New Campaign Chairman

On September 12, Charles J. Milton, '35 who has served as General Chairman of the Campaign for the McDonough Memorial Gymnasium since December, 1947, found it necessary to resign because of the growing demands of his practice and his feeling that new blood would be helpful to finish the job.

After long discussion, it was decided to ask Thomas C. Mee, '17 former President (1948-50) of the Alumni Association, to take over as Chairman. This Tom has agreed to do. The Officers and Members of the Board of Governors feel that in Tom we have a very happy choice. When the campaign officially opened in January, 1948, Tom was selected as chairman for Rhode Island. His organization which he built for that job functioned so well that he had finished all solicitation and surpassed his quota within six weeks. Furthermore, at the moment he has so arranged his personal business that it does not require much of his time and he is therefore free to travel for us and to take a very personal part in what he calls the "Round-up, Wind-up" of the Campaign.

Of the $861,000 which our Association pledged itself to raise for the Gymnasium, $571,580 was raised by Charlie Milton's Committee. That leaves $289,420 for Tom Mee to find before we can call the job finished. He needs and deserves the support of every Georgetown man, especially of those skeptics who said four years ago that the job would never be done. A look at the finished, though unpaid-for building will convince them and all of Georgetown of the value of faith, generosity and patience in giving our Alma Mater what she needs and deserves. If every man who receives this Magazine would get out today and raise a mere $75 for the cause, the job would be finished tomorrow. That's a thought!

Class Reunion in June

Commencement in 1952 will be held on June 9 and the reunions of the Quinquennial classes will be held over the preceding week-end, June 7 and 8. The Golden Jubilee Class of '02 and the Silver Jubilarians of '27 are expected in large numbers as are the classes of '07, '12, '17, '22, '32, '37, '42 and '47. This year the facilities of McDonough Gymnasium will be available as a real Reunion headquarters, and no effort will be spared to make the Alumni feel very much at home. Members of Reunion classes who are bringing their wives and families may handle hotel reservations through the Alumni Office. Alumni coming unaccompanied will find, as always, a welcome to stay on campus.

As soon as the Dedication of the Gymnasium is over, lists of addresses will be furnished to Chairmen of the various classes and publicity designed to attract as many as possible will be aimed at the Alumni concerned. Make your plans now to attend the 1952 reunion. You won't have another chance for five years.

Letters

Dear Sir:
I read with interest the article written by the Reverend Hunter Guthrie, S.J., President of Georgetown University, in this issue of October 13th Saturday Evening Post. Dr. Guthrie's arguments are so convincing that it seems comment is hardly necessary. It is all the more tragic because I am old enough to remember when Georgetown football was not in the nature of big business so that an astounding budget coupled with such a disastrous deficit could result.

In view of our talks, I imagine you noted with more than passing interest that the University of Virginia apparently feels the same way. I saw all the Virginia games from 1906 to 1912 when the Series was cancelled. There was plenty of attendance, color, spirit, and I am sure profit taken at the gate to satisfy both teams upon a reasonable basis. Today's college football is simply destroying itself, and I really feel that with twenty-five years experience as a football official I know a little bit about the subject with its tragic tendencies.

Sincerely,
RICHARD D. DANIELS, '11

Dear Sir:
Father Guthrie's article in the Saturday Evening Post on football was excellent, as I knew it would be. I am highly pleased with the favorable comment that it has received in informal discussions with my friends.

At the weekly meeting of the Providence Gridiron Club last Wednesday, Dean Harold E. Browning of the University of Rhode Island commented on it favorably and stressed the need for the de-emphasis of football.

I am enclosing an article from the Atlanta Constitution which takes a rational view of the football situation in the South.

Sincerely,
HARRY SANDAGER, '22

Dear Sir:
The article by Father Guthrie was very interesting and well-written.

In my estimation, the explanation of the University's attitude will do more for public relations than the maintenance of an expensive football system would have accomplished in many years.

