Our scholastic pursuits have rendered many of the once esoteric doctrines of life understandable to us.

The fall of the year 1928, one hundred and fifty freshmen enrolled in our class. That number has dwindled to the handful which has survived the gruelling race. To many of us our new life was something of an experiment. We struggled and strived to correct the multiple problems which beset those who are working and...
educating themselves simultaneously. Like swimmers in a raging torrent we fought against the flood and, when we became acclimatized to our surroundings, the waters subsided and we swam more easily.

Upon our entrance into Georgetown our class differed in no great respect from preceding classes of freshmen. Ambitious, some of us a bit awe-stricken by the thrill of becoming college men, we entered optimistically upon the task we can now look back on as being successfully completed. We transferred the scene of our endeavors to the Healy Building in our third year of college, from the business-like atmosphere of the downtown school to the hallowed precincts of our present quarters. While, in common with other evening classes, we lacked many of the social contacts that are generally considered a part of college life, the adversities that we all bore as part of the game have fostered a camaraderie which could have been gained in no other way. To those of us who have persevered in the determination to attain our college degrees, each succeeding year molded the bonds of companionship into a compact, sturdy understanding of the truer meaning of the word friend.

So it is with mingled sentiments of happiness and regret that we bid a fond farewell to Georgetown: happiness because we have successfully conquered life's first major obstacle; regret that we are leaving the presence of those who have guided and helped us on our way, and the college that has become familiar as home to us. We will never forget the wholehearted cooperation of our teachers who were always ready to step down to our level and became one of us, to encourage and direct our endeavors. To Georgetown, to our parents, and to those who have helped to make our college education possible, we express our most sincere gratitude. And to the associates and the associations of our college days we bid a fond au revoir.

"I Love Louisa, Louisa Loves Me"
The Student Council of the Foreign Service School is a representative body organized for the purpose of promoting a closer affiliation between the students and the faculty of the school by meeting and ironing out the problems which daily confront the student in his activities at the school. These problems are discussed individually or collectively as the case may merit. Conferences are held at regular intervals throughout the school year with members of the faculty in attendance. Any student who so desires and who has a legitimate problem to place before the Council is cordially invited to attend any meeting. All matters are discussed with unbiased opinion; the sole objective being to promote equality and satisfaction among all concerned and a solution beneficial for the school as a whole.

The Council takes this opportunity to thank the students and the faculty of the Foreign Service School for their cooperation in its maintenance as an active student organization. Many differences have been brought to the fore that would have otherwise gone unnoticed, each one being discussed thoroughly and solved with mutual satisfaction.

This body is composed of each of the presidents of the classes functioning in accordance with a Constitution and approved By-Laws, thus providing equality among all the classes of the school. Members composing the Council for the year 1933-34 are as follows: Walter Donnelly, President; Stephen Trodden, Vice-President; Thomas Nolan, Secretary-Treasurer; Andre Gerard, Walter McCaddon, William O'Brien, William Grau III, Gregory Aires, Donald Mitchell.
A year has passed since we left our traditional downtown headquarters and began to accustom ourselves to the cloistered corridors of the Healy Building. For many of us it was difficult to part from the setting which had held our affections and friendships for the previous two years. And yet, there are compensations—we have been received on the campus as brothers-in-arms, and have blended, without losing ourselves, into the hallowed spirit of Georgetown University as a whole.

This year, in spite of adversities and economic readjustments, the class of '35 stands united, eager to face whatever the future holds in store, and cheerfully takes up their share of scholastic, social and athletic activities from where we left them last year.

At the present we are witnessing a change in the administration of both our domestic and foreign policy. Many of us are eagerly watching and studying these new plans, so that we may be ready to step in and carry on in the near future.

Our big year is on; our last year of training, grinding and plugging to prepare ourselves for the coming term when we shall take over the reins of the affairs of the School of Foreign Service. There is only one way that it can be done, and that is through the same concentrated cooperation of every member of the Class of '35 which has been so evident in our past three years.

**FOURTH YEAR MORNING CLASS**
THIRD YEAR MORNING CLASS

As we assembled for our third year in quest of knowledge at the Foreign Service School, we found our group sorrowfully depleted by that bugbear, the depression. Many familiar faces were absent and in their places were men who were new to us, but who were soon to fit into our class affairs, and men who soon proved themselves to be "regular."

We found in our professors a hearty welcome back, and resolved that we would justify their hearty handshakes, and encouraging words. Our class members soon blossomed forth in R. O. T. C. uniforms, in band regalia, and in the eminent role of debaters.

We again selected Andre Gerard as our class president and an able group of men to assist him. Fresh in our minds was the memory of his efficient and able work of the previous year, also well will we remember this same popular Mr. Gerard picking from the folders several pretty Valentines bearing his name.

Which one of us will not recall that memorable day in May when Sanzero came to bat in the ninth inning against Temple with two on and two out, and the score tied. How Temple changed pitchers for him but to no avail. That resounding smack—a triple never to be forgotten. Even Clate breaking down and drawling, "Nice hit, kid!" The nickname of Elmer never to be lived down.

As the year draws to a close much late oil will be burned in an effort to take advantage of the Honor Point System—shall we make it? Next year will tell and until then, Adieu.
To all students, graduation is a coveted achievement. This class has the unique honor of bearing a dual personality. We are composed of two distinct groups. The first, which is looking eagerly forward to obtaining degrees in Foreign Service and the second, which has the privilege and pleasure of being graduated this year under the role of Diploma-Certificate recipients.

As a result of the spirit of progressiveness which permeates the School of Foreign Service and its personnel, we are the first to benefit by a policy, inaugurated three years ago, which has filled a long-needed want in modern education. This was mainly the creation of a condensed system of training for men, who have but limited time to devote to such purposes, and yet who desire to take an active part in Foreign Commerce.

As we leave our friends and classmates, a feeling of regret mingles with our happiness. For we leave behind us the traditions engendered by generations of men who have devoted their lives, energies, and fortunes to the enlightenment of mankind. We feel this, particularly, since, due to the transfer of our school quarters from their downtown location to the august halls of Georgetown proper, we have had refreshing comradeship; and co-operation has been met more than halfway by this class under the able leadership of our officers.

THIRD YEAR EVENING CLASS
The second year morning class began its career rather inauspiciously. Since then, however, we have acquired a leading place in the activities of the Foreign Service School. We attained a fitting place for this class only after a slow start that is characteristic of all first year classes. As the first Foreign Service Freshman group to enter the Healy Building, we were able to avail ourselves of all glories and traditions which are characteristic of the “Hilltop.”

The first year elections were hotly contested, but the class showed its capabilities by selecting Bill O’Brien as its leader. Under his careful and painstaking guidance we were to assume a respected position in all school functions.

The members of the class were quick to grasp their opportunities, and members were prominent in R. O. T. C., the Band, and on the freshman basketball team. Pat Rinaldi and “Sis” Essenstad were especially prominent in basketball, being mainstays of an unusually successful team.

