A NOTE TO OUR READERS . . .

Funding for the purchase of the materials cited in NEW TITLES IN BIOETHICS was severely reduced in September 1994. We are grateful for your donations, as well as your recommendations to your publishers to forward review copies to the Editor. In addition to being listed here, all English-language titles accepted for the collection will be considered for inclusion in the BIOETHICSLINE database, produced at the Kennedy Institute of Ethics under contract with the National Library of Medicine. Your efforts to support this publication and the dissemination of bioethics information in general are sincerely appreciated.

NEW TITLES IN BIOETHICS is published four times per year (quarterly) by the National Reference Center for Bioethics Literature, Kennedy Institute of Ethics. Annual Cumulations are published in the following year as separate publications. NEW TITLES IN BIOETHICS is a listing by subject of recent additions to the National Reference Center's collection. (The subject classification scheme is reproduced in full with each issue; it can also be found at the end of the cumulated edition.) With the exception of syllabi listed as part of our Syllabus Exchange program, and documents in the section New Publications from the Kennedy Institute of Ethics, materials listed herein are not available from the National Reference Center. They are available from the publishers listed in each citation.

Subscription to NEW TITLES IN BIOETHICS is $20.00 per calendar year in the U.S., Canada, and Mexico, and $30.00 elsewhere. Back volumes are available at $12.00 per volume (subscribers) and $15.00 per volume (non-subscribers) in the U.S., Canada and Mexico, $17.00 per volume (subscribers) and $20.00 per volume (non-subscribers) elsewhere.