JAMES McSHERY, '42

Dear Sir:
I have read the article on "Here's Why We Stopped Football" by the Very Rev. Hunter Guthrie, S.J., appearing in the Saturday Evening Post at your suggestion.

I think Father Rector's stand on this subject is sound and that his position is well taken. For many years, I have wondered why the University should sponsor and support a Football-team which was composed of athletes who, to all intents and purposes, were professional. I have known only a few of the Football players to be improved by the Scholarships that were given but I think that I have known a number who were damaged by the publicity and their lack of Scholarship.

Sincerely,
DR. R. M. Lecomte, '10

RESERVATIONS FOR DEDICATION WEEK-END

The Alumni Association has made a block reservation of rooms at the Hotel Shoreham for the week-end of December 7-8. Washington is usually crowded at all seasons. To avoid disappointment during Georgetown's biggest Alumni Week-end, make your request for hotel space when you purchase your block ticket for the Dedication. Send both to Dedication Committee, Alumni House, 3604 0 St. N.W. as early as possible. Elsewhere in this issue you will read of the plans for a BIG weekend for a little fee. But you must make early reservations.
In fulfillment of a promise made in the Summer Edition of The Georgetown University Alumni Magazine, the Editors are pleased to reproduce a cross-section of book reviews throughout the country dealing with the latest work of the Reverend Edmund A. Walsh, S.J., Vice-President of the University and Regent of the School of Foreign Service. It is Father Walsh's eighth published work: Total Empire—The Roots and Progress of World Communism—Bruce Publishing Company, Milwaukee; price: $3.50. Published June 15, 1951. The first printing has already been sold out and the second will be available shortly. Total Empire was included during the Summer in the New York Times list of National Best Sellers and repeatedly appeared in the Washington Star's list of Best Sellers for the Washington area.

An authority on international affairs . . . scholarly and highly informative book . . . Soviet policy is no enigma . . . but clear and consistent to him since the two years he spent in Russia . . .

"Charms," the priest says, in his informative book, "is no substitute for the long spoon one needs when dining with disciples of Machiavelli and Karl Marx."

Post-Dispatch—Saint Louis, Mo.
Writing with almost atomic force and explosiveness has produced a book designed to shock its readers into a terrible awareness of the total danger of total Communism. A lifelong student of the USSR and geopolitics, Father Walsh marshals facts, statistics, theories, and quotations with amazing skill and displays a truly enviable erudition. America's policy of gathering strength and of implacable containment of Russia must continue, but this country must not for a moment abandon the struggle for the hearts and souls of men. Father Walsh has the vision to realize this.

COURIER-JOURNAL, Louisville, Ky.

... incisive interpretation ... draws on years of study of Communist tactics ... makes a searching analysis of dialectical materialism as the norm of Soviet foreign policy ... one of the most significant and timely volumes yet published in this crucial period of world history. It is a must ... 

CATHOLIC DIGEST, August, 1951

... an eminent authority on international affairs who has served in many foreign lands ... the Russian Revolution in his opinion is the most important [political] event in history since the fall of the Roman Empire.

EVENING NEWS, Newark, New Jersey.

As the fruit of more than twenty-five years of research, investigation, study, and personal experience, Total Empire stands out as one of the most comprehensive analyses of the subject yet to appear ... a work that anyone who is in a position to deal with the Communist problem must read.

CROWN HEIGHTS COMMENT, Brooklyn, N.Y.

This is an important and serious contribution to the literature on Communism in Soviet Russia, its aims, and its methods ... demonstrates how every facet of life in the Soviet Union is geared to the ideal of force and to the goal of world domination.

JOURNAL—Providence, R.I.

A unique book ... draws on cosmopolitan reading and its quotations in many languages are gratifyingly accurate ... his mind dwells beyond politics and diplomacy, though there is very much of both ... nor is it the work of a military man, though the layman will learn a great deal about military matters ... Nor is the work exclusively of a priest, though it deals much about religion. Total Empire reflecting such a broad and complex personality resembles no other book ... The references to literature and art ... make it even more majestic ... One is constantly reminded, while reading, of the tremendousness of the subject ...