In September we returned to our beloved stamping grounds for our second school year. We were confident and ambitious, but the importance of Sophomores weighed heavily upon our shoulders. Class elections saw Bill O’Brien again elected President but only after a heated session. “Sis” Essenstad again upheld the class by breaking into the coveted circle of varsity basketball regulars and won the admiration of all his fellows. Looking back upon our first two years we hazard the prophecy that our class will take its place with those groups which have made the Foreign Service School famous.
Our Class entered the Foreign Service School two years ago, and has since attained a prominent place in the various functions of the School. Our first year was one of trials and tribulations mixed with many pleasant hours of study and diversion.

We entered these halls as a group of rather bewildered young men, but soon we were to become acclimated and accustomed to the surroundings. The year passed speedily and we returned to find that many of our members had felt the reaper of "old man depression."

The first business before us was the election of Class officers, and in our choice of these men we take justifiable pride. These fellows have distinguished themselves in conducting our Class affairs, and we take this opportunity to thank them for their efforts.

Mid-term came and with it the dreaded examinations, which somehow were weathered. It was at this time that we learned that with much study on our part, we would be able to graduate in five years under the "Honor System." This was good news to our group, as most of us had not contemplated a degree but rather a diploma-certificate.

How the boys began to burn the midnight oil! One would think that the class was composed totally of "grinds." Let us hope that the marks in June will show the results of the diligent study, and that with a feeling of something well done, we may return to our homes for the summer.

SECOND YEAR EVENING CLASS
Last September young men from all of our states and from many foreign countries, assembled at the School of Foreign Service. We felt very inexperienced, and our professors were to impress us profoundly. We were to come into contact with men who are outstanding in the Diplomatic field, leading Economists, and eminent Historians.

We were young and ambitious and soon set about to make our year a profitable one; one which would be a shining example to those who would follow us. The upper classmen welcomed us to our new surroundings and gave us every aid in our work. They greeted us as fellow sons of Georgetown, and this spirit of comradeship will always be remembered in our fond memories.

Came mid-year exams with their usual toll of casualties, and perhaps an undue amount of worrying. With this struggle over we prepared to attend the Senior Prom. This brilliant function far surpassed our fondest hopes and we look forward to the not so distant time when we shall conduct even more impressive Foreign Service social functions.

Our thoughts were now turned to Spring, and what a wonder-experience is Spring in Washington. The memory of the beautiful Potomac from our classroom windows, while listening to the means and ways of increasing our foreign trade, is one which will never be erased. As the curtain begins to fall let us hope that we shall return again in the fall, that our group of "regular fellows" will remain intact, and that we may take up an enviable position where we left off in June.
Our class entered the halls of the Foreign Service School in a very inauspicious manner. We were a group of young men who had gathered, some to take special studies, and others to work for a degree. We were a carefree group in quest of particular knowledge that was to prepare us for our chosen profession.

Our surroundings were new, our professors enlightening, and our new studies interesting. At first we were a bit bewildered but that quickly wore off, as we were welcomed by older members of a student body that has no equal for fellowship and good sportsmanship.

Our first class meeting was conducted by a Senior who started us on what we hold is a successful road to self-government. The men elected to the various offices have proven our trust and faith in them, and we take this opportunity to thank them for their unceasing efforts in our behalf. Their work was closely followed, in the Student Council, in the various clubs, and on social committees—they have acquitted themselves well.

The mid-year exams came and went with no fatalities, so we were able to look towards a less serious affair, the Senior Prom. Here the class was well represented, and a good time was had by all. Spring came and with it the inevitable spring fever. Glorious days are these at Georgetown; days that we would like to live over; days that we hope will be renewed next year.

FIRST YEAR EVENING CLASS

![First Year Evening Class](image-url)
FOREIGN SERVICE PROM

Under the able chairmanship of Mr. John J. McDonald the Foreign Service Prom Committee gave this year what has been widely acclaimed as a successful and enjoyable social event. Requests for another dance to be given later in the Spring have been received and it is expected that the Committee will, if possible, arrange another dance for the Foreign Service School, thereby inaugurating a new custom to be handed down to future classes of the school.

The Prom was held on Friday evening, February the second, at the Shoreham Hotel and, coming as it did immediately following upon the mid-year examinations, it had the air of a triumphal celebration for the student body. The flags of the twenty-one countries comprising the Pan-American Union together with the banners of the Foreign Service School added greatly to the festive air of the ballroom. The music, furnished by Al Katz, was all that could be desired for a Formal Prom. The Committee itself designed the souvenir programs which were given out, and which received loud praises from everyone.

Among those present were members of the Diplomatic Corps, members of the Faculty of the School and of the University, and a number of distinguished personages who were attracted by the formal and distinguished atmosphere which always surrounds those events which are sponsored by the School of Foreign Service.

The Committee arranging the dance consisted of: Mr. John J. McDonald, Chairman; Mr. Joseph E. Cooney, Mr. W. Gordon Donnelly, Mr. Edward Meyers, Mr. John O'Connell, Mr. Stephen A. Trodden.
The Walsh Debating Society is the organization under which debating is conducted in the Foreign Service School. The society was founded in 1931 in honor of Father Edmund A. Walsh, S.J., the Regent of the School, and the inspiration of all those who aspire to eloquence and persuasive speech.

In its third year its activities were greatly hampered by a reallocation of the school from downtown to the Hill. This year under the capable direction of Mr. Berman the society has been completely reorganized. The most fundamental change was the adoption of the North Carolina plan of debating. Under this system there is only one speaker on each side, and each debater speaks for fifteen minutes. An open forum is held after each debate which is conducted by all the members.

Refusing to rest upon their former laurels, the members of Walsh this year again invaded the field of inter-collegiate debating. Great enthusiasm from within the ranks of the society, and excellent cooperation on the part of the members helped to make this year the most successful since the inauguration of the society. Because of the many excellent debaters developed, elaborate plans are being made to widen the scope of the society and to engage in larger and better inter-collegiate debates next year.

The officers of the society this year are: Leonard G. Berman, President; Lewis Becker, Vice-President; Lloyd D. Dangerfield, Treasurer; and Raymond E. Mahoney, Secretary.

WALSH DEBATING SOCIETY

[Image of the officers of the Walsh Debating Society]
La Societe Jean Labat, named after its founder, is the French Club of the Foreign Service School. The founder realized the importance of the French language to students studying foreign affairs, and organized the Club to further the French learned in the classroom.

Carrying on its well established traditions, the Society meets bi-monthly to discuss informally various problems of the day. These discussions are led by the President, and are entered into by all the members present. From time to time special speakers are invited to address the Society. During the past year especially these soirees have been well attended, for which much credit must be given to M. Dostert, the Club's Moderator, and to John Bolin, the President of the Societe. The other officers are: John J. McDonald, Vice-President; William Sweeney, Treasurer, and Aaron Goldman, Secretary.

