NEW TITLES IN BIOETHICS

Annual Cumulation
Volume 20, 1994

(Includes Syllabus Exchange Catalog)
Funding for the purchase of the materials cited in NEW TITLES IN BIOETHICS was severely reduced in September 1994. We are grateful for your donations, as well as your recommendations to your publishers to forward review copies to the Editor. In addition to being listed here, all English-language titles accepted for the collection will be considered for inclusion in the BIOETHICSLINE database, produced at the Kennedy Institute of Ethics under contract with the National Library of Medicine. Your efforts to support this publication and the dissemination of bioethics information in general are sincerely appreciated.

NEW TITLES IN BIOETHICS is published four times per year (quarterly) by the National Reference Center for Bioethics Literature, Kennedy Institute of Ethics. Annual Cumulations are published in the following year as separate publications. NEW TITLES IN BIOETHICS is a listing by subject of recent additions to the National Reference Center's collection. (The subject classification scheme is reproduced in full with each issue; it can also be found at the end of the cumulated edition.) With the exception of syllabi listed as part of our Syllabus Exchange program, and documents in the section New Publications from the Kennedy Institute of Ethics, materials listed herein are not available from the National Reference Center. They are available from the publishers listed in each citation.

Subscription to NEW TITLES IN BIOETHICS is $20.00 per calendar year in the U.S., Canada, and Mexico, and $30.00 elsewhere. Back volumes are available at $12.00 per volume (subscribers) and $15.00 per volume (non-subscribers) in the U.S., Canada and Mexico, $17.00 per volume (subscribers) and $20.00 per volume (non-subscribers) elsewhere. All orders must be prepaid.

Inquiries regarding NEW TITLES IN BIOETHICS should be addressed to:
Gregory Cammett, Managing Editor
(regarding subscriptions and claims)
OR
Lucinda Fitch Huttlinger, Editor
(regarding review copies, gifts, and exchanges)

BIBLIOGRAPHY OF BIOETHICS

Volume 20 (1994)

LeRoy Walters and Tamar Joy Kahn, Editors

Produced under a contract agreement with the National Library of Medicine, the Bibliography of Bioethics is the most comprehensive source of access to the English-language literature on ethical, legal, and public policy aspects of health care and biomedical research. Its cumulated contents are also available as the online database, BIOETHICSLINE, part of the National Library of Medicine’s MEDLARS information network. The Bioethics Thesaurus, a controlled indexing vocabulary used for searching BIOETHICSLINE, is now published separately and may be ordered at the same time as the Bibliography.

**KEYWORDS**

(* = MAIN CONCEPT)

altruism; *autonomy; beneficence; bioethics; case studies; coercion; common good; competence; conflict of interest; conscience; counseling; *decision making; dissent; economics; ethical analysis; ethicists; *family members; *family relationship; freedom; informed consent; . . .

Recent articles in biomedical ethics have begun to explore both the relevance of family interests in treatment decisions and the resultant ramifications for physicians’ obligations to patients. This article addresses two important questions regarding physicians’ obligations vis-à-vis family . . .

**ABSTRACT**

3600 NEW citations...

Browsing the subject entries provides immediate access to literature references. Nurses or physicians in need of clarifying a search, ethics committee members looking for background information, lawyers researching ethical issues pertinent to pending litigation or court decisions, or teachers preparing a new reading list—all benefit from perusing the Bibliography of Bioethics. Author and title indexes are also included.
Volume 20, published in the fall of 1994, has 811 pages. It contains 3600 new citations, many with abstracts, to ethical, legal, and public policy issues in health care and biomedical research. References are from books, journals, legal documents, government reports, and news media.

- Reviewers' Comments
  "Highly recommend its acquisition by libraries, institutions devoted to studying issues in biomedical ethics, serious scholars, and the educated layperson."
  Journal of Medicine and Philosophy

  "Essential for health, academic, and larger public libraries...."
  Booklist/Reference Books Bulletin

  "The Bibliography of Bioethics provides the single most comprehensive, continuing work on the topic. Well-organized and exhaustively cross-referenced, the book also features clear annotations."
  Science, Technology, & Human Values

  "An indispensable reference work for anyone with continuing interests in biomedical ethics...."
  Annals of Internal Medicine

  "The annual bibliography from the Kennedy Institute of Ethics is the basic reference work for biomedical ethics, and I am delighted to add it to my personal library."
  Science Books and Films

  "... truly indispensable working tool for all those working in the fields of health law and bioethics."
  International Digest of Health Legislation