THE ENSIGN—Ottawa, Canada.

One of the men in America best qualified to speak ... drafts the case against Russia with such clarity no one can be misled by the dialectical materialism of the Communists.

HERALD—Syracuse, N.Y.

However much has been written on Communism, this fine study in classical English must be ranked as a monumental analysis of the philosophy of this unceasing revolutionary movement towards world domination.

IRISH INDEPENDENT, Dublin, Ireland.

... strikes at the root of the evil of Communism ... contends most effectively there is no mystery in the actions and maneuvers of the Kremlin. Every move is calculated to advance the concept of total empire by conversion and by conquest.

CHICAGO SUNDAY TRIBUNE—Chicago, Ill.

... thought-provoking volume ... shows unmistakably that for all its zigs and zags that party line is still an arrow aimed at control of the total soul and the complete body of mankind.

Dr. Walsh, a noted geopolitical student, debunks the statement that Russia is a 'riddle wrapped in a mystery inside an enigma.'

MEMPHIS COMMERCIAL APPEAL—Memphis, Tenn.

... an indispensable account of the birth and growth of Communism as well as a clear and scholarly treatment of what should be done about it. It's enlightening and necessarily frightening, forthright and utterly realistic ... should be required reading for every adult American, or yet, every citizen of the world who cares whether our world will be free or slave, Christian or Communist ...

THE COLUMBIA RECORD, Columbia, South Car.

... the book is interesting reading and is a 'must' for those who want to understand Sovietism as it appeared in 1920 and as it appears in 1951 ...

DETROIT GUILD MEMO, Detroit, Michigan.

... strips mystery and enigma from a world policy ...

THE TRIBUNE—Oakland, Calif.

... the historical and philosophical background of World Communism is detailed in its relation to world events of the past 35 years ... intensely clear and readable, Total Empire is an important book.

TRAVELER, Boston, Mass.

This is no ordinary book about Russia and is written by no ordinary author ... a short, intelligent summation for the reader who wants all of the pertinent facts ... The author is enormously well-qualified to write on this subject and you have that impression throughout the book ... no phase of the subject is over-done. It is a well-balanced work on what Russia has been, what she is today, and what we may expect from her.

NEWS—Charleston, South Carolina.

HOPE FOR THE FUTURE

The following is an excerpt from a letter recently received by the Dean of the Graduate School at Georgetown from one of the recent students there who now commands a jet fighter squadron with the fleet. "Permit me to say that it is my conviction that a large part of the hope for the future of the Western World depends upon the work which you and your Faculty are doing. For me it was a great privilege to be associated with the University."
The Library and the Alumni

University Librarian

The visit of our 54 School of Nursing Freshmen to the Library of Congress as a part of the annual library orientation program for all campus freshmen was memorable not only for the wealth of information such a tour conveys but also because it followed closely upon an event of historical importance at the Library of Congress: the encasing of the Declaration of Independence and the Constitution of the United States in containers of Thermapane and bronze, flushed with humidified helium to expel oxygen and other harmful gases. Those who may wonder why the oxygen we all breathe can be harmful are referred to the Library where they may read the National Bureau of Standards Circular number 505 and learn about atmospheric contaminants, the leak detector, the radiation filter and all the rest of it, with pictures. Meanwhile, our Nursing School frosh had an opportunity to inspect the newly installed documents as a part of their two-and-a-half hour operational tour of the national Library and its facilities.

Dr. William T. Taylor and Dr. Richard J. Weber of our Biology Departments are the co-authors of a 575-page textbook entitled *Functional Mammalian Anatomy* recently published by D. Von Nostrand, Inc. The illustrations, including a number of excellent color plates, are by Thomas Courtney Lee B.S. '48. It is too early to have a complete picture of the critical reception given to the book, but judging from the first seven reviews to be written, the authors and the illustrator may feel proud of their work. The volume is already used as a text by such institutions as Rutgers, Temple, Fordham, Creighton, New York University and, need we add, Georgetown University. One innovation that recommends the book to the student is the tieup between the footnotes and the illustrations, making for more rapid and efficient usage.