The aim of the Societe is to stimulate an interest in conversational French. It is especially helpful to those students who take oral examinations in French—a requirement for graduation. It enables them to get up on their feet and speak French without nervousness or hesitation. The membership of the Societe is open to all the students of the Foreign Service School possessing sufficient knowledge of French to participate in the discussions.
The present organization of the Spanish Club, established four years ago under the guidance of Señor Manuel Martínez, Professor of Spanish in the School of Foreign Service, has developed into one of the outstanding language societies in the University.

El Club Español has availed itself of the numerous opportunities placed at its disposal here in Washington. It has been most fortunate in having received invitations from the different diplomatic envoys, representing most of the Spanish speaking countries, and has reciprocated by inviting them to deliver addresses in which vivid pictures and practical information was given about their countries and compatriots. El Club Español has continued in the footsteps of International friendship, which is the result of mutual intellectual understanding. Not only do its members avail themselves of information about Latin American nations, written in English, but, in addition, they prefer to use the Spanish method of reading and conversation, thus conclusively refuting the argument that students of the United States Universities seek the easiest path to gaining knowledge. On the contrary, the Spanish Club has been represented at the numerous diplomatic fiestas in the past by students who were proud and willing to express themselves in the language of Cervantes.

During the past year Professor Manuel Martínez has continued as the Moderator. He has been assisted by the following officers: Michael Calandra, President; Morris Zipperstein, Vice-President; and Joseph Buckovics, Secretary.

EL CLUB ESPANOL
The ancient game of La Crosse, first played by the Indians of Canada, is probably the most American of all games. Originally played with a thin stake as a goal, over a course of more than a mile long, and with a birdskin stuffed with feathers as a ball, it was highly popular with the various tribes. When Maryland was founded, the settlers enthusiastically adopted the pastime, and this interest was sustained, until today Maryland is one of the leading centers of the game.
ATHLETICS
To Father John J. Kehoe, Director of Athletics, and to Head Football Coach Jack Hagerty, Georgetown's slow but steady rise once more to the heights in the world of sport, which she formerly held, is mainly due. Both of these men, working hand in hand for Georgetown, have succeeded in overcoming the greatest obstacles in their effort to give her success in this as well as other lines of endeavor. Starting from almost nothing in the way of material, a promising group of candidates for the various sports has been gathered together, most of this material the product of highly concentrated effort in intramural sports. During the past year, the football team was characterized by a spirit that is hard to beat, the quintet and the nine also being dominated by it. The cohorts of the Blue and Gray met by far their greatest success in the intramural field, however, and emerged successfully in boxing, swimming, football, and basketball. The minor sport teams such as tennis and golf seem headed for the most successful season in years. However, 1933-34 is but a stepping stone in the right direction, and it seems certain that nothing else than success will ultimately crown the efforts of these two who are working so hard for the attainment of a definite goal.
First Row: Downer, Reon, Mrlnarsi, Stanley, Williamson, Becker, Chappa, Cohen, Kennedy, Bradley, R. Sullivan
Second Row: Carpenter, Murphy, Callahan, Parcells, Corliss, O'Connor, Maglin, Katalinas, O'Rourke
Third Row: D. Moore, Hart, Hickey

"G" MEN
CHEER LEADERS

Hockey, J. S. Kirby, Harrold, DiSarn, Hall, Connolly
The position of Manager at Georgetown is one that is attainable only after four years of hard work as an apprentice. Consequently it brings much distinction to the holders of the various positions. Howard Gunchlocke, as Manager of Basketball, piloted the team through a very difficult schedule most successfully. Frank Gerli, Track, brought success to a Georgetown track team for the first time in two years. George Crowley, Intramurals, had perhaps the hardest task of all, that of arranging complicated schedules and seeing to it that the events went off as called for. Tom Stapleton, Baseball, has successfully worked for his position and should carry through its demands with ease. Pete Sullivan, Football, had the difficult job of keeping track of various equipment that clutter the gridiron. Walter Briggs, Minor Sports, has the job of arranging tennis and golf schedules. Judging from the results achieved thus far, he has done remarkably well.
FOOTBALL
MT. ST. MARY'S

A team that distinguished itself by its vicious charging; a team that was outstanding because of its superb defense; a team that showed itself to be well coached and thoroughly drilled in the fine points of football; one that knew how to fight and fight well—that is what the 1933 edition of the Georgetown football team appeared to be on a sunny Saturday in October when it took the field against Georgetown's traditional rivals, Mt. Saint Mary's.

Contrary to expectations, the game was no set-up. The Mounts presented a veteran line-up with husky, powerful new talent as well. Skepticism was in the air. The coaches had their fingers crossed. A snappily clad eleven came out on the field and then it happened—the team came through! For three quarters they threatened their opponents' goal, in the fourth they crushed the enemy, crossing and recrossing the marker that counts.

It was "Little Thunder" Kennedy who finally asserted himself. Grabbing a St. Mary's punt out of the air, he sped down the side line for a full 40 yards, never veering from his course and carefully planted the apple on the right side of the goal line. The rest was easy. Chubby Parcells, displaying his old flashy form, tooted it over, after Dick Bradley had placed it in scoring position. For the third and final touchdown, Joe Saverine threw Parcells a 25-yard pass.

CANISIUS

A quagmire for a playing field, a Canisius team ready and primed for a sudden onslaught, a surprise attack, consisting of a 35-yard run, a final plunge, and the game was over. That is as far as the scoring went. A tough break for Jack Hagerty and his fighting team.

The Hoyas had new plays, deceptive for-
WiLMER J. BRADLEY  
Fullback

"Brad" has been the team's mainstay for his entire career. Tireless and energetic, he has done more than any one man in Georgetown's history.

MACK STANLEY  
Halfback

Repeatedly injured, Mack always came back in time to provide sensational punting to aid his team out of tough spots.

JOSEPH SAVERINE  
Halfback

Joe, captain-elect for the coming season, was the Hoya scoring threat during the past two seasons. A great ball player.

JOE MEGLIN  
Halfback

Joe, a newcomer this year, was one of the best of the plungers. His inexhaustible supply of grit stood the team in good stead.

mations which were originally intended to baffle the opposition. They would have succeeded, too—but fast, deceptive football was never meant to be played in a swamp. Canisius made seven first downs to Georgetown's six, and after that first offensive, neither team was able to do anything worthwhile. Al Cohen, Mack Stanley, and Captain Fred Callahan distinguished themselves by their sterling work in this game.
MANHATTAN

The highlight of the season, this battle after sixty minutes of fiery fighting, ended in a 20-20 deadlock. Never was a football game more packed with thrills. Never was an audience left as breathless as they were after this battle of giants. There was a ponderous silence when the two teams walked off Ebbett’s field at the half time. The score? Manhattan 13, Georgetown 0. The situation seemed hopeless. Why go on? The second half began—and then it happened. Like a meteor from the blue, the Hoyas landed with a bang against their enemies. Sparkling, scintillating Joe Saverine was over for a touchdown. All-American Dick Bradley was off on a 73-yard run from scrimmage. Saverine scored again. G. U. 14, Manhattan 13! Then the boys in green scored.