Mr. John Gilland Brunini A.B. '19, M.A. '39 (Hon.), prominent poet, critic and for many years an editor of the *Commonweal*, has presented to the Library for the Georgetown Authors Case an inscribed copy of his recent novel *Days of a Hireling*. This is a courtesy we cannot too emphatically urge all Georgetown authors to emulate. Of the present volume, one reviewer commented: “What impressed me most about the Brunini book was the fact that it analyzes so well the spiritual strength of the main character in the face of the difficulties he encountered. ... Even when the easy way out would have profited him he remained consistently loyal to his ideals. ... Brunini achieves a great deal in portraying a central figure of this description in a completely believable fashion.” Mr. Brunini was Executive Director of the Temple of Religion at the New York World's Fair 1939-41, and during the war filled important positions in New York City's civilian defense. Before his stint with the *Commonweal* began in 1928, he served four years in New York as a junior shipping executive and then gathered journalistic experience as a reporter and feature editor for various New York dailies. In 1931 he became Executive Director of the Catholic Poetry Society of America, and in 1934 Editor and Founder of *Spirit*, a Magazine of Poetry—a periodical familiar to all who haunt the magazine rack in the Randall Reading Room. Mr. Brunini's other books include *Whereon to Stand* (What Catholics Believe and Why) and *The Mysteries of the Rosary*; he edited *Return to Poetry*, From One Word and several other anthologies, one of which, *Stories of Our Century by Catholic Authors*, he co-edited with Francis X. Connolly.

Dr. Olgerd P. Sherbowitz-Wetzor, Associate Professor of History in the Graduate School, is editing for the Medieval Academy of America a critical edition of a revised English translation of The Russian Primary Chronicle (10th to 12th centuries)... Dr. Cyril Toumanoff, also of the Graduate School where he holds an Assistant Professorship in History, is preparing a translation and critical edition of the mediaeval Georgian chronicles to be published in Studi e Testi, a publication of the Bibliotheca Apostolica Vaticana. Dr. Toumanoff has also received the signal honor of the assignment to write the chapter on “Armenia and the Caucasian Kingdoms” for the forthcoming edition of Volume 4 of the *Cambridge Medieval History*, which is devoted to the Eastern Roman Empire. ... Mr. Jan Wszelak, a Ph.D. candidate in the Graduate School, is the author of an article in the October 1951 issue of *Foreign Affairs* entitled “The Rise of Industrial Middle Europe.”

We had occasion in a previous issue (Summer 1951) to refer to the September 1950 number of the periodical *Postgraduate Medicine* which was devoted entirely to articles by members of the staff of the Georgetown University Medical School, in commemoration of the School's 100th anniversary. We now draw attention to a volume published by W. B. Saunders of Philadelphia: *The Centenary Year of the Founding of the Georgetown University School of Medicine; Series of Papers by Members of the Faculty*. The papers reprinted in the present volume appeared originally in “The Medical Clinics of North America” for November 1950, and “The Surgical Clinics of North America” for December 1950.

Hughes Spalding, A.B. '08, was honored, we recently learned, by having dedicated to him a book by John Tate Lanning entitled *The Spanish Missions of Georgia*...
An interesting old item came our way quite a while ago. It is a *Confederate Soldier in Egypt* by W. W. Loring (N. Y., Dodd, Mead, 1884). The author, who sketches the history of Egypt and then recounts his military experiences in Abyssinia, was a Colonel in the United States Army, a Major General in the Confederate Service, a General in the Army of the Khe dvie of Egypt, and last but not least a student at Georgetown College, which he entered in 1839. The volume was presented to the Library, and inscribed, by Mrs. G. E. Spencer (Mrs. W. Loring Spencer) on May 27th, 1890 and has now been placed among our Georgetown "association items".