Bradley, undaunted, bucked his way through until he was in a position for Wally Heron to take it over. 20-20. The Hoyas started on another desperate drive—they were ready to score—the gun barked, and the ball game was ended. The sons of the Blue and Gray walked off in glory on that day.

WESTERN MARYLAND

The following Saturday, the Hoyas had a natural let down from their labors of the previous week and bowed in rather shameful manner to the Green Terrors of Western Maryland. The score was 20-0. The game was featured by the great running of the Terrors’ versatile back, Bill Shepperd. He scored all of the touchdowns for the home team, and was the main fly in the Blue and Gray ointment. Georgetown’s only outstanding feat of the afternoon was a heroic goal.
line stand which took place late in the third quarter. The kicking of Nick Viskovitch, and the alertness of George Becker and Bill Carpenter featured the Hoya's play.
WILLIAM AND MARY

Resuming the form of the Manhattan game, our hardy gridders met William and Mary and proceeded to lose no time in putting over a touchdown, the result of a pass, Hilary Costello to Chuck Parcells. George-town had the edge throughout the play, and was constantly running the ball deep into enemy territory. Dick Bradley and Joe Saverine were the main ball carriers. W. and M. scored near the close of the first half to tie the score, and thus the count remained until the middle of the last quarter. George-town marched from their own twenty-yard line to the W. and M. five. With two downs to go, Costello threw a lateral pass, which Smith intercepted and romped the length of the field to put the game on ice. Undaunted by this disheartening break, the Hoyas began another march, but it was too late, and the game ended with the ball in our possession on the W. and M. five-yard line.

BOSTON COLLEGE

A new low was reached for the season when the Hilltoppers travelled to Boston to play B. C.'s Flying Eagles. Up against a far superior team and playing listlessly themselves, the Georgetown gridders were hopelessly snowed under to the tune of 39 to 0. The Eagles' passes, their running attack, and their vicious defense were just too much for the Blue and Gray. Joe Saverine and Wil-mer Bradley seemed to be the only fellows in the fight.
Bill Carpenter
Halfback
Bill, a versatile chap if there ever was one, alternated between center and the backfield. He's equally capable at both positions.

Bill Downer
Tackle
Bill has been a substitute tackle for two years and is rushed in when the line needs a good bit of bolstering. He does this job to perfection.

Walter Wallacavage
Guard
For three years "Wally" has been a regular and has fought hard for every minute of all the games he played. A stone wall on the defense.

Jack O'Rourke
End
Jack is a fast flying end who knows how to get down under punts. This is his second season as a regular.

G. U.'s one big effort came at the start of the game. They marched from deep in their own territory to the B. C. 38-yard marker, but from then on it was all Boston.

Parcells receiving a long pass from Costello to score against William and Mary
CARNegie tech

After a full two weeks' rest, the Hoyas met the big red team from Carnegie Tech, conquerors of Notre Dame among others. Vowing to avenge the defeat of last year, the Hilltoppers, lighter and smaller than their opponents, put up a battle, the like of which has never before been seen on a gridiron. The line took the honors of the day. Fred Williamson, Walter Wallacavage, Alan Cohen, Joe Katalinas, and George Becker played the best game of their careers. The Techmen made eight first downs to the Hilltop's five. Their ground attack was thrust back at every turn, and in desperation they took to the air, the trick that won the ball game for them. When the tussle was over, Carnegie was the victor by a score of 19-0, but the players knew they had been through a battle. Vicious bucking, lunging tackles, and a defense comparable even to Verdun was that which marked the Hoya play that afternoon. If there is such a thing as a moral victory, this Georgetown team certainly achieved one on that day.

west virginia

In a game characterized by the hard luck that was theirs all season, Georgetown's 1933 season was brought to a close with a defeat at the hands of West Virginia, 14-12. Leading 12-0 with but five minutes to play in the last quarter, the Hilltoppers allowed the Mountaineers to put over two touchdowns and convert in rapid succession. Joe Saverine and Wilmer Bradley again dominated the play, Saverine scoring both touchdowns for G. U. on brilliant runs, one on an intercepted enemy pass. The game was a most disheart-
JOE KATALINAS
Tackle
Regular lineman for three years, Joe has been one of the most effective men on the club when it comes to stopping fast runners.

PAUL KENNEDY
Quarterback
"Little Thunder" has been a quick thinking field general for three years. He acquitted himself nobly in this his last year with his handling of difficult situations.

EARL TRUMP
Fullback
Earl is a hard plunging, fast flying fullback. He's been a valuable man on the squad for three years.

JACK CONNOLLY
End
"Jack," though small, made up for his lack of weight by his aggressiveness. He saw considerable action at the end of the season.

Ending climax to a season that was featured with nothing but an extremely courageous team fighting against odds that were too great even for their stout hearts.
The Coaching Staff

George Murtaugh, '26, End Coach; Dick Danner, '33, Freshman Coach; Jack Haugerty, '26, Head Coach; "Musi" Dubovsky, '32, Line Coach

Fred Callahan

Captain

As the driving power of the line's offense, and the bulwark of the defense, Fred richly deserved the honor which his teammates bestowed upon him.
In direct contrast to the lack of success of the varsity eleven, the Freshman team under the tutelage of Dick Danner turned in such a string of victories, and with such an indomitable spirit, that it would be impossible to deny them the recognition they justly deserve. The men that composed the team were of not such individual stellar character, but they were well organized, and their teamwork was of a highly superior brand.

This combination of expert tutelage and hearty cooperation on the part of the players, produced excellent results, the club winning all four of its scheduled games. Opening their season with a worthy opponent in the form of St. Francis Xavier High of New York, the as yet untried Frosh plowed through to a 37-0 victory with Ferrara and Gibeau starring for the yearlings. They uncorked a passing attack that was truly something to see.

Next they faced the strong Upper Darby aggregation from Philadelphia. The Frosh "zipped" from the opening play, when Ferrara ran the length of the field for the first score. The final outcome was 25-7 for the Frosh. They were helped greatly by Beaudine in his role of blocking back.

In their last regular game of the season, the terrible yearlings journeyed to College Park and proceeded to run roughshod over the University of Maryland Plebes. The score was 27-13, with Gibeau scoring two touchdowns, Williams and Merkle counting for the others. They were greatly pleased with the team's fine showing and looks forward with delight to next year, when they will romp the grid for the varsity. In a splendid token of admiration and affection for their coach, Dick Danner, the team presented him with a beautifully inscribed plaque of finest bronze.
Second Row: Williams, Maley, Trask, Sculforchio, Merkle, Schroeder
Third Row: Sinnott, Burke, Friday, Paden, Roberts, Vaccaro, Haney, Morris, Ryan, Cummings, King
Featured by the scintillating floor work of Eddie Hargaden, whose remarkable eye was largely responsible for the success of the team, and under the skilled tutelage of Freddie Mesmer, the Georgetown quintet closed the first successful season in five years when it downed a fighting Carnegie Tech team to the tune of 32 to 28. Coming from behind with less than three minutes to go, the game was typical of the type of play displayed by the Mesmermen throughout the entire season. A fighting spirit, expert basket shooting and good coaching all did their individual bit in putting the Hoyas on the right side of one of the most difficult schedules ever undertaken by a Georgetown basketball team.

The Hilltoppers clashed with practically every important team in the East and were successful in defeating a majority of them. Such teams as Army, Canisius, Temple, William and Mary and Carnegie among others were defeated, while opponents of the calibre of Yale, Princeton, Navy and Pittsburgh succeeded in taking the decision from the lads.

Jerry O'Connor, who was one of the highest scorers in the Eastern Intercollegiate League, was one of the dead shots who was responsible for Georgetown's holding down third place in that body. Jerry was poison under the basket and as a forward proved highly effective.

Jerry was ably assisted at the other forward berth by Joey Corless who played the fightingest game on the squad, despite his small stature. He was a very effective player on the defense too. The center berth was held down by Bill Connors, a veteran of three years. Bill was an efficient scorer, especially at times when the rest of the team was unable to click. Jack Crowley, the other guard, was an important element in the smooth functioning of the team. These men were assisted by Sis Esenstad, an up and coming star who proved himself to be a
very valuable player, especially when it came to tossing needed points through the hoop.

Owing to the smallness of the squad, the team had difficulty in standing up through the strenuous rigors of the season, but the manner in which they acquitted themselves was truly remarkable. Their functioning as a unit was well co-ordinated and they succeeded in piling up a large number of points before the season was completed.

The schedule consisted of twenty-three games and started with an overwhelming defeat of Western Maryland in the opener and a follow through by defeating Bucknell. Lady Luck turned her fair brow the other way for the next four games and the Hoyas lost to Pitt, Princeton, N. Y. U., and Manhattan. Again regaining their stride, the lads conquered William and Mary by a large score and took a narrow victory from the plaid of Carnegie.
Tech. The next two they lost to West Virginia and Navy but proceeded to remedy this by downing Temple and Mt. St. Mary's. Dropping the Yale contest, the Hilltoppers went on a three-game winning streak, conquering Army, Brooklyn, K. of C., and Bucknell. St. John's of Brooklyn, West Virginia and Temple atoned for this by beating the Hoyas. Losing a close one to Pitt, the Blue and Gray came down the home stretch, defeating Canisius, Loyola of Baltimore and the Plaid of Carnegie Tech. The high scoring sharpshooters for Georgetown sank a total of 748 points while their opponents tallied a total of 709. Of Georgetown's entire total, Eddie Hargaden amassed 210 of them, putting him well in line to break the intercollegiate scoring record, provided of course he does as well next year. O'Connor, Crowley and Connors will be lost to next year's club, but strong replacements from the yearling squad are expected to keep Georgetown high in the basketball world. A schedule equally as ambitious as the last will be attempted next year and Coach Mesmer expects to even surpass the fine results evidenced by the team in the season just completed.
Contrary to the usual run of large schedules played by the Georgetown University baseball team, a recent announcement revealed that the Hilltoppers would this year engage in but twelve contests, only five of which will be played on foreign soil. The card came as a distinct surprise to followers of the Hoyas’ diamond endeavors, who immediately recalled those days when the team would embrace a schedule calling for as many as twenty games and in some years quite considerably more. The characteristic jaunt through New England climes is conspicuously absent this year. This was always looked upon as the most important trip of the year because such teams as Holy Cross, Harvard, Yale, Boston College, and Dartmouth, the topmost teams of the East, were met. The lack of success last year, in addition to the fact that several Eastern colleges have dropped baseball, is probably the reason why another like undertaking was not attempted.

In keeping with the new athletic policy of engaging alumni to direct its sporting endeavors, Georgetown has its own intramural director, Ralph McCarthy, at the controls of the 1934 baseball team. Ralph will be remembered as the captain and star outfielder of the famous team of 1930 which swept through any and all kinds of competition to be unofficially crowned as the champions of intercollegiate baseball. He is perhaps best remembered for his inspiring leadership and coolness at the critical moment. It was his heads-up play at all times that enabled that famous aggregation to wiggle successfully out of the most dangerous of situations. A man possessed of these qualifications, together with the marvelous record that he has piled up as director of intramurals seems certain to succeed as mentor of the sport which he loves best of all, baseball.

Coach McCarthy possesses one of the best batteries to be seen around here in years, namely, George Neslie
and Joe Saverine. Captain Jack O'Rourke, one of the heaviest hitters and a consistent regular on the team for the past two years, is counted on to provide the scoring punch. Jack's first hit was a home run and he has been banging them out with regularity ever since. Bill Carpenter is another veteran, as is Eddie Hargaden, basketball ace. Jerry Dolan will be again in there holding down an outfield berth. Joe Corless is apt to prove another heavy hitter, while Bob Hall looks good for an outfield position. Bob played as a substitute last year and did well when he was in the game. However, the success or non-success of the season will depend largely on George Neslie's ability as a pitcher and an iron man. George pitched three winning games in a week last year, and it looks as though he will have to pitch at least two contests per week for the coming season, as he is the only reliable moundsmen.
The schedule opens on April 7th with Richmond University at Richmond, Virginia. Then Western Maryland will be played followed by contests with Richmond, at home, Temple, Navy, Duke, West Virginia, Mt. St. Mary's, Washington and Lee, Temple, Villanova, and William and Mary.

The fact that the above schedule calls for only a small number of games is a blessing in the event that another starting-pitcher is not developed in time for the season's opener, for it will put too much of a burden on one man. Coach McCarthy knowing his baseball as he does should have no trouble in organizing a well fielding unit, but is liable to run up against a snag when it comes to developing batting power. O'Rourke, Dolan and Corless are at present the only men on the squad who are capable of wielding a big stick in the hour of need, but it is entirely probable that a few good hitters may be developed from present material. Georgetown is confident that this year's team under McCarthy's supervision will follow the successful trend that has already been seen in other lines of sport.