Dr. James R. Eckman, M.A. '44, Ph.D. '46, Editor of Medical and Scientific works at the Mayo Clinic, was given quite a spread in the *Rochester Post-Bulletin* of 12th July 1951 for his amateur printing activities. He is co-partner in The Doomsday Press, an outfit which has built up one of the largest and most varied collections of type-faces in Minnesota. Starting from scratch some twelve years ago, Dr. Eckman and his associates now have 60 different types and can duplicate period printing from 1680 to 1951.

Mr. James S. McDonogh, LL. B. '01, formerly Adjudicator, Veterans' Administration, Albany, N. Y. and now retired and living in Florida, is the donor of an item we did not have before and are delighted to possess, namely, the Class of 1901 Law School Year Book. Mr. McDonogh's generosity reminds me that the Library has a standing request with the Alumni in general to send on to Dr. Ruby any spare year book of any year: we keep it in the Library if, as in this case, we do not have it; if it duplicates our holdings, we place it in a reserve file from which we seek to fulfill requests that other Georgetown men send in for back copies. We note from the title page of this unique 1901 copy that the Committee on the Class Book included Daniel Curry, Chairman; Stuart McNamara, Editor; James S. McDonogh (the donor); Harry A. Hegarty; and Adrian Sizer. The first photograph in the book shows the entire class assembled on the steps of the old building on E Street.

Dr. Richard D. Mudd, A.B. '21, M.A. '22, Ph.D. '25, M.D. '26, grandson of the famous Dr. Mudd of Southern Maryland, and the physician in charge of Industrial Medicine, Chevrolet Grey Iron Foundry, Saginaw, Michigan, is the author of a very imposing genealogical work of 1,461 pages entitled *The Mudd Family of the United States*, copyright 1951 and privately published by the author. It is thoroughly indexed, equipped with charts, liberally footnoted, and all in all, a monumental piece of work. It was litho printed by Edwards Brothers, Ann Arbor, Michigan and is attractively bound in blue buckram and lettered in gold on the front cover and on the spine. Fellow genealogists may purchase copies directly from the author.

Dr. James S. Ruby, A.B. '27, M.A. '29, Ph.D. '30, our Alumni Secretary and Editor of this periodical is also the editor of the substantial *Report of the Thirty-Fifth National Conference, the American Alumni Council ... Held at Cambridge, Massachusetts July 10-14, 1950*, and published by the Council (LB2411.A43 35th). The volume, enhanced with photographs and progressing smoothly from the "General Program of the 1950 Conference" through the history of the A.A.C. and thence through a succession of speeches, panel discussions and tempting tidbits as "Mice or Editors?" to the financial report, topical index and list of members, gives no indication to the uninitiated of the infinity of trouble required to put these 601 pages into orderly shape and see them through the press. One may say of an editor what is often said of a translator: the better he does his job, the less he is noticed. Apart from his brief appearance on the title page Dr. Ruby is not noticeable in this work. I couldn't even locate him among the photographs. But the evidence of careful editing is present throughout.

**NOMINATIONS FOR OFFICE**

The Nominating Committee appointed by Alumni President Thomas C. Egan is looking for suggestions for suitable candidates for Office in the Association and for membership on the Board of Governors. Next April we will elect a President, six Vice-Presidents (one for each department of the University) a Recording Secretary, a Treasurer and eight members of the Board of Governors from the following areas: District of Columbia, 2; New England, 2; New York City, 1; Middle Atlantic States (exclusive of New York), 1; Mid-West 1; West Coast, 1.

If you wish to suggest a candidate (including yourself) keep in mind that he will be expected to attend four Board meetings each year and that only active members of the Association are eligible for office. Officers serve for two years, Board members for three. No one is re-elected.

Send your recommendations to the Chairman of the Nominating Committee, Thomas A. Dean, '20, 666 Lake Shore Drive, Chicago, Ill.