First Row: CUFFE, CARPENTER, NESLIE, O'ROURKE, Capt., SAYERINE, DOLAN, FELIX
Second Row: PETERSON, MARCELLO, CORLISS, McCALGELIN, PERRINS, LOVING
Third Row: DOYLE, ROHAN, CAILAHAN, STAPLETON, Mgr.
TRACK
Left utterly devoid of any experienced material, Coach Jimmy Mulligan faced the 1933-34 cinder season with little or no prospects of success. All of the stars of bygone years had graduated the year previous, and what men there were on hand were sadly inexperienced. However, with canny knowledge, Coach Jimmy did not enter his youngsters in competition with specialized champions, but sent them into open competition in the smaller meets. The results of this bit of wisdom was evidenced by the fine showing given by the boys in all their events.

Their first real competition came in the fourth annual meet sponsored by Catholic University. The Hoyas promptly stepped forward and won the open competition in the meet with little or no trouble, the victory coming as a distinct surprise to all concerned. Dick Bradley of football fame and Chubby Parcells accounted for eight points in the fifty yard dash, while Paul McNeill ran a beautiful race to overcome strong competition in the four-forty yard event. Prior to the meet the runners were handicapped by inclement weather, but in this instance the obstacle did not seem to have much effect.

McNeill failed to qualify in the fifty and decided to enter the quarter, an event which he failed to show in at the Millrose games a few weeks previous. At the start of the event he was far in the rear and trailed almost throughout the entire proceedings. Fighting every inch of the way and overcoming a twenty-yard lead, when the race had but thirty yards to go, Paul drew up abreast of the leader, a C. U. man. He then started his kick and crossed the finish line a full two feet ahead of the best the opposition had to offer. He was wildly received by the crowd for the grand performance which he gave.

Bradley and Parcells seeded their way up through the trial heats to the final of the fifty-yard dash and from that point proceeded to equal the track record of 5 3-5 seconds for the event. Parcells was
merely inches behind Bradley at the finish. Bill Doherty and Dave Keane failed to qualify in the 880, but all the points that were necessary had already been garnered by the Hoyas.

The next meet in which the team distinguished themselves was that of the University of North Carolina, at Chapel Hill. In this meet Bradley was well on the way to a victory in the sixty-yard dash, but pulled a muscle and came in second. Parcells was third. The winner set a new meet record of 6.3 seconds. The relay team, composed of Bert Treacy, Bill Doherty, Dave Keane, and Paul McNeil, placed second to C. U. Jack Navin, a Freshman, broke the meet record in the high jump with a leap of 5 feet, 11 and 3/8 inches, almost 1 1/4 inches better than his closest opponent. Having accomplished so much thus far, the spring season holds much hope for Coach Mulligan’s men, as the valuable experience gained thus far will stand them in good stead.
The Georgetown University Rifle Team was founded in 1920, and has since been the pride of the Military Department because of its splendid record and sportsmanship. Indeed the unique place that the team has held in competitions has well justified this confidence. In the 1932-33 National Rifle Association Intercollegiate Matches, the Hilltoppers placed ninth out of thirty-five colleges firing; in the National Rifle Association (sectional) shoulder-to-shoulder matches, they scored third out of eleven colleges firing; they won three out of four shoulder-to-shoulder contests against neighboring schools, winning the third consecutive shoot from New York University. Also the team won forty-five out of forty-seven telegraphic matches fired with colleges throughout the United States.

Captain William C. DeWare, Coach and Faculty Adviser, and Sergeant Ernest Alexander, Assistant Coach, have given liberally of their time and wide experience to build up the team to its present standing. Officers for the Varsity Team for 1933-34 are: Robert W. Hall, '34, President and Manager; Henry C. Barrett, '35, Secretary; and Frank S. Ainsa, '36, Treasurer.
MINOR SPORTS
GOLF TEAM

1934 sees the Hoya hopes for golfing honors reach their highest level since the days of Maurice McCarthy and Red Flanagan. With four sterling golfers, the mainstays of last year's squad, forming the nucleus of the 1934 team, it is expected that a fine combination will be rounded out from the promising group who are striving for the last two places. Among these latter are Rupert Friday and John O'Brien, former varsity members, Joe Galvin, Curly Wochner, and Ken Corcoran.

The team roster displays some imposing titles, which, to some extent, allay the misgiving which might be caused by the
most difficult schedule that a Hilltop links squad has ever encountered. Captain Walter Tynan is the present holder of the Club Championship at Port Chester, New York. Joe Lynch, the ace of the team, holds the Massachusetts State amateur title, while Dick McPartlin is Club Champion at College in Chicago, and a well-known figure in the golfing circles of the Windy City. The fourth member of this veteran quartet, Don O'Brien, holds the Club Championship at Rolling Road in Baltimore.

This year Manager Walter O. Briggs was fortunate in arranging a Southern trip during the Easter holidays, and this jaunt will be an invaluable aid in preparing the team for their difficult Eastern Intercollegiate League matches. The complete schedule is as follows: March 29—Charleston College, at Charleston, S. C.; March 31—U. of Florida, at Gainesville, Fla.; U. of Miami, at Coral Gables, Fla.; April 4—Rollins College, at Orlando, Fla.; April 7—U. of North Carolina, at Chapel Hill, N. C.; May 4—Yale University, at Philadelphia, Pa.; May 5 (morning)—Williams College, at Philadelphia, Pa.; May 5 (afternoon)—Brown University, at Philadelphia, Pa.; May 12 (morning)—University of Pennsylvania, at Princeton, N. J.; May 12 (afternoon)—Princeton University, at Princeton, N. J.; May 18—Harvard University, at Hanover, N. H.; May 19 (morning)—Dartmouth College, at Hanover, N. H.; May 19 (afternoon)—Holy Cross College, at Hanover, N. H.
Coach Freddy Mesmer, with a corps of veterans at his disposal and much new material should have little difficulty in molding a formidable tennis squad for the coming season. George Crowley, this year's captain, is one of the finest players around, having won many of the tournaments out in Chicago. On top of these triumphs, he holds both the singles and double Intramural titles. Freddie Sendel, another luminary, has competed in the Mexican Davis Cup Matches, and should prove quite a mainstay. Next in line, Mesmer has Ed Henry, who holds the New Jersey State junior
Bill Cagney, of the Junior Class, along with Crowley, is one of the ranking court stars in the city of Chicago, and was former captain of the freshman team. He has a fine backhand that will afford much trouble to any opponent. Jerry O'Connor, the Conference basketball star, will be out for the position he held on last year's net squad. Mesmer will also have at his disposal the services of "Happy" Jacobs, who romped off with quite a few Washington titles, and in his high school years was the star player with the crack Western High tennis team. Two fine players are in the persons of Billy Foote and Jack Noonan, both of the Senior Class, and they will be out fighting for berths. Jack Eckenrode, who took honors during his freshman year, will be ready to answer the call.

An attractive schedule has been arranged, embracing matches against Temple, Wake Forest, V. M. I., Pittsburg, Johns Hopkins, William and Mary, Washington and Lee, and Jefferson on the Hilltoppers' Courts, and a trip to Annapolis to meet the Navy squad. In rounding out the season, the Georgetown Team will enter the Intercollegiate matches, held annually at the Merion Cricket Club, in Merion, Pennsylvania.
The season of 1933-34 was the culmination of the diligent efforts of the Athletic Association with regard to the world of intramural sports. It was the crowning glory of an intense concentration to bring home to every student active participation in some sport which he enjoyed. The authorities' efforts were greatly aided by the formation of the District of Columbia's Intramural League, which is composed of the chief colleges in the District, Maryland, Catholic University, Georgetown, Gallaudet, and American University, as well as of other institutions of higher learning which are situated in the surrounding countryside. So great were Georgetown's efforts in this competition, and so intense was the interest of the student body, that the ever-ambitious Hoyas succeeded in emerging victorious in all branches of sport. The consistent victories of the Hilltop athletes came as a distinct surprise to all and sundry, and the remarkable regularity with which they were rolled up was actually uncanny.

Georgetown has had of course more than a passing interest in intramural activities ever since 1931, when an Intramural Board of Control was
formed. The present personnel of that Board is headed by Rev. John J. Kehoe, S.J., Director of Athletics, and Ralph McCarthy, '30, who also holds the position of Mentor of Baseball. They are aided by George D. Crowley, '34, Senior Intramural Manager, and William Doherty, '35, Junior Intramural Manager. These men have all collaborated to give Georgetown the finest intramural organization in this part of the country. Tournaments have been organized in every form of sport, and appropriate awards have been provided for winning teams and individuals by the Athletic Association.

The season began with the organization of a touch football league, regulation football having been abandoned this year for the first time, due to the numerous injuries received by the players. The new league enabled more men to engage in the sport than heretofore, and provided equally as much fun for those that participated. Blue and Gray Leagues were formed, the winners to meet in a playoff to decide the championship. After a thrilling season's play, Second Copley downed the representatives of
Third Copley by the scant margin of a lone touchdown. Thereafter, the Copleyites proceeded to defeat Catholic University and Maryland in that order, to claim the District championship.

The annual Sophomore-Freshman football game, which was held on December eighth, and also falls under the headings of intramurals, saw the highly touted Frosh team fall before an inferior Soph team to the tune of 13 to 7. In the off season, tennis and handball tourneys were held, the winners being awarded handsome trophies. The awards were presented at a dinner given in Ryan Hall by the Rev. W. Coleman Nevils, S.J., to which the whole school was invited. Amateur entertainment was provided and was received heartily by the audience.

After a long and arduous campaign, the team from Second Copley also proved victorious in the basketball competition and was selected to meet the winners in the other schools. In a District meet, the swimming team turned in an exceptionally brilliant victory which hinged on the last event, a relay with the University of Maryland.
Boxing was organized under the direction of Jim Tierney, and at a
grand intramural carnival held before 3,500 people at the Maryland Gym-
nasium at College Park, the Hoya fisticufflers scored resounding victories
to win that branch of sport in short order. Mascaro, Scatourchic, Kelleher,
Meglin and Prichard turned in excellent performances to win their various
classes. A decisive basketball game was held prior to the fights, and
Georgetown's Second Copleytes wrested the crown from the Maryland
contenders on a last minute shot from the middle of the floor by Jerry
Dolan. The final count was 14 to 12 in favor of the Hoyas.

With this new organization proving such a success from the viewpoint
of athlete and spectator alike, it is entirely likely that Georgetown's suc-
cesses will continue indefinitely for a number of years. The interest in
the Intramurals at the Hilltop is at the fever point, due both to the very
capable handling of the situation by the authorities and the intense interest
manifested by the students themselves. Best of all, such an organization
in this field as the present gives every student a chance to take part in
whatever exercise he loves best and is a great aid in the furtherance of
physical development.
Ever since the first colonization at St. Mary’s City, when the Jesuit Fathers received the native Americans with welcoming arms, Maryland has always been renowned for her genial hospitality, her respect for the personal liberties of others, and her perpetual feeling of fraternal love towards all.

PI GAMMA MU

The Georgetown Chapter of Pi Gamma Mu, National Honor Society in Social Sciences, was formally inducted as the Delta Chapter in the District of Columbia Province at the annual dinner of the District's four chapters, held in January, 1933. At this time Rev. Father Nevils, S.J., President of the University, was made an honorary life member of the new chapter. There are now one hundred and forty-five chapters in the Society. Selection of new members is made for outstanding work in the Social Sciences, from among the members of the Senior and Junior Classes. All elections are for life.

CHAPTER ROLL
ALPHA ........................................... Georgetown University School of Foreign Service
BETA .......................................................... University of Pennsylvania
GAMMA ..................................................... University of Pittsburgh
Long after the Odes of Horace, the plays of Euripides, the discussions of Substance and the doctrine of Hylomorphism have faded into the dim past, these poses of our college mates at play will help to recall vividly the warm friendships and happy hours spent within the time-honored walls of Georgetown.
FEATURES
No Gil, Dick, Walt, and Crowl, don't look like this all the time. . . . Moe it seems that you had better pay them the two bucks. . . . That's strange, they don't all take Economics. . . . Don is only bluffing for it's not his car. . . . Stapleton. . . . Doctor, please save some of that medicine. . . . Harry Helm must have interrupted Kirby's sunning. . . . Who let these four hoboes in? . . . Can you remember Frank's three cronies?
Maybe they should exchange hats . . . "Lover the Younger" really went to town in "Something in the City" . . . Look closely, Mr. Smith is asleep . . . Tom's famous "barouch" . . . Come on in the water's fine . . . Come on, Skip, tell us another . . . My, how unusual . . . Ah! now that is more like it.
Harry that running board is pretty weak . . . With these feet Hutch should be able to "leap into the dark" . . . Jerry isn't this a bit out of your line? . . . Tom, do you think the Black Reaper Don "Skul," will get him? . . . As seen from 109 in Winter . . . The Black and White Fantasy, or The Greeks Had a Word for It . . . Father, do you see what Treacy is doing? . . . The dogcatcher, Pinckney, about to nab King Kong, a rare specimen . . . Willie, there always seemed to be something of a nymph about you.
Mac drop that . . . The baseball team has some morale . . . Look, girls, what a physique . . . Next year's Editor surveys some interesting material right in the middle of the Potomac . . . Remember the Visitation girls parading under the arch on the way to the Observatory? . . . Don't worry, the Arlington cannons are only showies, not blowies . . . Hey, get off the Senior Porch . . . What! you again . . . No, of course you can't study all afternoon.
The Foreign Service boys en voyage . . . Wonder if she expects to find a handsome stowaway in the lifeboat . . . Ah! so that's what they store under the fish . . . They can't run out of gas now but they may run out of wind . . . Four buxom lassies . . . Dr. Ed, where did you get that carnation? . . . It starts like this, and ends like that.
HIGH LIGHTS OF '34 HISTORY

OH! PAT—HEY, PAT—KUMNS
THAT'S YOUR TOUGH LUCK, DR. LEE
AND THAT TYPE OF THING IS THIS IMPORTANT
GENTLEMEN? EXCEEDINGLY SO.