**Rhode Island Cheers Its Own**

The annual Recognition Dinner of the Georgetown Club of Rhode Island will be held this year at the Sheraton-Biltmore Hotel in Providence on November 27th. Following the custom inaugurated in 1950, Rhode Island Georgetown Alumni who have made distinguished records in the past year will be honored at the dinner. This year's slate would be hard to match anywhere:

- Rev. William M. Delaney, College '25, Director of the C.Y.O. in the Providence Diocese.
- Hon. Stephen A. Fanning, Law '33, Associate Justice, Superior Court of Rhode Island.
- Hon. Edward L. Leach, Law '08, former U. S. Senator, now Justice of the U. S. District Court.
- Hon. Lawrence A. McCarthy, Law '26, Mayor of the City of Pawtucket.
- Dr. Michael L. Mullaney, Dent. '19, Sc.D. '28, Knight of Malta, Knight of the Holy Sepulchre.
- Col. Thomas A. Clarke, Law '17, Past President of the Georgetown University Club of Rhode Island.
- Chairman of the Activities Committee in charge of the Dinner is Donald O. Burke, Law '24, 1904 Industrial Trust Building, Providence, R. I. If you are anywhere near Providence on the 27th of November, you won't want to miss this.
McDonough Dedication Week-End

Perhaps the most ambitious program undertaken by the Alumni Association will be the Dedication of the McDonough Memorial Gymnasium during the week-end of December 7, 8 and 9, 1951. The Association, working closely with the University's Dedication Committee has mailed more than 25,000 preliminary notices to Alumni, Faculty and friends of the University.

At eight o'clock on the evening of Friday, December 7, the Alumni Association will formally present the building to the University Administration. This ceremony will be followed by a varsity basketball game between Georgetown and Fordham University. This first showing of the Gymnasium and of Georgetown's 1951-52 basketball squad is expected to fill the 4850 seats in the new structure to capacity.

Next morning, Saturday, December 8, a Solemn High Mass of Dedication will be sung in the Gymnasium. Following the Mass, the building will be blessed and added to the facilities of the University.

On Saturday afternoon the President and Directors of the University will be hosts at a reception for the Faculty and the Alumni and their wives attending the dedication and opportunity will be given for the guests to inspect the building in detail. At nine o'clock Saturday evening, the Dedication Ball will climax the events of the day.

On Sunday morning, at 10:30 A.M., the Very Reverend David Nugent, S.J., Provincial of the Maryland Province of the Society of Jesus will celebrate a Low Mass for the Alumni and their families and at four in the afternoon a concert will be presented in the huge building by the National Symphony Orchestra directed by Howard Mitchell.

For the Dedication Ball, which is being planned as the forerunner of a series of annual Georgetown Alumni dances, a ladies committee is now at work handling all details from refreshments and decorations to actual ticket sales. Committees are formed not only for Washington, but for all of the cities in which there is a considerable Georgetown population in order to make the Dedication truly representative of the national character of Georgetown. Honorary Chairman of the Dedication Ball Committee is Mrs. Egan, wife of Thomas C. Egan, '17, National President of the Alumni Association. Mrs. Egan will be assisted by Mrs. Thomas C. Mee and Mrs. Thomas A. Dean wives of the immediate past Presidents of the Alumni Association, Thomas C. Mee, '17 and Thomas A. Dean, '20.

Chairman of the important Ticket Committee is Mrs. Peabody, wife of Dr. J. Winthrop Peabody, Med. '14. Under her chairmanship there are Alumni wives representing each of the departmental divisions of the University. Sub-chairman for the Faculty is Mrs. Tibor Kerekes; College, Mrs. Donald Gibbens, Graduate School, Mrs. Richard S. Abbey; Medical School, Mrs. Robert C. Rush; Law School, Mrs. Al. Philip Kane; Dental School, Mrs. Francis J. Fabrizio; Foreign Service School, Mrs. John R. Crown; School of Nursing, Miss Frances Gable, President of the Alumni Association of the School of Nursing.

Other Committee Chairmen include: Mrs. John A. Reilly, Publicity; Mrs. William S. Abell, Orchestra and Entertainment; Mrs. William D. Foote, Refreshments; Mrs. Walter Ranber, Decorations; Mrs. E. Barrett Prettyman, Floor Committee; Mrs. James S. Ruby, Attendance from outside of Washington.

The cost of attending the imposing week-end has been held to a minimum. Block tickets admitting one couple to the events of the entire week-end are priced at $10.00 each, including tax. These block tickets are strictly limited to the first 1,000 Alumni purchasers, since a thousand couples is the limit for the Dedication Ball. Tickets for the opening basketball game and for the Symphony Concert will be offered to the student body and to the general public after the Alumni sale has ended. Alumni planning to attend must send their checks to the Dedication Committee not later than November 30, the deadline for Alumni Reservations.

The Alumni Association has reserved most of the available space in the Shoreham Hotel for Alumni and their wives from out of town. When sending your check for block tickets, please mention the accommodations you desire so that your hotel reservations may be made while space is still available.

This will be, without doubt, the greatest Alumni party which Georgetown has ever seen, even out-doing the Centennial (which most of us do not remember) and the Sesqui-centennial, (which most of us do). Do not be disappointed. The dead-line date is absolute and the interest is high. Send your check today and enjoy a week-end of fun and inspiration and the realization that your Association has accomplished something good and lasting in the cause of the type of education to which we are dedicated.

Report On Alumni House

The last issue of the Magazine introduced Alumni House and asked, in a quiet way, for your support of our little campaign to furnish it. I am happy to report here that the response was most generous and enabled us to provide almost everything needed to make our headquarters comfortable, attractive and useful. We still need sufficient funds to provide janitor and cleaning service throughout the year and to meet bills for emergency repairs and replacements, but otherwise the House is well provided for.

Since our last description of the House, a major change has occurred which makes it still more adaptable to our needs. Sometime in the nineties of the existence of 3604 O St., N.W., a forgotten tenant apparently attempted to dig a cellar under the structure, but succeeded only enough to make the District of Columbia Building Inspector dubious about the fitness of the building to maintain our heavy addressograph machinery. As a result, it has been decreed that shoring under the walls is necessary, and while the shoring is being attended to, a full basement is being provided. Into that basement, when completed, will go our mail room with two addressograph machines, a graphotype and cabinets loaded with 25,000 addressograph plates. The room which those things now occupy on the ground floor will be used as additional office space for the secretarial force which is now crowded into one small room. It will also give us an opportunity to hang some of the scores of old photographs which always attract attention but which cannot be displayed in our present crowded quarters.

Callers at Alumni House have been numerous since the last issue of the Magazine appeared. In those three months nearly two hundred Alumni have dropped in, an average of better than two each working day. During the American Dental Association Convention in early October we had a steady stream of curious Dental School graduates who were loud in their praises of this new development at Georgetown. Perhaps the greatest tribute to our new headquarters was paid in early September when the Executive Secretaries of the Alumni Associations of Bowdoin, University of California and Catholic University came to call. The common reaction was, "If we only had something like this!"

We have also noticed an increase in Student interest in the Association as a result of the occupancy of Alumni House.

During the past month we have hung panels inside the front door, listing the Alumni Donors to the fund to furnish the House. That also has attracted much interest, since more than three hundred names are listed. As new gifts are received, the names are added to the panels.

CLOSE-OUT ON 1947 DIRECTORY

The Georgetown University Alumni Directory, 1947, is now almost five years old. A limited number of copies remain in stock and space in Alumni House is valuable. Send $1.00 for a copy of a valuable volume which originally sold for $3.50. The Directory contains 52,000 names of Georgetown students from 1789 to 1946, addresses for more than 22,000 living sons of Georgetown, class lists and lists of Alumni by State and County together with their occupations. The book was up to date in January 1947. It is now at least 80% accurate. Here is your last chance for a bargain. The next Directory cannot appear for at least two years.
ATHLETICS

The New Intramural Football Program at Georgetown
By CHARLES STEELE
Former Sports Editor of the HOYA

It's Fall again, and despite what you've been reading in the nation's newspapers, footballs are spiraling through the crisp Autumn air on the Hilltop.