IT'S ONLY THE DENTAL STUDENTS, GENTLEMEN,
DR. BANNON.

"SHUSH STUDENTS" DR. HOLL.
AND ALWAYS LEAVE OPEN A LITTLE DOOR BEHIND YOU—DR. YATER.

WHAT—YOU KILLED THE RABBIT? DR. NO NAME (RABBITY).

WHO HAS THE PAPER FOR THIS AFTERNOON DR. YATER.

AND IS THE GROUP AT PROVIDENCE GETTING ENOUGH WORK?
YES, DR. YATER, DR. LEE.

GAIN THE CONFIDENCE OF THE CHILD EVEN IF YOU HAVE TO GET DOWN ON THE FLOOR AND PLAY WITH THEM DR. WILL.

GIVE ME A KING AND LET ME KNOW WHAT SHE'S DOING DR. UNIC.

PUT 'EM UP IN HYPER-EXTENSION DR. LAKIN.

YOU'RE OUT THAT'S THE BIGGEST ZERO YOU EVER GOT—DR. MORGAN.

AND NOW WE COME TO THE JELLIES AND PRESERVES DR. BENTON.

IF YOU FELLOWS DON'T WANT THIS STUFF IT'S ALL RIGHT WITH ME I HAVE MY DEGREE DR. ROBB.

LESS OF PATIENCE SPIRITS OF TIME DR. MINGHOL.

*APPLY FREELY* DR. MINGHOL.

BOY! YOU'RE OUT!

SURE!
Must be either a crap game or a bull session... Go easy now, it will be my turn next... Maybe you see something funny about it, but he doesn't... What sweet, bashful, blushing, young dears... The Profs have gone home, so extra hours won't do you any good... Be careful of that nerve, Doc... Someone should have told him about Listerine... Among the smoothest.
It's all right when they are only playing war . . .
Let her go Sarg. . . "Eyes right" . . .
Phil and Paul giving Bob a ride . . .
Bet Cox was leaning back still more when that blunderbuss went off . . .
The army even has a system for taking off shoes . . .
A story of the three bears . . .
Prexy, remember your dignity . . .
Come and get your beans, boys, come and get your beans . . .
They may be posing, but they are a pretty sloppy quartet.
The company street... So, Bob, your past caught up with you... Hello, Pop... Company "A" marching in the Inaugural Parade... Paul, don't forget to squeeze now... Why Bill, that's not what the well-dressed man should wear... Better duck before they commence firing... The Military Day Review... Home.
Button, button, who dropped the button? ... Ready on the line ... Eats again ... I surrender dear ... The Georgetown hoboes loaf, while the rest of the Army works ... The G. U. Band really slayed them on Inaugural Day ... Well, Son, a nice day's shooting ... Sir, all present are accounted for ... From the scrapbook of the Ryan Rats ... Don, you really didn't fit in that thing, did you? ... Bend down brother.
Hope there are no splinters, Rolo . . . Harry, how's Frances . . . Seems as if they must loaf all day long down there . . . To the colors . . . Bud and Tom . . . Skipper Zimmerman . . . And it is not Bas' car.

ADVERTISEMENTS
A HUMAN INSTITUTION SERVING HUMAN NEEDS

FINANCIAL STATEMENT, DECEMBER 31, 1933

With a fixed and unswerving determination on the part of the Directors of The Western and Southern Life Insurance Company to so administer its affairs as to make its name a symbol of strength, security and safety, the financial statement herein is presented as a manifestation of its PROGRESS.

Despite three years of economic onslaught on security values, the high grade and character of our assets have enabled us to meet all demands and obligations as presented, and without raising premium rates or the sacrifice of a single security, and is conclusive proof to our policyholders of the safety and security of their insurance investments in The Western and Southern.

Our bonds consist solely of United States governments and choicest municipals, all carried at their amortized value and with but $1,438.15 of delinquent interest on a total bond investment of $22,556,000 as of December 31, 1933.

Our real estate is carried at a figure which represents a forced sale value, with a practice of charging off each year sufficient to bring the net rental return to a 5% basis.

With such proved assets, demonstrative of sound and conservative investment policy and with increasing evidence of recovery most apparent, The Western and Southern looks forward to the coming year with confidence and invites your consideration of it as a Dependable Repository for your Life Insurance coverage.

LOWEST GUARANTEED PREMIUM RATES OF ANY UNITED STATES LIFE INSURANCE COMPANY.

Financial statements are scrutinized with keen interest during periods of economic depression. It is therefore gratifying to present a statement revealing a condition of financial strength not exceeded by any life insurance company in the United States.

The lowest point in the financial crisis which culminated in the bank holiday marked the most difficult test to which life insurance has ever been subjected. With practically all other sources of money frozen tight, business was threatened with total paralysis, while family financing tended toward a return to primitive bartering. This situation resulted in an unprecedented demand for cash and loans on outstanding life insurance policies.

In this, the most severe financial emergency in history, The Western and Southern met every policy obligation promptly and in full. This accomplishment was not only of inestimable value to our policyholders, but most convincing proof of financial stability in any crisis.

To you who are about to enter into the actual practice of dentistry, the problems of locating, planning, and equipping an office cannot seem other than momentous. They are big problems; yet, years hence you will look back upon this period with its perplexities as the most interesting and fascinating of your whole career.

Approach the purchase of your equipment especially in the light that it is an investment, an investment that will bring return in ratio to the soundness of its quality and completeness for modern dental practice.

To the searching eye S. S. White Dental Equipment makes a strong appeal. The soundness and permanency of its value are suggested by its completeness, the convenience of its appointments, its simplicity, the sturdiness of its construction even to parts ordinarily unseen, the comfort obviously afforded to both operator and patient, and the "build-up" feature of the unit.

Entirely free of ornate adornment, the S. S. White Unit and Chair will be in good taste today and tomorrow; and to patients they will ever be a comforting assurance of competent, dependable service.

S. S. White Equipment can be purchased on liberal terms.
The 100% Shock Proof
(oil-immersed)
Dental X-Ray Unit
for your new office

* First impressions count! When you reach for the CDX on the wall of your new office, your patients will instinctively realize that your knowledge of dentistry is as modern as your equipment.

As you start your career, do not handicap yourself with obsolete apparatus — a surprisingly small monthly payment will provide a CDX. Write for complete details.

The EYES of all Dentists are upon AMERICAN CABINETS

The dental profession knows American Dental Cabinets. They know that no better cabinets are produced in the U.S.A. or abroad, that all improvements for 25 years first appeared on American Cabinets, and that over 75% of all dental cabinets in use are American.

The new American Dental Cabinet No. 140 shown follows the new trend in modern furniture design and color scheme. See it at your dealers.