As a matter of fact over 130 students make their way up to the Varsity Field every day wearing full pads and equipment. Here, under the coaching of the former varsity football players, they put as much energy, work and spirit into their preparation for the coming Saturday's game as the varsity players ever did. When the first four game Saturdays did roll around, crowds of over 1,000 were on hand to watch them.

What is this intramural program then? Is it a red herring to sooth students and alumni? Will it last? What do the students think of it, and most important of all, how does it compare in the eyes of the students with Intercollegiate football as it used to be played at Georgetown?

The two men who were responsible for the new program coming to Georgetown are Fr. William Michaelman, S.J., and Intramural Director George Murtaugh, '26. When these two men brought their ideas forward, they received the go-ahead sign and a willingness to cooperate from the Rev. President and from Jack Hagerty, Director of Athletics. Fr. Michaelman and Mr. Murtaugh then proceeded to draw up rules and a schedule, arrange for medical examinations, procure officials and take care of the countless details that would be necessary for such a program.

When this was done the program's future and success passed into the hands of the students. Enthusiasm was spontaneous and, as the passing of time has proven, lasting. All classes had large turnouts. The field was a beehive of activity, very spirited activity. The second Friday of practice early in the Fall, Coach Frank Mattingly told his Freshmen charges that, due to the Trinity College Rat Race, there would be no practice on Saturday. A chorus of "No!"'s greeted this announcement, and the next day the Rat Race was forced to get along without the Freshmen football players.

The first game saw a crowd of over 1,300 students and guests watching the Sophs beat the Freshmen 20-0. Here was a crucial test. Would the Freshmen continue now that they were beaten so badly? They not only continued, but two weeks later beat the Junior 13-12. In the meantime the Juniors had edged the Seniors 7-6 in the second game of the season. Then in the fourth game of the year the Sophs came from behind to hand the Seniors a 14-13 loss before another overflow crowd. So to answer the first question, the program is no red herring. The students benefit from playing, and from a look at the attendances, the students also enjoy watching these close, hard-fought inter-class battles. There's nothing cheap or second rate about these games. The players wear the former varsity uniforms, and regular officials are on hand each Saturday.

The playing, too, is of a surprisingly high caliber. Charlie Pechous, an All-State back while at Campion in Wisconsin, is one of the main threats in the Senior backfield. Charlie has gotten off a few punts of over 60 yards this year. Mike Driscoll, a Frosh ball carrier, was a Philadelphia schoolboy sensation last year. The play is not shoddy. These teams are playing real football.

Would the students trade this program for Intercollegiate football as we have known it, that is with one or two home games a season. I personally don't think they would. I'm sure the boys who are playing would not. Would the students like to have both this program AND Intercollegiate football. There is no doubt that they would, but finances and facilities make this impossible. The logical compromise is what the student body almost universally would like to see come about. That is a Georgetown football team made up of all the students now playing Intramural football, or their later day counterparts. This team, made up of non-scholarship players, playing against other schools with the same kind of teams, is already popular talk under Copley tree. With the current trend of de-emphasis such a team may be possible in a few years. Games could be played on the campuses, by the students.

Stephen O. Ford, G.U. '16, Manager
University Public Relations

A University-wide public relations program has been organized at Georgetown and will begin at once the task of building Hoyas prestige through the means of press, radio, television, magazines and institutional publications. For the present the PR staff will number four persons—a director, two writers and a secretary. Temporary quarters for the publicists have been set up on the second floor of the Healy Building.

Robert J. Avery, Jr., College ’32, has been appointed director of the public relations program. Before returning to the Hilltop in his new position, Bob spent four years on the PR staff at the City College of New York, where he handled all-around press relations, did radio and television work, and produced brochures, feature articles and news-letters.

Bob is the author of several novels and a number of magazine stories, articles and reviews. A Pacific veteran with five years’ Army service, he comes to Washington from Bridgeport, Connecticut.
